SPECIFICATION OVERVIEW

ASCARI CONFERENCE

1. Select the Top Surface Material

Choose between Veneer, Glass, Stone, Fenix with 1mm Edgeband, Fenix with Hardwood edge, Laminate with 2mm Edgeband, or Laminate with Hardwood edge.

2. Select the Top Shape and Edge Profile

Choose between Rectangle, Boat or Round top shapes. Then, based on the top shape and material choices, choose an edge profile. Not all edge profiles are available on each material and top shape. See matrix on page 8 for details.

3. Select the Top Size

Rectangle and Boat Tops are available in 96-240 inch lengths in 12 inch increments. Rectangle tables are available in 42, 48, 54, 60, and 72 inch widths. Boat tables are available in 32/40, 32/44, 36/48, 36/50, 36/54, 42/60, and 54/72 inch widths. Round tables are available in 42-96 inch diameters.

4. Select the Base Style and Panel Finish

Rectangle and Boat tables are available with the following base options: Closed Panel, Open Panel, and Island. Round tables are available with Open or Closed Panel X bases and Column bases.

The wood panel on the base can be finished in veneer or paint for closed panel style and island bases. The open panel bases are available in veneer or painted.

5. Select the Subtop Finish

Subtops can be finished in veneer, or paint. 2-inch thick tops do not have a subtop.

6. Select the Base Reveal Finish

The reveal on Panel Bases can be finished in polished stainless, clear anodized, satin bronze plating, blackened nickel, chemetal, veneer, or powder coat. In open style bases, any visible metal will be finished in the reveal color selection. The reveal on Island Bases is powder coat.

7. Select the Power Options

Tabletop power options available: wireless charging for veneer tables; Power Matrix in compact through extra-large sizes.

Wireless charging can be specified with any other power option on the same table.

Power Matrix is bezel free with a with a door that will match the top on veneer and glass tables. It is bezel free with a glass or metal door on stone tables. It will have a bezel and either a glass or metal door for Fenix or laminate tables.

Power Matrix is available in compact size only on round tables.

Below Table Power options available: Power Drawers, Low Profile Perimeter Power with a Lighted Option, or Power Rail.

The Power Drawers and Low Profile Perimeter Power units are integrated into the subtop. Only one below table power option can be specified on a table. However, both a subtop power and wireless power can be specified for veneer tables that include a subtop.

Modular power is included if a table is specified with Power Drawer, Low Profile Perimeter Power or wireless charging units. It is optional for Power Matrix.

DETAIL OVERVIEW

ASCARI CONFERENCE

Ascari Table offers eight surface materials, five edge profiles, six base options, and a host of premium finish options for the subtop and base panel and metal reveal. In addition, Ascari offers a wide array of power connectivity options and is available in sizes from 42-240 inches in Rectangle, Boat, and Round shapes.

Each base has space for concealed and easily accessible wire management.

A third base is required for tables longer than 144 inches.

TOP MATERIALS

Ascari Conference is available in a variety of top materials and finishes. Choose between Veneer, Glass, Stone, Fenix with 1mm Edgeband, Fenix with Hardwood Edge, Laminate with 2mm Edgeband, or Laminate with Hardwood Edge.

See appendix pages vi-vii for further details on finishes.

TOP SHAPES

RECTANGLE TABLES

Rectangle shape tables come in 96-240 inch lengths in 12 inch increments and 42, 48, 54, 60, and 72 inch widths.

LENGTH	SEATING CAPACITY		WIDTH		
	42	48	54	60	72
96	8	8	-	-	-
108	10	10	10	-	-
120	10	10	10	-	-
132	-	10	10	-	-
144	-	12	12	12-14	-
156	-	14	14	14-16	-
168	-	-	14	14-16	-
180	-	-	16	16-18	-
192	-	-	16	16-18	16-18
204	-	-	16	16-18	16-18
216	-	-	18	18-20	18-20
228	-	-	18	18-20	18-20
240	-	-	18	18-20	18-20

BOAT TABLES

Boat shape tables come in 96-240 inch lengths in 12 inch increments and 32/40, 32/44, 36/48, 36/50, 36/54, 42/60, and 54/72 inch widths.

LENGTH	SEATING CAPACITY		WIDTH		
	36/48	36/50	36/54	42/60	54/72
96	8	-	-	-	-
108	10	-	-	-	-
120	-	10	-	-	-
132	-	-	10	-	-
144	-	-	12	-	-
156	-	-	12	-	-
168	-	-	-	14	-
180	-	-	-	14	-
192	-	-	-	-	16-18
204	-	-	-	-	16-18
216	-	-	-	-	18-20
228	-	-	-	-	18-20
240	-	-	-	-	18-20

ROUND TABLES

Round shape tables come in 42, 48, 54, 60, 72, 84, and 96-inch diameters.

LENGTH	SEATING CAPACITY		WIDTH				
	42	48	54	60	72	84	96
42	4	-	-	-	-	-	-
48	-	4	-	-	-	-	-
54	-	-	4	-	-	-	-
60	-	-	-	4s	-	-	-
72	-	-	-	-	8	-	-
84	-	-	-	-	-	8	-
96	-	-	-	-	-	-	8-10

EDGE PROFILES

Choose between five beautiful edge profiles:

- 2" Thick
- Square
- Chamfer
- Square with Metal Detail Option
- Chamfer with Metal Detail Option

Not all edge profiles are available with each top material and shape. See the matrix below.

All edge profiles, except for the 2" Thick come with a wood subtop. The subtop can be finished in veneer or paint. More details on finishes can be found on appendix pages vi-vii.

The metal detail option on the subtop can be finished in powder coat, polished stainless or clear anodized. It is flush with the top of the table.

BASE STYLES

Ascari Conference has six base styles:

- Closed Panel
- Open Panel
- Closed Panel X
- Open Panel X
- Island Base
- Column Base

Rectangle and boat shape tables are available with Closed Panel, Open Panel and Island bases. Round tables can have open or closed panel X bases or a column base.

Each base style has built in, concealed and easily accessible wire management.

Each of the panel bases has wood panels and a 2-inch metal reveal. The wood panels are available in veneer or paint. The reveal can be finished in polished stainless, satin bronze plating, clear anodized, chemetal, veneer, or powder coat. If the interior of the base is visible (as in the open panel bases) then the interior defaults to the reveal finish.

The island base panels have the same finish options as the panel bases. The metal reveal is available in powder coat only.

The column base is available in polished chrome or powder coat. The column base is available for 42 and 48 inch round tables exclusively.

A third base is required for tables longer than 144 inches.

TABLE TOP POWER OPTION: POWER MATRIX

Power Matrix is filled with a broad array of high performance features and refined aesthetic elements.

POWER

Power Matrix features simplex receptacles for power connectivity, the quantity of which is pre-determined based on the size of the unit. An optional USB-A+C charger can also be specified in place of one of the simplex receptacles when desired. Corded or hardwired infeed options add flexibility.

DATA/AV FACEPLATES

Power Matrix accommodates Extron Architectural Adaptor Plates (AAPs) for unparalleled flexibility in data and AV connectivity.

DESIGN

Veneer top tables are available with a veneer, glass or metal Power Matrix door. Glass, Stone, Laminate and Fenix top tables are available with either a glass or metal Power Matrix door.

Laminate and Fenix tables will have Power Matrix units that include a bezel. Veneer, Glass and Stone top tables will have Power Matrix units without a bezel. Metal Power Matrix doors can be finished in powder coat, polished chrome or clear anodized. The bezel can be finished in powder coat or polished chrome.

PowerMatrix units feature a clear anodized aluminum body design. The metal and wood door on the Power Matrix features the signature “file folder” design classic to the Ascari Collection. Glass doors are square without the “file folder” design.

PERFORMANCE

Friction hinges ensure smooth travel through the door’s range of motion and can hold the door in any position. Hidden door stops maintain the minimalist aesthetic. Cable storage is both concealed and ample.

Power Matrix Medium shown

TABLE TOP POWER OPTION: POWER MATRIX

STANDARD CONFIGURATIONS

Power Matrix is offered in four standard sizes, each with a pre-determined quantity of simplex outlets and AV faceplates. With each size, an optional 2 amp USB-A+C charger (1 amp per port) replaces one of the simplex outlets.

Small and Compact

- Single door design
- 5.375" x 6" cutout
- Two simplex outlets
- Three AV faceplates. Standard configuration includes two blank faceplates and one faceplate with two RJ-45 (data) connectors.
- (1) 12' plug-in infeed cord

Standard

Medium

- Single door design
- 5.375" x 8.25" cutout
- Four simplex outlets
- Four AV faceplates. Standard configuration includes three blank faceplates and one faceplate with two RJ-45 (data) connectors.
- (1) 12' plug-in infeed cord

Large

- Double door design
- 10.75" x 15.25" cutout
- Six simplex outlets (three per side)
- Six AV faceplates (three per side). Standard configuration includes two blank faceplates and one faceplate with two RJ-45 (data) connectors per side.
- (2) 12' plug-in infeed cords

Extra Large

- Double door design
- 10.75" x 30.25" cutout
- Eight simplex outlets (four per side)
- Twelve AV faceplates (six per side). Standard configuration includes four blank faceplates and two faceplates with two RJ-45 (data) connectors per side.
- (2) 12' plug-in infeed cords

Field-Wired

Some local electrical codes may require field-wiring during installation. In such instances, a Field-Wired option may be specified. In this configuration, each Power Matrix unit will be supplied with a 6' flexible metal conduit with hot, ground and neutral wires.

TABLE TOP POWER OPTION: POWER MATRIX

DIMENSIONS

Each Power Matrix unit includes a low-profile pan beneath the work surface to conceal the unit and provide ample storage capacity for excess cables. The size of the cut-out in the table top varies with each size of Power Matrix unit.

Small

Compact

Medium

Large

Extra Large

TABLE TOP POWER OPTION: POWER MATRIX

POWER PLANNING

Power Matrix is available with two options for connection with building power:

DIRECT PLUG-IN

The 15-amp power cord from each Power Matrix unit is plugged into a floor monument. The floor monument must have at least one power outlet per small or medium Power Matrix unit in the table and two power outlets per large or extra large Power Matrix (e.g., a table with four small or medium Power Matrix units would need four power outlets in the floor monument).

Single In-Feed

SINGLE INFEEED

Each Power Matrix unit is plugged into a two-circuit modular electrical system in the table from which a single connection is made to a floor monument. This connection can be either hardwired (to utilize both of the circuits in the modular electrical system) or corded (which requires a 20-amp power outlet in the floor monument and reduces the modular electrical system in the table to a single circuit).

Two-Circuit Modular Electrical System

- 4-wire, 20-amp, 2-circuit modular electrical system
- Only present on tables specified with the Single In-Feed option
- Hardwire or corded (20-amp) in-feed options. A licensed electrician is required to complete hardwire connections to building's power source.
- Neutral (white) wires are 10 gauge, hot and ground wires are 12 gauge
- All electrical components satisfy National Electrical Code (NEC) requirements and are UL listed

Electrical Diagram — Hardwire Power Infeed Only

TABLE TOP POWER OPTION: POWER MATRIX

LOCATION CODES

Power Matrix is offered in a variety of locations and quantities per table size, offering a broad range of performance and pricing options.

RETRACTORS FOR POWER MATRIX

RETRACTORS

Cable retractors, for use with Power Matrix Small and Medium only, mount directly to the underside of conference room tables using the included mounting bracket. Loaded with 12' of cable that extends out 5' from the retractor. Retractors have a female input from the building infrastructure and a male connector on the output side. Not available on round tables.

TABLE TOP POWER OPTION: WIRELESS POWER

WIRELESS POWER

Wireless Power Units are installed below the veneer, 10 inches inset from the edge of the table, to charge cell phones wirelessly. A small white LED indicator light is visible through the veneer to signal the location of each wireless charging unit. The quantity of the wireless power units per table is determined based on the size and shape of the table.

Wireless Power units are available to be specified along with other power options including: Power Matrix, Power Drawers, Low Profile Perimeter Power, and Power Rail.

When Wireless Power is specified, Ascari tables include a modular electrical system within the base of the table, allowing for a single point of connection to the building power. This connection can be either hardwired or corded (which requires a 20-amp power outlet in the floor monument), both of which are included with the table. See page 79 for more information on this electrical system.

WIRELESS POWER LOCATIONS: RECTANGLE AND BOAT TABLES

Length	Rectangle and Boat					Rectangle		Boat
	A	B	C	D	E	Width	X	X

*Charging Units will be across from each other

TABLE TOP POWER OPTION: POWER CAP

POWER

Where more power is desired and AV connectivity is not required, there are two standard configuration options available: one option with a simplex outlet and a USB-A+C charger or a two simplex outlet choice.

LOCATIONS

Power Cap or 2"-diameter grommet units can be specified at the center of round tables. Available only on 42" and 48" diameter round tables with Column Base.

Two Port:
For use with Round Tops

DESIGN

Power Cap's sleek profile and modest footprint features an aluminum body. Available in powder coat and polished chrome finish options.

PERFORMANCE

Intended for high use and quick access, Power Cap's low-profile aesthetic is non-lidded for ample space for plug-heads of all sizes.

POWER CAP OR GROMMET LOCATIONS: ALL TABLE SIZES

Table Size	Base Style	Power Cap	CENTER
42 Dia.	Column Base	Two Port	21
48 Dia.	Column Base	Two Port	24

UNDER SURFACE POWER OPTION: POWER DRAWER

POWER DRAWERS

Discreetly incorporated into the subtop of the table, Power Drawers provide convenient yet covert access to power and AV connectivity (at the ends of the table) while leaving the table surface uninterrupted. The quantity of the Power Drawers per table is determined based on the size and shape of the table.

The drawer front features the same profile and finish as the table subtop, allowing it to blend seamlessly into the table design. The Power Drawer pulls out 10 inches beyond the edge of the table and closes on soft close slides. A small gap at the top of the drawer front allows the drawer to be closed while cables are connected to devices on the tabletop. The felt-lined drawers also provide storage for extra items.

The configuration inside the drawers on the long side of the tables is 2 simplex/ 2 USB A+C and 1 simplex/ 1 USB A+C/ 2 AAP plates on the ends of the table. The power can be removed from one drawer to create more space for storage.

When Power Drawers are specified, Ascari tables include a modular electrical system within the center base of the table, allowing for a single point of connection to the building power. This connection can be either hardwired or corded (which requires a 20-amp power outlet in the floor monument), both of which are included with the table. See page 79 for more information on this electrical system.

Power Drawer Dashboard - Long Sides of Table

Power Drawer Dashboard - Ends of Table

Wire Management Gap Between Table Top and Power Drawer (Chamfer Edge Shown)

POWER DRAWERS PER TABLE SIZE

The quantity of Power Drawers per table is determined based on the size of the table.

TABLE SHAPE	TABLE SIZE	SEATING CAPACITY	POWER DRAWERS PER TABLE	POWER DRAWERS PER LONG SIDE	POWER DRAWERS PER END	TOTAL # OF RECEPTACLES	TOTAL # OF USB-A+C PORTS	TOTAL # OF AAP PLATES
Round	42 - 48	4	Not Available	0 per side	0 per end	0	0	0
Round	54	4	2	2 per side	0 per end	3	3	2
Round	60 - 96	5-10	4	4 per side	0 per end	7	7	2
Rectangle or Boat	96	8	4	1 per side	1 per end	6	6	4
Rectangle or Boat	108 - 132	10	6	2 per side	1 per end	10	10	4
Rectangle or Boat	144	12-14	8	3 per side	1 per end	14	14	4
Rectangle or Boat	156 - 168	14-16	8	3 per side	1 per end	14	14	4
Rectangle or Boat	180 - 204	16-18	10	4 per side	1 per end	18	18	4
Rectangle or Boat	216 - 240	18-20	10	4 per side	1 per end	18	18	4

UNDER SURFACE POWER OPTION: LOW PROFILE PERIMETER POWER

LOW PROFILE PERIMETER POWER

Discreetly incorporated into the subtop of the table, Low Profile Perimeter Power units provide convenient yet covert access to power and AV connectivity (at the ends of the table) while leaving the table surface uninterrupted. The quantity of the power units per table is determined based on the size and shape of the table. The configuration of the power units on the long side of the tables is 2 simplex/ 2 USB A+C and 1 simplex/ 1 USB A+C/ 2 AAP plates on the ends of the table.

The Low Profile Perimeter Power unit is set into the wood subtop in a metal housing that is finished in the same color choice as the metal beam of the table. If the housing color is Cloud or Foil, then the simplex color of the unit will be white. Any other finish will have black simplexes. The lighted option offers LED down lighting to illuminate the faceplate. The light can be turned off by an on/off switch.

When Low Profile Perimeter Power is specified, Ascari tables include a modular electrical system within the base of the table, allowing for a single point of connection to the building power. This connection can be either hardwired or corded (which requires a 20-amp power outlet in the floor monument), both of which are included with the table. See page 79 for more information on this electrical system.

Rectangle or Boat	216-240	18-20	10	4 per side	1 per end	18	18	4

UNDER SURFACE POWER OPTION: POWER RAIL

This low-profile option addresses the need for power & data connectivity just below the table top. This is an ideal choice for those who desire a visually uninterrupted table top and appreciate the inherent flexibility of the Power Rail to be removed at a later date as they transition to a truly wireless environment.

Held in place with screws, Power Rail units can be placed anywhere along the perimeter of the table. This flexible mounting design allows for additional units to be added as necessary, or to be removed when no longer needed.

Power Rails are available in three configurations:

- Two simplex receptacles (UL Listed)
- One simplex receptacle and one powered USB-A+C connector (UL Listed)
- Two single space A/V faceplate designed for use with Extron Architectural Adaptor Plates (AAPs)

When Power Rails are specified on an Ascari table, a direct plug-in infeed or hardwired option is available. The direct plug-in infeed option has a single circuit electrical system and the hardwire option requires a two-circuit electrical system. Maximum of 12 Power Rails per table

WIRE MANAGEMENT OPENINGS

WIRE MANAGEMENT

Wires run behind the metal reveal of the panel bases for wire management. They can be accessed by removing the wooden panels of the base.

There is a 2.5" space between the bottom of the Open Panel Base and the floor for wire management.

Closed Panel Base

Rectangle & Boat - 72"-Wide Tops

Rectangle & Boat - 60"-Wide Tops

Rectangle & Boat - 54"-Wide Tops

VENEER TOP

GENERAL INFORMATION

- Veneer on base panels is vertical
- Column base is metal. Select Powder Coat or Polished Chrome finish.
- Top material of column base includes a subtop
- Subtop is set back 1/4" from edge of the table top
- Subtop is only available in Paint finish (-PAP) option when Paldeo veneer finish is selected for the top
- Wireless charging can be specified with any other power option on the same table
- Faceplate of the Low Profile Perimeter Power will default to beam color unless otherwise specified
- Metal detail option can be any metal finish (except Chemetal)
- Power Drawer and Low Profile Perimeter Power locations are set within the subtop and are in pre-determined quantities based on the size of the table
- Power Drawers and Perimeter Power Units have (2) Simplex / (2) USB-A+C Chargers on the table. Each table has one drawer or perimeter power units with the configuration of (1) Simplex / (1) USB-A+C Charger / 2 Extron Architectural Adaptor Plates (AAP) plates.
- If any finish other than Powder Coat is selected on the base reveal, the 3/4" above and below the base panels defaults to black if no other selection is made
- Power Drawer face is hardwood
- Power Drawer bottom defaults to Knoll Felt - Pewter
- Power Drawer has a space between the drawer and the bottom of the table for wire access/egress when the drawer is closed
- The reveal finish selection will include all interior surfaces on Open Panel bases
- Compact Power Matrix is the only Power Matrix option for Round tables
- Retractors are not available on Round tables
- Subtop has a hardwood rail

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose Veneer Finish
- Choose Paint Finish, if painted base (-POX or -PCX) is specified, or if painted sub-top (-PAP) is specified. If multiple components are specified as painted, they will all be the same finish.
- Choose Chemetal Finish, if specified as a reveal finish (-CBR)

- Faceplate of the Low Profile Perimeter Power will default to beam color unless otherwise specified
- Metal detail option can be any metal finish (except Chemetal)
- Power Drawer and Low Profile Perimeter Power locations are set within the subtop and are in pre-determined quantities based on the size of the table
- Power Drawers and Perimeter Power Units have (2) Simplex / (2) USB-A+C Chargers on the table. Each table has one drawer or perimeter power units with the configuration of (1) Simplex / (1) USB-A+C Charger / 2 Extron Architectural Adaptor Plates (AAP) plates.
- If any finish other than Powder Coat is selected on the base reveal, the 3/4" above and below the base panels defaults to black if no other selection is made
- Power Drawer face is hardwood
- Power Drawer bottom defaults to Knoll Felt - Pewter
- Power Drawer has a space between the drawer and the bottom of the table for wire access/egress when the drawer is closed
- The reveal finish selection will include all interior surfaces on Open Panel bases
- Compact Power Matrix is the only Power Matrix option for Round tables
- Retractors are not available on Round tables
- Subtop has a hardwood rail

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

LAMINATE TOPS

- Choose Laminate Finish
- Choose Veneer Finish, if Hardwood Edge specified
- Choose ABS Finish, if ABS Edge specified
- Choose Paint Finish, if painted base (-POX or -PCX) is specified, or if painted sub-top (-PAP) is specified. If multiple components are specified as painted, they will all be the same finish.
- Choose Chemetal Finish, if specified as a reveal finish (-CBR)

FENIX TOPS

- Choose Fenix Finish
- Choose Veneer Finish, if Hardwood Edge specified
- Choose 1mm Edgeband Finish, if 1mm Edgeband specified
- Choose Paint Finish, if painted base (-POX or -PCX) is specified, or if painted sub-top (-PAP) is specified. If multiple components are specified as painted, they will all be the same finish.
- Choose Chemetal Finish, if specified as a reveal finish (-CBR)

GENERAL INFORMATION

- Veneer on base panels is vertical
- Column base is metal. Select Powder Coat or Polished Chrome finish.
- Top material of column base includes a subtop
- Subtop is set back 1/4" from edge of the table top
- Wireless charging can be specified with any other power option on the same table
- Faceplate of the Low Profile Perimeter Power will default to beam color unless otherwise specified
- Metal detail option can be any metal finish (except Chemetal)
- Power Drawer and Low Profile Perimeter Power locations are set within the subtop and are in pre-determined quantities based on the size of the table
- Power Drawers and Perimeter Power Units have (2) Simplex / (2) USB-A+C Chargers on the table. Each table has one drawer or perimeter power units with the configuration of (1) Simplex / (1) USB-A+C Charger / 2 Extron Architectural Adaptor Plates (AAP) plates.
- If any finish other than Powder Coat is selected on the base reveal, the 3/4" above and below the base panels defaults to black if no other selection is made
- Power Drawer face is hardwood
- Power Drawer bottom defaults to Knoll Felt - Pewter
- Power Drawer has a space between the drawer and the bottom of the table for wire access/egress when the drawer is closed
- The reveal finish selection will include all interior surfaces on Open Panel bases
- Compact Power Matrix is the only Power Matrix option for Round tables
- Retractors are not available on Round tables
- Subtop has a hardwood rail
- Glass sections noted are for tables without power units. When power units are specified in the table, the glass sections are determined by the size of the power unit, quantity and location.

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

GLASS TOP

- Choose Glass Finish
- Choose Veneer Finish, if Veneer base (-VOX or -VCX) is specified, if Veneer sub-top (-VAP) is specified, or if Veneer is selected for Base Reveal (-VBR). If multiple components are specified as Veneer, they will all be the same finish.
- Choose Paint Finish, if painted base (-POX or -PCX) is specified, or if painted sub-top (-PAP) is specified. If multiple components are specified as painted, they will all be the same finish.
- Choose Chemetal Finish, if specified as a reveal finish (-CBR)

STONE TOP

- Choose Stone Finish
- Choose Veneer Finish, if Veneer base (-VOX or -VCX) is specified, if Veneer sub-top (-VAP) is specified, or if Veneer is selected for Base Reveal (-VBR). If multiple components are specified as Veneer, they will all be the same finish.
- Choose Paint Finish, if painted base (-POX or -PCX) is specified, or if painted sub-top (-PAP) is specified. If multiple components are specified as painted, they will all be the same finish.
- Choose Chemetal Finish, if specified as a reveal finish (-CBR)

GENERAL INFORMATION

- Top sections noted are for tables without Power Matrix units. When Power Matrix units are specified on the table, the top sections are determined by the size of the table and the size and quantity of the Power Matrix units. Please refer to page 15 for section information with Power Matrix units.
- Subtop sections listed are for tables with no power drawers or low profile perimeter power
- Veneer on base panels is vertical
- Wireless charging can be specified with any other power option on the same table
- Power Drawers and Low Profile Perimeter Power units not available on 2" Square profile tables
- If any finish other than Powder Coat is selected on the base reveal, the 3/4" above and below the base panels defaults to black if no other selection is made
- The reveal finish selection will include all interior surfaces on Open Panel bases
- Powder coat is the only option for the Island Base Reveal
- An optional Wire Chase column can be specified for more robust wire management needs on tables 96"-144"L with an Open or Closed Panel Base. See pages 29 and 38 for additional information.

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose Veneer Finish
- Choose Metal Finish for Beam
- Choose Paint Finish, if painted base (-POP, -PCP or -PVN) is specified
- Choose Chemetal Finish, if specified as a reveal finish (-CBR)

Power Drawer

Low Profile Perimeter Power

GENERAL INFORMATION

- Top sections noted are for tables without Power Matrix units. When Power Matrix units are specified on the table, the top sections are determined by the size of the table and the size and quantity of the Power Matrix units. Please refer to page 15 for section information with Power Matrix units.
- Subtop sections listed are for tables with no power drawers or low profile perimeter power
- Veneer on base panels is vertical
- Subtop is set back 1/4" from edge of the table top
- Subtop is only available in Paint finish (-PAP) option when Paldeo veneer finish is selected for the top
- Wireless charging can be specified with any other power option on the same table
- Faceplate of the Low Profile Perimeter Power will default to beam color unless otherwise specified
- Metal detail option can be any metal finish (except Chemetal)
- Power Drawer and Low Profile Perimeter Power locations are set within the subtop and are in pre-determined quantities based on the size of the table and are in pre-determined quantities based on the size of the table
- Power Drawers and Perimeter Power Units have (2) Simplex / (2) USB-A+C Chargers on the long sides of the table and (1) Simplex / (1) USB-A+C Charger / 2 Extron Architectural Adaptor Plates (AAP) plates on the ends of the table
- If any finish other than Powder Coat is selected on the base reveal, the 3/4" above and below the base panels defaults to black if no other selection is made
- Power Drawer face is hardwood
- Power Drawer bottom defaults to Knoll Felt - Pewter
- Subtop has a hardwood rail
- Power Drawer has a space between the drawer and the bottom of the table for wire access/egress when the drawer is closed
- The reveal finish selection will include all interior surfaces on Open Panel bases
- Powder coat is the only option for the Island Base Reveal
- An optional Wire Chase column can be specified for more robust wire management needs on tables 96"-144"L with an Open or Closed Panel Base. See pages 29 and 38 for additional information.

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose Veneer Finish
- Choose Metal Finish for Beam
- Choose Paint Finish, if painted base (-POP, -PCP or -PVN) is specified, or if painted sub-top (-PAP) is specified. If multiple components are specified as painted, they will all be the same finish.
- Choose Chemetal Finish, if specified as a reveal finish (-CBR)

Power Drawer

Low Profile Perimeter Power

GENERAL INFORMATION

- Top sections noted are for tables without Power Matrix units. When Power Matrix units are specified on the table, the top sections are determined by the size of the table and the size and quantity of the Power Matrix units. Please refer to page 17 for section information with Power Matrix units.
- Subtop sections listed are for tables with no power drawers or low profile perimeter power
- Veneer on base panels is vertical
- Subtop is set back 1/4" from edge of the table top
- Wireless charging can be specified with any other power option on the same table
- Faceplate of the Low Profile Perimeter Power will default to beam color unless otherwise specified
- Metal detail option can be any metal finish (except Chemetal)
- Power Drawer and Low Profile Perimeter Power locations are set within the subtop and are in pre-determined quantities based on the size of the table
- Power Drawers and Perimeter Power Units have (2) Simplex / (2) USB-A+C Chargers on the long sides of the table and (1) Simplex / (1) USB-A+C Charger / 2 Extron Architectural Adaptor Plates (AAP) plates on the ends of the table
- If any finish other than Powder Coat is selected on the base reveal, the 3/4" above and below the base panels defaults to black if no other selection is made
- Power Drawer face is hardwood
- Power Drawer bottom defaults to Knoll Felt - Pewter
- Subtop has a hardwood rail
- Power Drawer has a space between the drawer and the bottom of the table for wire access/egress when the drawer is closed
- The reveal finish selection will include all interior surfaces on Open Panel bases
- Powder coat is the only option for the Island Base Reveal
- An optional Wire Chase column can be specified for more robust wire management needs on tables 96"-144" L with an Open or Closed Panel Base. See pages 29 and 38 for additional information.

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose Laminate Finish
- Choose ABS Finish
- Choose Metal Finish for Beam
- Choose Paint Finish, if painted base (-POP, -PCP or -PVN) is specified, or if painted sub-top (-PAP) is specified. If multiple components are specified as painted, they will all be the same finish.
- Choose Chemetal Finish, if specified as a reveal finish (-CBR)

GENERAL INFORMATION

- Top sections noted are for tables without Power Matrix units. When Power Matrix units are specified on the table, the top sections are determined by the size of the table and the size and quantity of the Power Matrix units. Please refer to page 17 for section information with Power Matrix units.
- Subtop sections listed are for tables with no power drawers or low profile perimeter power
- Veneer on base panels is vertical
- Subtop is set back 1/4" from edge of the table top
- Wireless charging can be specified with any other power option on the same table
- Faceplate of the Low Profile Perimeter Power will default to beam color unless otherwise specified
- Metal detail option can be any metal finish (except Chemetal)
- Power Drawer and Low Profile Perimeter Power locations are set within the subtop and are in pre-determined quantities based on the size of the table
- Power Drawers and Perimeter Power Units have (2) Simplex / (2) USB-A+C Chargers on the long sides of the table and (1) Simplex / (1) USB-A+C Charger / 2 Extron Architectural Adaptor Plates (AAP) plates on the ends of the table
- If any finish other than Powder Coat is selected on the base reveal, the 3/4" above and below the base panels defaults to black if no other selection is made
- Power Drawer face is hardwood
- Power Drawer bottom defaults to Knoll Felt - Pewter
- Subtop has a hardwood rail
- Power Drawer has a space between the drawer and the bottom of the table for wire access/egress when the drawer is closed
- The reveal finish selection will include all interior surfaces on Open Panel bases
- Powder coat is the only option for the Island Base Reveal
- An optional Wire Chase column can be specified for more robust wire management needs on tables 96"-144" L with an Open or Closed Panel Base. See pages 29 and 38 for additional information.

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose Fenix Finish
- Choose 1mm Edgeband Finish
- Choose Metal Finish for Beam
- Choose Paint Finish, if painted base (-POP, -PCP or -PVN) is specified, or if painted sub-top (-PAP) is specified. If multiple components are specified as painted, they will all be the same finish.
- Choose Chemetal Finish, if specified as a reveal finish (-CBR)

Power Drawer

Low Profile Perimeter Power

GENERAL INFORMATION

- Top sections noted are for tables without Power Matrix units. When Power Matrix units are specified on the table, the top sections are determined by the size of the table and the size and quantity of the Power Matrix units. Please refer to page 18 for section information with Power Matrix units.
- Subtop sections listed are for tables with no power drawers or low profile perimeter power
- Veneer on base panels is vertical
- Subtop is set back 1/4" from edge of the table top
- Wireless charging can be specified with any other power option on the same table
- Faceplate of the Low Profile Perimeter Power will default to beam color unless otherwise specified
- Metal detail option can be any metal finish (except Chemetal)
- Power Drawer and Low Profile Perimeter Power locations are set within the subtop and are in pre-determined quantities based on the size of the table
- Power Drawers and Perimeter Power Units have (2) Simplex / (2) USB-A+C Chargers on the long sides of the table and (1) Simplex / (1) USB-A+C Charger / 2 Extron Architectural Adaptor Plates (AAP) plates on the ends of the table
- If any finish other than Powder Coat is selected on the base reveal, the 3/4" above and below the base panels defaults to black if no other selection is made
- Power Drawer face is hardwood
- Power Drawer bottom defaults to Knoll Felt - Pewter
- Subtop has a hardwood rail
- Power Drawer has a space between the drawer and the bottom of the table for wire access/egress when the drawer is closed
- The reveal finish selection will include all interior surfaces on Open Panel bases
- Powder coat is the only option for the Island Base Reveal
- An optional Wire Chase column can be specified for more robust wire management needs on tables 96"-144" L with an Open or Closed Panel Base. See pages 29 and 38 for additional information.

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose Glass Finish
- Choose Metal Finish for Beam
- Choose Veneer Finish, if Veneer base (-VOP, -VCP or -VVN) is specified, if Veneer sub-top (-VAP) is specified, or if Veneer is selected for Base Reveal (-VBR). If multiple components are specified as Veneer, they will all be the same finish.
- Choose Paint Finish, if painted base (-POP, -PCP or -PVN) is specified, or if painted sub-top (-PAP) is specified. If multiple components are specified as painted, they will all be the same finish.
- Choose Chemetal Finish, if specified as a reveal finish (-CBR)

GENERAL INFORMATION

- Top sections noted are for tables without Power Matrix units. When Power Matrix units are specified on the table, the top sections are determined by the size of the table and the size and quantity of the Power Matrix units. Please refer to page 19 for section information with Power Matrix units.
- Subtop sections listed are for tables with no power drawers or low profile perimeter power
- Veneer on base panels is vertical
- Subtop is set back 1/4" from edge of the table top
- Wireless charging can be specified with any other power option on the same table
- Faceplate of the Low Profile Perimeter Power will default to beam color unless otherwise specified
- Metal detail option can be any metal finish (except Chemetal)
- Power Drawer and Low Profile Perimeter Power locations are set within the subtop and are in pre-determined quantities based on the size of the table
- Power Drawers and Perimeter Power Units have (2) Simplex / (2) USB-A+C Chargers on the long sides of the table and (1) Simplex / (1) USB-A+C Charger / 2 Extron Architectural Adaptor Plates (AAP) plates on the ends of the table
- If any finish other than Powder Coat is selected on the base reveal, the 3/4" above and below the base panels defaults to black if no other selection is made
- Power Drawer face is hardwood
- Power Drawer bottom defaults to Knoll Felt - Pewter
- Subtop has a hardwood rail
- Power Drawer has a space between the drawer and the bottom of the table for wire access/egress when the drawer is closed
- The reveal finish selection will include all interior surfaces on Open Panel bases
- Powder coat is the only option for the Island Base Reveal
- An optional Wire Chase column can be specified for more robust wire management needs on tables 96"-144" L with an Open or Closed Panel Base. See pages 29 and 38 for additional information.

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose Stone Finish
- Choose Metal Finish for Beam
- Choose Veneer Finish, if Veneer base (-VOP, -VCP or -VVN) is specified, if Veneer sub-top (-VAP) is specified, or if Veneer is selected for Base Reveal (-VBR). If multiple components are specified as Veneer, they will all be the same finish.
- Choose Paint Finish, if painted base (-POP, -PCP or -PVN) is specified, or if painted sub-top (-PAP) is specified. If multiple components are specified as painted, they will all be the same finish.
- Choose Chemetal Finish, if specified as a reveal finish (-CBR)

GENERAL INFORMATION

- Top sections noted are for tables without Power Matrix units. When Power Matrix units are specified on the table, the top sections are determined by the size of the table and the size and quantity of the Power Matrix units. Please refer to pages 15-16 for section information with Power Matrix units.
- Subtop sections listed are for tables with no power drawers or low profile perimeter power
- Veneer on base panels is vertical
- Subtop is set back 1/4" from edge of the table top
- Subtop is only available in Paint finish (-PAP) option when Paldeo veneer finish is selected for the top
- Wireless charging can be specified with any other power option on the same table
- Faceplate of the Low Profile Perimeter Power will default to beam color unless otherwise specified
- Metal detail option can be any metal finish (except Chemetal)
- Power Drawer and Low Profile Perimeter Power locations are set within the subtop and are in pre-determined quantities based on the size of the table and are in pre-determined quantities based on the size of the table
- Power Drawers and Perimeter Power Units have (2) Simplex / (2) USB-A+C Chargers on the long sides of the table and (1) Simplex / (1) USB-A+C Charger / 2 Extron Architectural Adaptor Plates (AAP) plates on the ends of the table
- If any finish other than Powder Coat is selected on the base reveal, the 3/4" above and below the base panels defaults to black if no other selection is made
- Power Drawer face is hardwood
- Power Drawer bottom defaults to Knoll Felt - Pewter
- Subtop has a hardwood rail
- Power Drawer has a space between the drawer and the bottom of the table for wire access/egress when the drawer is closed
- The reveal finish selection will include all interior surfaces on Open Panel bases
- Powder coat is the only option for the Island Base Reveal
- An optional Wire Chase column can be specified for more robust wire management needs on tables 96"-144"L with an Open or Closed Panel Base. See pages 29 and 38 for additional information.

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose Veneer Finish
- Choose Metal Finish for Beam
- Choose Paint Finish, if painted base (-POP, -PCP or -PVN) is specified, or if painted sub-top (-PAP) is specified. If multiple components are specified as painted, they will all be the same finish.
- Choose Chemetal Finish, if specified as a reveal finish (-CBR)

GENERAL INFORMATION

- Top sections noted are for tables without Power Matrix units. When Power Matrix units are specified on the table, the top sections are determined by the size of the table and the size and quantity of the Power Matrix units. Please refer to page 19 for section information with Power Matrix units.
- Subtop sections listed are for tables with no power drawers or low profile perimeter power
- Veneer on base panels is vertical
- Subtop is set back 1/4" from edge of the table top
- Wireless charging can be specified with any other power option on the same table
- Faceplate of the Low Profile Perimeter Power will default to beam color unless otherwise specified
- Metal detail option can be any metal finish (except Chemetal)
- Power Drawer and Low Profile Perimeter Power locations are set within the subtop and are in pre-determined quantities based on the size of the table
- Power Drawers and Perimeter Power Units have (2) Simplex / (2) USB-A+C Chargers on the long sides of the table and (1) Simplex / (1) USB-A+C Charger / 2 Extron Architectural Adaptor Plates (AAP) plates on the ends of the table
- If any finish other than Powder Coat is selected on the base reveal, the 3/4" above and below the base panels defaults to black if no other selection is made
- Power Drawer face is hardwood
- Power Drawer bottom defaults to Knoll Felt - Pewter
- Subtop has a hardwood rail
- Power Drawer has a space between the drawer and the bottom of the table for wire access/egress when the drawer is closed
- The reveal finish selection will include all interior surfaces on Open Panel bases
- Powder coat is the only option for the Island Base Reveal
- An optional Wire Chase column can be specified for more robust wire management needs on tables 96"-144" L with an Open or Closed Panel Base. See pages 29 and 38 for additional information.

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose Stone Finish
- Choose Metal Finish for Beam
- Choose Veneer Finish, if Veneer base (-VOP, -VCP or -VVN) is specified, if Veneer sub-top (-VAP) is specified, or if Veneer is selected for Base Reveal (-VBR). If multiple components are specified as Veneer, they will all be the same finish.
- Choose Paint Finish, if painted base (-POP, -PCP or -PVN) is specified, or if painted sub-top (-PAP) is specified. If multiple components are specified as painted, they will all be the same finish.
- Choose Chemetal Finish, if specified as a reveal finish (-CBR)

GENERAL INFORMATION

- Veneer on base panels is vertical
- Power Matrix availability can be found on page 15
- Subtop is set back 1/4" from edge of the table top
- Subtop is only available in Paint finish (-PAP) option when Paldeo veneer finish is selected for the top
- Wireless charging can be specified with any other power option on the same table
- Faceplate of the Low Profile Perimeter Power will default to beam color unless otherwise specified
- Metal detail option can be any metal finish (except Chemetal)
- Power Drawer and Low Profile Perimeter Power locations are set within the subtop and are in pre-determined quantities based on the size of the table and are in pre-determined quantities based on the size of the table
- Power Drawers and Perimeter Power Units have (2) Simplex / (2) USB-A+C Chargers on the long sides of the table and (1) Simplex / (1) USB-A+C Charger / 2 Extron Architectural Adaptor Plates (AAP) plates on the ends of the table
- If any finish other than Powder Coat is selected on the base reveal, the 3/4" above and below the base panels defaults to black if no other selection is made
- Power Drawer face is hardwood
- Power Drawer bottom defaults to Knoll Felt - Pewter
- Subtop has a hardwood rail
- Power Drawer has a space between the drawer and the bottom of the table for wire access/egress when the drawer is closed
- The reveal finish selection will include all interior surfaces on Open Panel bases
- Powder coat is the only option for the Island Base Reveal
- An optional Wire Chase column can be specified for more robust wire management needs on tables 96"-144"L with an Open or Closed Panel Base. See pages 29 and 38 for additional information.

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

- See appendix pages vi-vii for surface material options.
- Choose Veneer Finish
 - Choose Metal Finish for Beam
 - Choose Paint Finish, if painted base (-POP, -PCP or -PVN) is specified, or if painted sub-top (-PAP) is specified. If multiple components are specified as painted, they will all be the same finish.
 - Choose Chemetal Finish, if specified as a reveal finish (-CBR)

LAMINATE / FENIX TOPS

GENERAL INFORMATION

- Veneer on base panels is vertical
- Subtop is set back 1/4" from edge of the table top
- Wireless charging can be specified with any other power option on the same table
- Faceplate of the Low Profile Perimeter Power will default to beam color unless otherwise specified
- Metal detail option can be any metal finish (except Chemetal)
- Power Drawer and Low Profile Perimeter Power locations are set within the subtop and are in pre-determined quantities based on the size of the table
- Power Drawers and Perimeter Power Units have (2) Simplex / (2) USB-A+C Chargers on the long sides of the table and (1) Simplex / (1) USB-A+C Charger / 2 Extron Architectural Adaptor Plates (AAP) plates on the ends of the table
- If any finish other than Powder Coat is selected on the base reveal, the 3/4" above and below the base panels defaults to black if no other selection is made
- Power Drawer face is hardwood
- Power Drawer bottom defaults to Knoll Felt - Pewter
- Power Drawer has a space between the drawer and the bottom of the table for wire access/egress when the drawer is closed
- The reveal finish selection will include all interior surfaces on Open Panel bases
- Powder coat is the only option for the Island Base Reveal
- Subtop has a hardwood rail
- Power Matrix availability information is available on page 17
- An optional Wire Chase column can be specified for more robust wire management needs on tables 96"-144"L with an Open or Closed Panel Base. See pages 29 and 38 for additional information.

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

LAMINATE TOPS

- Choose Laminate Finish
- Choose Veneer Finish, if Hardwood Edge specified
- Choose ABS Finish, if ABS Edge specified
- Choose Paint Finish, if painted base (-POP, -PCP or -PVN) is specified, or if painted sub-top (-PAP) is specified. If multiple components are specified as painted, they will all be the same finish.
- Choose Chemetal Finish, if specified as a reveal finish (-CBR)

FENIX TOPS

- Choose Fenix Finish
- Choose Veneer Finish, if Hardwood Edge specified
- Choose 1mm Edgeband Finish, if 1mm Edgeband specified
- Choose Paint Finish, if painted base (-POP, -PCP or -PVN) is specified, or if painted sub-top (-PAP) is specified. If multiple components are specified as painted, they will all be the same finish.
- Choose Chemetal Finish, if specified as a reveal finish (-CBR)

GENERAL INFORMATION

- Veneer on base panels is vertical
- Subtop is set back 1/4" from edge of the table top
- Wireless charging can be specified with any other power option on the same table
- Faceplate of the Low Profile Perimeter Power will default to beam color unless otherwise specified
- Metal detail option can be any metal finish (except Chemetal)
- Power Drawer and Low Profile Perimeter Power locations are set within the subtop and are in pre-determined quantities based on the size of the table
- Power Drawers and Perimeter Power Units have (2) Simplex / (2) USB-A+C Chargers on the long sides of the table and (1) Simplex / (1) USB-A+C Charger / 2 Extron Architectural Adaptor Plates (AAP) plates on the ends of the table
- If any finish other than Powder Coat is selected on the base reveal, the 3/4" above and below the base panels defaults to black if no other selection is made
- Power Drawer face is hardwood
- Power Drawer bottom defaults to Knoll Felt - Pewter
- Power Drawer has a space between the drawer and the bottom of the table for wire access/egress when the drawer is closed
- The reveal finish selection will include all interior surfaces on Open Panel bases
- Powder coat is the only option for the Island Base Reveal
- Subtop has a hardwood rail
- Top sections noted are for tables without power units. When power units are specified in the table, the top sections are determined by the size of the power unit, quantity and location.
- An optional Wire Chase column can be specified for more robust wire management needs on tables 96"-144" L with an Open or Closed Panel Base. See pages 29 and 38 for additional information.

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

GLASS TOP

- Choose Glass Finish
- Choose Veneer Finish, if Veneer base (-VOP, -VCP or -VVN) is specified, if Veneer sub-top (-VAP) is specified, or if Veneer is selected for Base Reveal (-VBR). If multiple components are specified as Veneer, they will all be the same finish.
- Choose Paint Finish, if painted base (-POP, -PCP or -PVN) is specified, or if painted sub-top (-PAP) is specified. If multiple components are specified as painted, they will all be the same finish.
- Choose Chemetal Finish, if specified as a reveal finish (-CBR)

STONE TOP

- Choose Stone Finish
- Choose Veneer Finish, if Veneer base (-VOP, -VCP or -VVN) is specified, if Veneer sub-top (-VAP) is specified, or if Veneer is selected for Base Reveal (-VBR). If multiple components are specified as Veneer, they will all be the same finish.
- Choose Paint Finish, if painted base (-POP, -PCP or -PVN) is specified, or if painted sub-top (-PAP) is specified. If multiple components are specified as painted, they will all be the same finish.
- Choose Chemetal Finish, if specified as a reveal finish (-CBR)

4 Simplex Receptacles	Add -FOUR	No Charge	Replace AAP's with 2 additional simplex receptacles
3 Simplex Receptacles/Charging USB-A+C	Add -THREE-C	No Charge	Replace AAP's with 1 additional simplex receptacle and 1 charging USB-A+C
USB-A+C Charging	Add -USB-C	\$116 per unit	USB-A+C charger, replaces one of the simplex outlets
Polished Chrome Door	Add -PD	\$223 per unit	Only available with metal door option
Polished Chrome Bezel	Add -PB	\$317 per unit	Only available on glass, stone and laminate top tables
Field-Wired	Add -FW	Deduct \$43 per unit	May be required in New York City, Chicago and San Francisco. Check with an electrician for local codes and requirements.
Single Infeed Option Available	See page 78		

GENERAL INFORMATION

- Compact Power Matrix is the only option available on round tables
- For Veneer, Glass or Solid Surface tables, Power Matrix will be bezel free and the door will match the table top
- For Stone tables, Power Matrix will be bezel free and the door can be specified as metal or glass
- For Laminate or Fenix tables, Power Matrix will have a bezel and the door can be specified as metal or glass
- Wood species and finish will default to the same as the table top if wood door version is specified
- Power Matrix cord is 144" -long
- Glass doors are 3/8"-thick, metal doors are 1/8"-thick
- Wood doors are 1/4"-thick,
- Metal doors are 5/16"-thick
- Glass door is back-painted low-iron glass
- Glass door is square, and does not have the "file folder" design like the metal and wood Power Matrix doors
- Interior body is clear anodized aluminum
- Each unit includes a 15 amp, 12' power infeed (plug in only)
- If Field-Wired option is specified, each unit includes a 6' flexible metal conduit and requires a hardwire connection
- Standard configuration: Two simplex receptacles, two RJ-45 data connectors and two single blank faceplates
- Additional data/AV faceplate options are on page 81

REQUIRED INFORMATION: (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose location code & quantity from the charts on pages 14-19
- Choose Glass Door Finish, if glass door version is specified
- Choose Metal Finish, if metal door version is specified or for the bezel finish on laminate tables

POWER AND DATA OPTIONS

SINGLE INFEED OPTION	MODEL #	DESCRIPTION	PRICE
	SI-H	Single In-Feed Option, Hard-wired	553
	SI-C	Single In-Feed Option, Corded (Plug-in)	668

GENERAL INFORMATION

- Tables 72"-120" in length include 2 duplex receptacles with the modular power system
- Tables 132"-240" in length include 3 duplex receptacles with the modular power system
- Hardwired and Corded Single Infeed options are 7' long
- Single Infeed option cannot be specified in conjunction with the Field-Wired (-FW) option
- Corded Single Infeed option will require a 20-amp power outlet in the floor monument and reduces the modular electrical system in the table to a single circuit

RETRACTORS	MODEL #	DESCRIPTION	PRICE
	CR-CAT6	CAT6 Retractor	907
	CR-HDMI	HDMI Retractor	907
	CR-DISPLAY	Display Port Retractor	907
	CR-USB	Data USB Retractor	907

GENERAL INFORMATION

- Mounting bracket and attaching hardware included with each retractor
- Can only be used with Power Matrix Small or Medium units
- Not available on round tables
- One Cable Pass Through Set (one top, one bottom) AAP FLDF-14 included. Double style AAP
- See page 23 for availability by table size

WIRE CHASE	MODEL #	DIMENSIONS	VENEER -V	PAINTED -P
	ACSB	12.5 x 7.5	1,013	962

GENERAL INFORMATION

- Wire Chase option to be used with two base tables (not for structural support)
- May be specified on tables 96"-144" L
- Wire Management opening is 6" x 7"
- Wire Chase is located perpendicular to the base locations (see page 38 for location illustration)

REQUIRED INFORMATION: (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose Veneer Finish, if applicable
- Choose Paint Finish, if applicable

Appendix

GENERAL INFORMATION

This price book supercedes all previous versions.

Before placing your order, confirm you have all required information necessary. Lead times for orders begin after all required information is included and correct.

Delivery Information

We know lead times are important and sticking to them even more so. We work to maintain a 6-8 week lead time on all standard products in this book from receipt of a clean order. All orders are acknowledged with an approximate shipping date and will be invoiced with the price in effect at the date the purchase order is received.

Shipping charges are prepaid (within the continental U.S.). Therefore, pricing is a delivered price based on normal ground transportation. If you have special instructions, need to ship by air, or are shipping to Alaska or Hawaii, contact Nucraft Customer Service. Nucraft can also help arrange to have products blanket wrapped for an additional charge. Contact the Nucraft Customer Service team or specify it on your purchase order.

Minimum Freight Charge: Any order below \$2,800 net will be assessed a \$450 net minimum freight charge (one per order).

Orders are subject to acquiring the materials required for manufacturing. Fulfillment can be affected by strikes, fires, embargoes and acts of government. These elements are beyond our control.

Nucraft offers a variety of services to accommodate a wide range of delivery requirements. Availability of these services is dependent on a number of factors and may not be offered with all shipments. Examples of delivery services that have additional fees include:

- Specific date within our standard 3-5 day delivery window (for orders under \$50,000 net)
- Specific time of day, morning or afternoon (for orders under \$50,000 net)
- Delivery to a warehouse before delivery to its final destination (unless product is picked up at the warehouse)

Contact the Nucraft Customer Service team for availability and pricing on these services.

Freight Terms

Shipping charges for Nucraft products are prepaid for standard delivery in the continental United States. Standard delivery is defined as follows: Product is delivered on a 53' trailer being pulled by a long-haul tractor (total length of 85'). Facility will receive delivery Monday through Friday between the hours of 8:00 AM and 4:00 PM. Facility has docks with levelers and a fork truck for unloading. Product will be loaded on load bars two levels high. Receiving facility is responsible to have personnel on hand to unload the truck upon arrival, drivers do not unload. Delivery sites or times that do not meet this criteria will be accommodated, but will typically incur a charge to cover additional shipping costs. Please notify Nucraft in advance of the shipment if this is the case and the additional charge (if any) will be determined by Nucraft.

Product ships FOB dock. The customer obtains title to their product and materials, and assumes the risk of loss for them, upon shipment from Nucraft's facilities.

Storage

Nucraft has no storage facilities for finished product. If a customer cannot accept an order when it is ready for shipment, the customer must designate an alternative shipping address. If no address is provided, Nucraft may, at its discretion, transfer the product to storage. If product is transferred to an off-site storage facility, the customer may be charged for transportation to the facility and for any associated storage fees. Nucraft considers transfer of the product to a storage facility the equivalent of shipment, including invoicing and payment. Customers assume the risk of damage or loss during storage.

Transportation Times and Delays

Third party carriers that Nucraft contracts with will make reasonable efforts to accommodate requested delivery times and dates. Scheduled delivery appointments may, however, be delayed for a variety of reasons, including inclement weather, traffic, transportation equipment problems, and delays encountered at other delivery locations along the delivery route. Nucraft does not recommend scheduling activities that depend on the delivery appointment (for example, scheduling furniture installers to install furniture the day of the delivery appointment). Nucraft shall not be liable for any costs incurred as a result of a missed delivery appointment.

Shipment Damage Claims

Legal title to merchandise passes to the buyer upon acceptance by the carrier. **Inspect all cartons upon delivery.** Details of visible damage should be noted on the delivery receipt. Do not install product if damage is found upon inspection. The carrier should be notified by the buyer to inspect the merchandise, and file a claim immediately. If visible damage is not apparent, sign the delivery receipt "No visible damage." This will allow recourse for a concealed damage claim. Although most claims for transportation damages must be filed against the carrier within nine months of the date of delivery, concealed damage claims must be filed within 15 days of receipt.

Do not destroy packing materials until shipment has been inspected. Then proceed to file a claim with the carrier.

Failure to make any claims against Nucraft within 10 days shall constitute acceptance of the merchandise and a waiver of any defects, errors or shortages discovered upon inspection.

Cancellations

Cancellations must be reviewed by our Customer Service team. Because we build your products to order, orders cannot be cancelled once processing has begun. Processing includes but is not limited to development of shop drawings and other engineering drawings. If cancellation is approved, a processing fee of 20-100% will be assessed based on the status of the order.

Change Order Policy

Nucraft will make every attempt to honor any reasonable change request to product provided that the request is received prior to start of production. Change orders will be accepted only if the request is made in writing and received in time to make the change. Nucraft reserves the right to increase our acknowledged price and ship date if necessary to make the requested changes. Please submit any change order request to our Customer Service team. Nucraft will assess charges to the customer as stipulated in the following:

- Standard Orders: Change orders received prior to production will be charged \$400 net to cover administrative costs.
- Special Orders: Change orders received prior to production will be charged \$400 net to cover administrative costs. There may be additional costs associated with engineering labor required for the change order.
- Change orders received after production must be evaluated by Nucraft. If approved, the charge will be \$400 net plus any restocking charges accumulated. There may be additional costs associated with engineering and/or manufacturing labor, as well as material costs, required for the change order.

GENERAL INFORMATION

Repair Authorization

Prior written approval is required for repairs of merchandise charged to NuCraft. Failure to do so will result in customer funded repairs.

Payment Terms

Deposits are required at the time of order due to the custom nature of our products. See information regarding Cancellations above.

Credit terms are available to qualified customers. Please contact AR@NuCraft.com to start the application process. Note that the credit application process requires a valid sales tax exemption or resale tax certificate, Form W-9, and three current trade references.

Credit Card Payments are accepted via web portal. Please contact AR@NuCraft.com for payment instructions. Note that a 2% convenience fee will be added for using this payment method and no early pay discounts are allowed on credit card payments.

Warranty

NuCraft Furniture is warranted to be free from defects in materials and workmanship for a period of ten years of single shift use. Limitations include:

- Mechanical Devices such as latches, casters, and other moving components are warranted for five years of the date of original delivery.
- Height adjustable components are warranted for two years of the date of original delivery.
- The following are warranted for one year of the date of original delivery:
 - Textiles
 - Electrical Components
 - Refrigeration Units
 - Custom Products not described in NuCraft's Catalogue

This warranty is applicable only if furniture is properly installed and maintained in an office environment. This warranty extends only to products manufactured and sold in North America and only to original purchasers acquiring new NuCraft product through authorized dealers or approved sellers.

During this warranty period, NuCraft's sole obligation is to repair or replace, at NuCraft's discretion, products which prove to be defective during the warranty period.

This warranty does not cover:

- Damage caused by a carrier.
- Damage from user modification, misuse, abuse, accident, or negligence.
- Customer's Own Material (COM) specified by the customer that is not a standard product offering.
- Color, grain, or texture of wood and other covering material.

NuCraft extends no other warranties, expressed or implied, including warranty of merchantability or fitness for a particular purpose. NuCraft shall not be liable for loss of time, inconvenience, commercial loss, incidental or consequential damages.

Environmental Statement

NuCraft is committed to supporting responsible environmental policies and practices in all that we do. We strive for sustainability, weighing our business decisions against the costs to the ecological, social and economic systems they affect.

Our products are manufactured to meet the credit requirements of the U.S. Green Building Council's LEED rating systems in one or more of the following categories:

- Recycled Content
- Certified Wood
- Low-Emitting Materials

Computer Aided Planning

NuCraft products and pricing are available on CD via 2020 Cap, an AutoCAD®-based space planning tool.

2020 Cap is an integrated software system developed specifically for interior designers and facility planners to enhance workplace performance. This modern suite of applications works together seamlessly, in concert. Navigate catalogs, select products, design in plan view and 3D, assign options, create worksheets and build a project where you want, when you want. Take your pick. It's dynamic and interactive. Design projects are a work in progress. And now you can perform any of the many discrete tasks that go into a project any time, any place.

For additional information, you may contact 2020 Cap direct at 800-227-0038.

iSpec®

NuCraft offers a free online product configuration and specification service that saves you time and allows you to be creative while leaving the nuts and bolts to someone else. No specific software is required, nor is there any learning curve. This service applies to all NuCraft products. For additional information, call 1-877-NUCRAFT and ask for the iSpec Team or log on to www.nucraft.com/ispec.

FINISH INFORMATION

Surface Materials Palette

We crafted our materials palette using the same demanding standards that distinguish our furniture. Thoughtful design and attention to every detail elevate your possibilities.

Anchored by NuCraft veneers, unrivaled for clarity, quality, and depth of finish, our collection of surface materials comprises a sophisticated set of balanced elements that supports your design vision.

Some elements have their roots in NuCraft’s rich heritage. Others are new materials and reflect current trends and taste. Together, they ensure that you’re ready for today and positioned well for the future. Beautifully.

Custom Finishes

NuCraft specializes in expert custom finish matching. For a nominal upcharge we can provide custom finishes, and we are frequently asked to match the finishes of other furniture manufacturers. For finishes that appear unusual to match or for customers directly requesting a sample, a finish sample will be sent for approval prior to entering the order.

Custom finishes requiring colored varnishes to create a painted look can only be applied to Maple veneer and require one extra week in addition to the standard lead time. NuCraft’s standard black finish (G82) can be applied to all NuCraft standard veneers. Walnut is the standard black veneer. Other species must be specified when ordering.

Clear coat on a special veneer requires an approved sample.

Custom finishes carry a 10% upcharge per item, per finish, capped at \$1,975 List.

Custom finish upcharges are not applied to any item that is not wood. Example: casters, ganging connectors, power options..

Treatments

Note: Default veneer sheen will vary per finish and product. Default finish is bolded on pages vi-vii. If no direction is provided on incoming orders, default sheen will be selected. In addition, default veneer cut is noted in the price list. If no direction is provided on incoming orders, default cut will be selected.

Gloss: Gloss is a durable finish that tends to nicely mask normal wear and leaves wood grain visible to the eye. It achieves a medium gloss open pore appearance (40 – 50 sheen range). Finish numbers preceded by the letter “G” indicate a Gloss finish.

Matte: Like Gloss, Matte is durable, tends to nicely mask normal wear and leaves wood grain visible to the eye. It achieves a low luster, open pore appearance (10 – 20 sheen range). Finish numbers preceded by the letter “M” indicate a Matte finish.

Since each veneer type responds differently to both types of treatment, all will have a distinctive look and feel when finished. For example, a Walnut veneer with a Gloss treatment will remain much more textured than a Cherry veneer with the same treatment.

About the Wood

All NuCraft veneers are carefully selected for uniformity of color and grain. Still, wood is a natural substance and minor variations may occur due to its own uniqueness. Because of this, the furniture you receive may not be an exact match to our samples.

NuCraft takes great pride in our finish color consistency. However, wood is a natural product that will have color variation within a single piece of furniture, as well as from one piece to the next. Other factors also affect color over time, such as exposure to light (both intensity and duration). For example, lighter finishes cause more variation in colors over time.

In cases where a returning customer wants a precise match with existing furniture, we recommend sending a sample of the existing furniture finish. Please contact NuCraft Customer Service to determine an appropriate sample. This will ensure a finish match between old and new orders. This type of order is considered a control sample. There will be a 10% upcharge on an order of this type. Due to natural aging of veneers, natural finishes may vary.

Care and Maintenance of Wood Finishes

Our finish material is a crystal clear, urethane acrylic blend. This type of finish may be repaired in the field by a qualified refinisher.

NuCraft recommends using a damp cloth to clean your fine wood furniture. Always wipe with the grain of the wood. Should your wood furniture require a more thorough cleaning, we recommend using a mild cleaner such as Joy dish soap or Murphy’s oil soap, thoroughly diluted in water (one part soap to thirty parts water). Water will not damage NuCraft’s finish, but it may leave surface spots when it dries. To avoid this, dry the surface with a soft cloth after it is cleaned. Marks that cannot be removed with the cleaning methods above may be able to be removed using naphtha, a mild degreasing solvent.

Caution: while the use of polishes that contain wax, petroleum solvents or silicones may immediately enhance the “shine” of a product, it may also eventually remove the fine original finish applied in our factory. Silicone on the surface of wood may also make it very difficult to respray or refinish.

All NuCraft furniture is inspected and polished before it leaves our factory. In some instances, the packing materials may imprint on the factory polish. Cleaning and polishing the furniture once it is unpacked will normally restore the furniture to its original beauty.

In some cases, the rubber support feet used on the bottom of common office equipment (teleconferencing phones, laptops, microphones, copiers, etc.) can create unsightly marks in the surface of wood tops, due to oxidation of the lacquer finish. We suggest these machines be placed on a protective type of padding, such as felt.

Wood will fade as a result of exposure to UV light. This is particularly prevalent with light finishes. If color changes due to fading are a concern for your application, the impact can be minimized by selecting medium to dark stains for your wood surfaces. Our top coat includes a UV inhibitor which makes the finishes less prone to fading.

FINISH INFORMATION

Laminates

Selected Formica® and Nevamar® laminates are available on Training Tables, Conference Tables, Conference Room Furniture and select Occasional Tables. For standard laminate and wood pricing, refer to individual item pricing columns.

Non-Standard Laminates and Linoleums

To order a color other than those on our list (see pages vi-vii), refer to Nevamar or Formica standard grade, matte texture laminate offerings and Forbo Furniture Linoleums (excluding manufacturers' non-standard matte offering).

- For approved non-standard laminates with a hardwood edge, the upcharge is 10% of the base price per laminate color with a minimum of \$500 and capped at \$1975.
- For approved non-standard laminate with a standard ABS edge, the upcharge is \$175 per laminate color.
- For approved non-standard laminates with a non standard ABS edge, please contact customer service.

To ensure your non standard laminate is on our approved list, please contact customer service. Add one week to the lead-time for all non-standard laminate and linoleum orders. Call the Nucraft Customer Service team for quotes on premium grades and laminates. Mirror and metal laminates are not available.

Care and Maintenance of Laminate and Novawrap

Laminate and Novawrap surfaces may be cleaned with a damp cloth and ordinary soap or non-abrasive household liquid detergent. Dry the surface with a clean cloth or soft paper towel to prevent streaks from appearing.

Care and Maintenance of Metal

Metal surfaces can be wiped with a damp cloth and rubbed dry. A mild non-abrasive household liquid detergent can be used if necessary. Regular maintenance of metal components, including tightening of fasteners and light lubrication of moving parts, will extend the life of your furniture.

Satin Etched Glass

Glass color may vary slightly on multi-piece conference table tops over 180" x 60" when satin etched glass is specified due to the iron content and etching process of the glass.

Care and Maintenance of Glass

Clear or frosted glass may be cleaned with commercial glass cleaner. Be sure to use a lint-free cloth if cleaning the frosted side of the glass.

Stone and Solid Surface Material

Despite its reputation for durability, natural stone can easily be broken during handling and/or installation if proper techniques are not followed. In addition, Nucraft is not responsible for the installation of natural stone or solid surface materials on its products. Therefore, installers specifically trained in the installation of these materials must be utilized to ensure a quality installation. Nucraft shall not be liable for any damages incurred during the handling and/or installation of natural stone or solid surface materials on its products.

Care and Maintenance of Granite

Granite surfaces may be cleaned with a damp cloth and ordinary soap or non-abrasive household liquid detergent. Dry the surface with a clean cloth or soft paper towel to prevent streaks from appearing.

Care and Maintenance of Leather

Genuine leather requires very little care. Nucraft recommends that leather be dusted regularly. If a more thorough cleaning is needed, use lukewarm water and a mild, non-abrasive soap. Generate some lather and lightly rub the surface with cheesecloth. Rinse off any soap film with clean water and towel dry. The leather may dry dull. To restore the leather to a normal gloss, rub it with a clean towel. Never use furniture polish, oil, varnish or ammonia. Saddle soap may be used to prevent the leather from becoming brittle or cracked and to maintain the original supple finish.

Touch Up Finish Kits

Model #	Description	Price
KIT-M	Metal Kit	80
KIT-P	Paint Kit	80
KIT-S	Stain Kit	80

REQUIRED INFORMATION: (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

- Kit model number
- Quantity of kits
- Specify finish (See pages vi-vii)

General Information:

- Touch-up kits must be ordered on a purchase order separate from Nucraft product due to Hazmat shipping

ASCARI CONFERENCE SURFACE MATERIALS

WOOD FINISHES

STANDARD

Default veneer sheen will vary per finish and were determined by a team of experts who reviewed the colorways to determine if gloss or matte best highlighted the natural characteristics of the species of wood and the color of the stain. Default finish is bolded. If no direction is provided, default sheen will be selected.
