SPECIFICATION OVERVIEW

STEP 1: CASE STYLE
Choose a standard or beveled case, available in painted or wood veneer finish.

STEP 2: TOP MATERIAL AND EDGE PROFILE
Veneer and stone available with square or chamfer edge profile. Laminate, Fenix®, and glass available with a square edge profile.

STEP 3: DOOR/DRAWER STYLE
Doors and drawers will match case finish. unless specified.

Choose from three veneer patterns or painted door/drawer fronts.

STEP 4: PULL STYLE
Metal pull styles include Integrated, Tab, or Handle pull for ADA accommodation.

STEP 5: HARDWARE OPTIONS
Choose optional locks, raised backstop, or a metal edge reveal, if desired. Metal Base available in powder coat or polished chrome.

STEP 6: CASE CONFIGURATION
Select configuration and desired components for each cabinet location.

With seven different door, drawer, and shelf configurations available, choose the combination that fits your needs. Components include pull out waste/recycling, drawer refrigerator, charging drawers or equipment racks and trays.

STEP 7: ACCESSORIES
Drawer inserts include fabric drawer liners and organizers to fit any closed box drawer. Peg board systems for deep drawer organization fit any large box drawer.

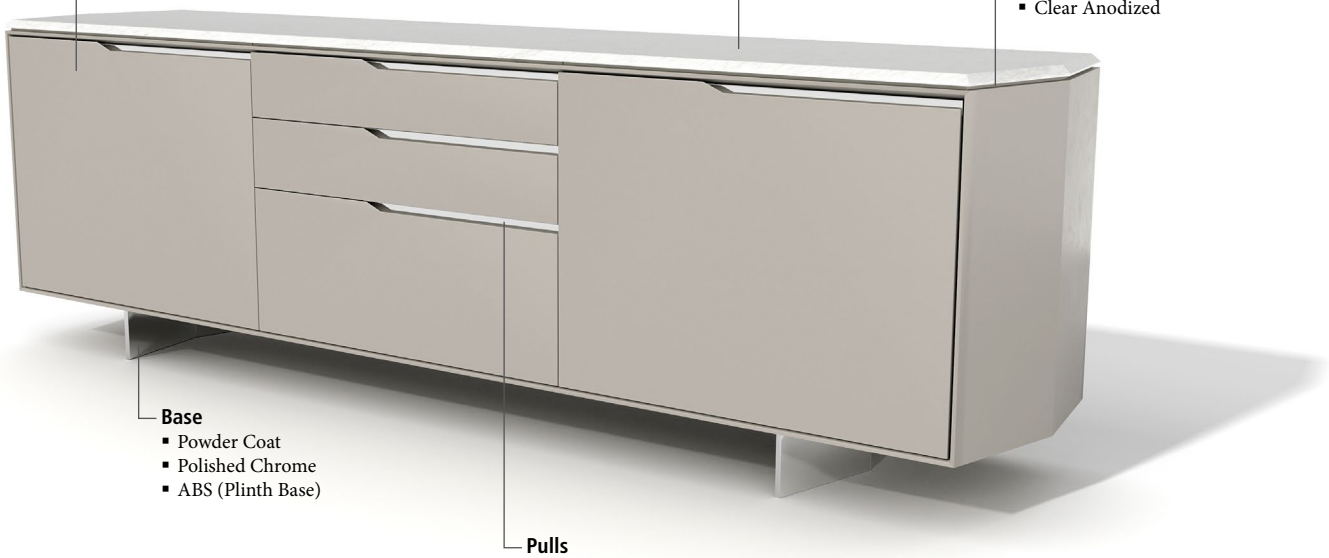
MATERIAL OPTIONS



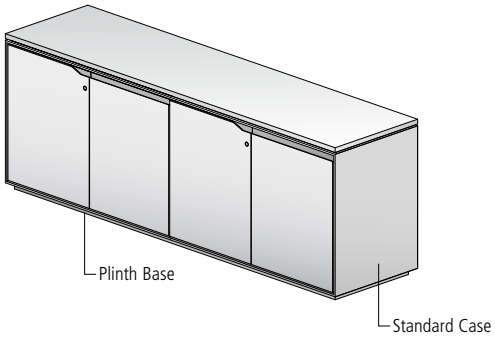
STEP 1: CASE STYLE

Choose a standard or beveled case, available painted or veneer.

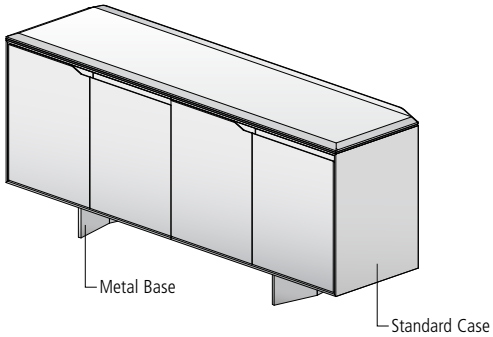
STANDARD CASE

- Premium aesthetic with mitered case construction and flush, finished back
- Two or three case assembly for ease of handling
- Available in veneer or paint
  - Painted or veneer case interior finish will match exterior finish
  - Veneer direction will run vertical with a slip-match layup
- Plinth or metal base
  - 1.5" plinth base inset with black finish
  - 5.75" beveled metal base. Finish must be specified.

Low Height with Plinth Base



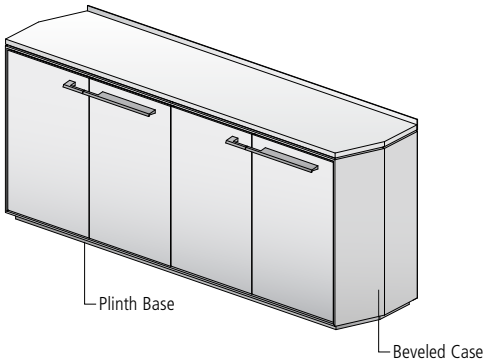
Conference Height with Metal Base



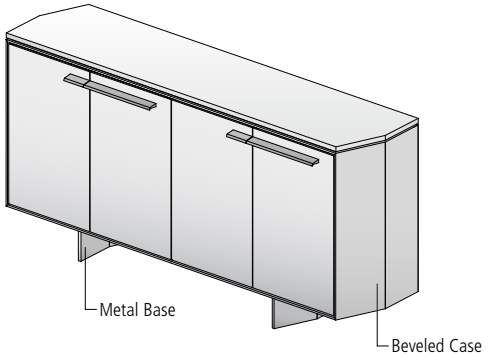
BEVELED CASE

- Offers striking bevels on each end and correlating bevel shaped top
- Premium aesthetic with mitered case construction and flush, finished back.
- Two or three case assembly for ease of handling
- Available in veneer or paint
  - Painted or veneer case interior finish will match exterior finish
  - Veneer direction will run vertical with a slip-match layup
- Plinth or metal base
  - 1.5" plinth base inset with black finish
  - 5.75" beveled metal base. Finish must be specified.

Conference Height with Plinth Base



Buffet Height wtih Metal Base



CASE DIMENSIONS

DIMENSIONS

All Credenzas include vertical panels that divide the interior into two or three sections depending on credenza width. Dimensions A, B, and C reflect the width of each section. Exterior heights excludes top material thickness. Add top material for total height:

Veneer, Laminate, Fenix® and Stone - .75"

Veneer | Thick Edge - 2"

Glass - .375"

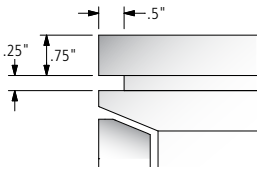
STEP 2: TOP MATERIAL AND EDGE PROFILE

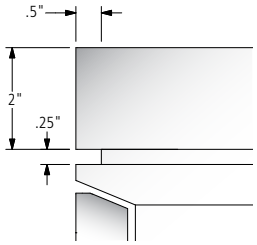
Choose between laminate, veneer, Fenix®, glass, or stone top materials. Square or chamfer edge profiles available. (chamfer option limited to veneer and stone tops)

- 72" and 108" -length one piece tops
- Standard case receives rectangle-shape top
- Beveled case receives correlating bevel-shape top
- Applied edge finish will coordinate with top material finish
- Slight height variations dependent upon the surface material selected

Veneer | Square Edge



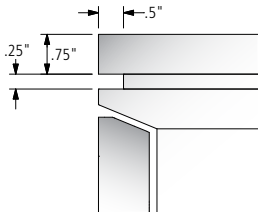
Veneer | 2" Thick Edge



TOP WITH SQUARE EDGE

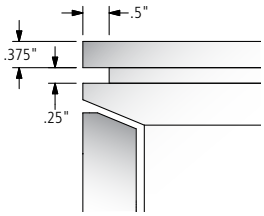
- **Veneer with Hardwood Edge**
  - Veneer tops available with either a Square or 2" Thick edge
    - Square edge features a 3/4"-thick veneer top with 3/16"-depth hardwood square edge band
    - 2" Thick edge features a 2"-thick veneer top with a 3/16"-depth hardwood square edge band
      - Coordinates with Ascari Casegood
  - If no direction is provided, default sheen will be selected
  - Veneer direction will run the length of the credenza

Laminate and Fenix®



- **Laminate with Square Edge**
  - 3/4"-thick laminate top with 2mm square edge
  - Solid and patterned laminates receive a solid color square edge band
  - Woodgrain laminates receive a coordinating woodgrain square edge band

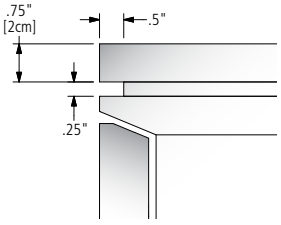
Glass



- **Laminate with Hardwood Edge**
  - 3/4"-thick laminate top with 3/16"-depth hardwood square edge band
  - Edge finish will match veneer case finish
  - If painted case is specified, wood finish must be selected

- **Fenix® with Square Edge**
  - 3/4"-thick Fenix® top with 1mm square edge
  - Edge application will default to coordinating edge band

Stone



- **Fenix® with Hardwood Edge**
  - 3/4"-thick Fenix® top with 3/16"-depth hardwood square edge band
  - Edge finish will match veneer case finish
  - If painted case is specified, wood finish must be selected

- **Gloss Glass**
  - 3/8"-thick back-painted, low-iron glass top with square edge

- **Satin Glass**
  - 3/8"-thick back-painted, low-iron glass top with square edge

- **Stone**
  - 2cm thick stone top with square edge

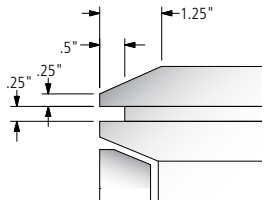
STEP 2: TOP MATERIAL AND EDGE PROFILE

TOP WITH CHAMFER EDGE

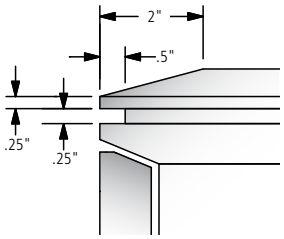
- **Veneer**
  - 3/4"-thick veneer top with 1-1/4"-depth chamfer edge
  - If no direction is provided, default sheen will be selected

- **Stone**
  - 2cm thick stone/quartz top with 2"-depth chamfer edge

Veneer



Stone



STEP 3: DOOR/DRAWER STYLE

Doors and drawers will match case finish, unless specified. You may choose from three veneer patterns or painted door/drawer fronts.

STANDARD CASE **BEVELED CASE**

PAINT

- Applied to veneer or painted case
- Available in all paint finishes
- Door and drawer style will match painted case finish, unless specified
- If veneer case is specified, paint finish must be selected

VERTICAL VENEER

- Vertical veneer direction features a slip-match layup
- Applied to painted or veneer case
- Available in all wood finishes
- Door and drawer style will match veneer case finish, unless specified
- If painted case is specified, wood finish must be selected

HORIZONTAL VENEER

- Horizontal veneer direction features a slip-match layup or book-match (available in Cherry, Flat-Cut Oak, Linea, Walnut, and Maple)
- Applied to painted to veneer case
- Available in all wood finishes
- If veneer case is specified, case veneer direction will be vertical with slip-match layup
- If painted case is specified, wood finish must be selected

STEP 4: PULL STYLE

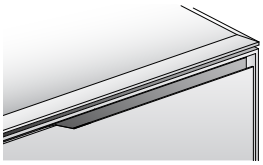
Pull styles include Integrated, Metal Tab, or Handle pull for ADA accommodation.

INTEGRATED PULL

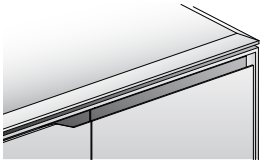
Available in three finishes: metal powder coat, clear anodized, or polished chrome

- **Metal finish must be specified**
- Optional wood accent can be applied to Integrated pull front to match a veneer case or select a wood veneer finish to accent a painted case
- Coordinates with Ascari Casegood

Integrated Pull
Pull-out Single Door



Integrated Pull
Double Door or Seamed Pull-out Single Door

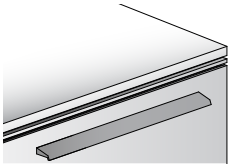


METAL TAB PULL

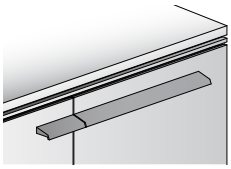
Universal design available in metal powder coat, clear anodized, or polished chrome

- **Metal finish must be specified**
- Coordinates with Ascari Casegood

Metal Tab Pull
Pull-out Single Door



Metal Tab Pull
Double Door or Seamed Pull-out Single Door

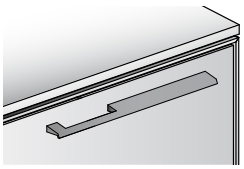


HANDLE PULL

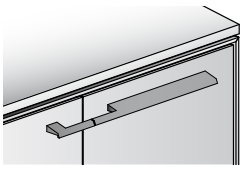
Available in metal powder coat, clear anodized, or polished chrome

- **Metal finish must be specified**
- Handle pull is ADA compliant

Handle Pull
Pull-out Single Door



Handle Pull
Double Door or Seamed Pull-out Single Door



STEP 5: HARDWARE OPTIONS

Choose locks, raised backstop, or a metal edge reveal, if desired. Metal base available in powder coat or three premium metal finishes.

LOCKS

- Optional on all drawer and door cabinets
- Unavailable on pull-out single door with waste/recycling or refrigerator drawer
- Veneer finish selection will receive satin nickel locks
- Paint or powder coat finish selections will receive coordinated lock finish: white, black, or satin nickel
- Polished chrome pull selection will receive polished nickel locks

RAISED BACKSTOP

- Available in two finishes: metal powder coat or polished stainless
- 1.5"-height (from surface) x .125"-thick
- Backstop will receive square corners when top with square edge is specified
- Backstop will receive chamfer corners when top with chamfer edge is specified

METAL REVEAL

- Metal inlay between case and top
- Available in three finishes: metal powder coat, clear anodized, or polish stainless
- Credenza comes standard with open reveal between case and top
- Reveal is .25"-height x .5"-depth

METAL BASE

- Available in powder coat or polished chrome
- Finish must be specified if Metal Base selected

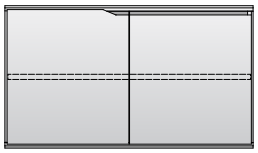
STEP 6: CASE CONFIGURATION

Select configuration and desired components for each cabinet location. **Defaults to Double Doors with Adjustable Height Shelves in all locations, if none selected.**



DOUBLE DOOR

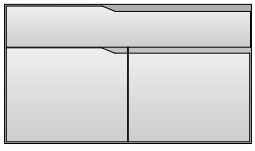
- Includes adjustable shelf behind double doors
- Available on all credenzas

PULL OUT SINGLE DOOR

- 36" pull-out door front
- Available with pull-out waste/ recycling on 24.5"-depth credenzas

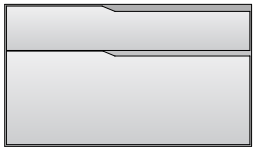
SEAMED PULL-OUT SINGLE DOOR

- Center seamed vertical accent on door front to match double doors
- 36" pull-out door front
- Available with pull-out waste/ recycling on 24.5"-depth credenzas



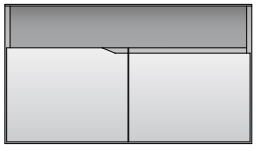
BOX DRAWER / DOUBLE DOORS

- Includes Knoll Felt, Pewter drawer liners; additional Knoll Felt or Brisa® UltraFabrics® drawer liner inserts available
- 16" -height doors
- White melamine drawer box construction and undermount soft closing glides
- Available on all credenzas



BOX DRAWER / LARGE BOX DRAWER

- Includes Knoll Felt, Pewter drawer liners; additional Knoll Felt or Brisa® UltraFabrics® drawer liner inserts available
- 36" large box drawer below
- White melamine drawer box construction and undermount soft closing glides
- Available on all credenzas



CENTER BOX / DOUBLE DOORS

- Includes adjustable shelf behind double doors
- Available on 108" credenzas
- 16" -height doors

CENTER BOX / LARGE BOX DRAWER

- 36" large box drawer below
- Available on 108" credenzas

CENTER BOX / OPEN

- Open shelf storage includes a single adjustable height shelf
- Available on 108" credenzas

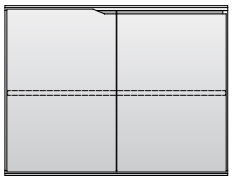
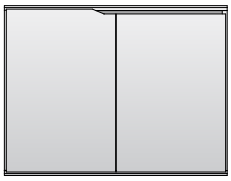
STEP 6: CASE CONFIGURATION

Select configuration and desired components for each cabinet location. **Defaults to Double Doors with Adjustable Height Shelves in all locations, if none selected.**



DOUBLE DOOR
- Includes adjustable shelf behind double doors
- Available on all credenzas

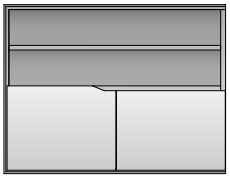
PULL OUT SINGLE DOOR
- 36" pull-out door front
- Available with pull-out waste/recycling or drawer refrigerator on 24.5"-depth credenzas



SEAMED PULL-OUT SINGLE DOOR
- Center seamed vertical accent on door front to match double doors
- 36" pull-out door front
- Available with pull-out waste/recycling or drawer refrigerator on 24.5"-depth credenzas

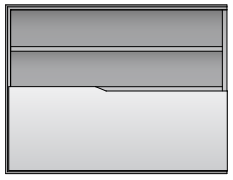
TWO BOX DRAWERS / DOUBLE DOORS
- Includes Knoll Felt, Pewter drawer liners; additional Knoll Felt or Brisa® UltraFabrics® drawer liner inserts available
- 13.5" -height doors
- White melamine drawer box construction and undermount soft closing glides
- Available on all credenzas

TWO BOX DRAWERS / LARGE BOX DRAWER
- Includes Knoll Felt, Pewter drawer liners; additional Knoll Felt or Brisa® UltraFabrics® drawer liner inserts available
- 36" large box drawer below
- White melamine drawer box construction and undermount soft closing glides
- Available on all credenzas



CENTER TWO BOX / DOUBLE DOORS
- Includes adjustable shelf behind double doors
- Available on 108" credenzas
- 13.5" -height doors

CENTER TWO BOX / OPEN
- Open shelf storage includes a single adjustable height shelf
- Available on 108" credenzas



CENTER TWO BOX / LARGE BOX DRAWER
- 36" large box drawer below
- Available on 108" credenzas

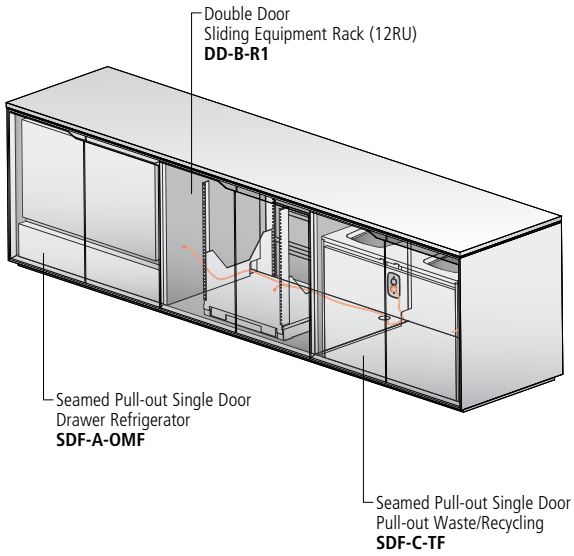
COMPONENTS

Specify Components within Case Option, if desired. Components include pull out waste/recycling, drawer refrigerator, charging drawers or equipment racks and trays.

RACKED EQUIPMENT AND VENTILATION CUTOUTS

- Select from sliding or fixed equipment racks
- Available on all 24.5"-depth cases; located behind any Double Door case option
- Low Height with Plinth Base and Conference Height with Metal Base - equipment racks hold 10 Rack Units (RU)
- Conference Height with Plinth Base and Buffet Height with Metal Base - equipment racks hold 12 Rack Units (RU)
- Equipment racks include a thermostatically-controlled fan and two cutouts:
  - Cables can be routed into case through a 2" grommet in the bottom panel
  - Round cutout in back panel accommodates a fan that activates automatically at 87° F and turns off when the ambient temperature in the cabinet reaches 85° F

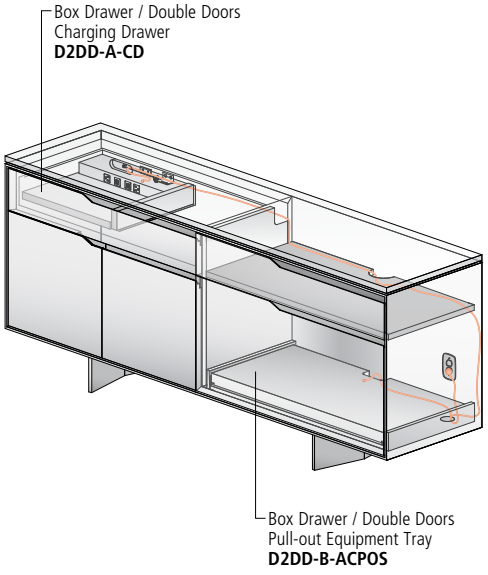


WASTE AND RECYCLING

- A 36"-wide front-opening double waste bin system is available in all 24.5"-depth credenzas
- Low Height with Plinth Base and Conference Height with Metal Base - Bin Size: (2) 36 Qt.
- Conference Height with Plinth Base and Buffet Height with Metal base - Bin Size: (2) 41 Qt.
- Located behind Pull-out or Seamed Pull-out Single Door case option

REFRIGERATOR DRAWER

- Available in 24.5"-depth, Conference Height with Plinth Base and Buffet Height with Metal Base Credenzas
- Located behind Pull-out or Seamed Pull-out Single Door case option
- 3.1 cu ft storage capacity
- Five different temperature modes: fridge, freezer, pantry, chill, and wine
- Grain-matched drawer fronts
- Ventilation cutout in front of bottom panel
- Drawer refrigerator packaged separately. Some installation required.



CHARGING DRAWER

- Includes (2) Simplexes, (2) Dual USB-A, and (2) Qi wireless charging locations
- 120V
- 120" cord
- Tamper resistant
- UL Listed
- Includes Knoll Felt, Pewter drawer liners; additional Knoll Felt or Brisa® UltraFabrics® drawer liner insert available

PULL-OUT EQUIPMENT TRAY

- Available on all credenzas; located behind any Double Door case option
- Double Door includes adjustable shelving

STEP 7: ACCESSORIES

Choose from drawer organizers and peg board systems available in three wood finishes. Fabric drawer liners, additional pencil trays, pull-out equipment trays, or plug strips may also be specified

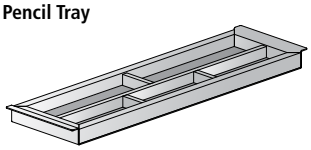
DRAWER LINER INSERTS

- All box drawers includes Knoll Felt, Pewter drawer liner inserts. Alternate Knoll Felt or Brisa® UltraFabrics® drawer liner inserts available.

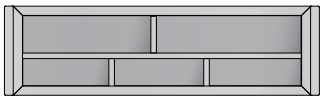
PENCIL TRAY

- Solid wood core frame and front rail
- Pencil drawer bottoms include Knoll Felt drawer liners; alternate Knoll Felt or Brisa® UltraFabrics® drawer liner inserts available
- Drawer dividers are polished aluminum (dividers are adjustable)

Pencil Tray



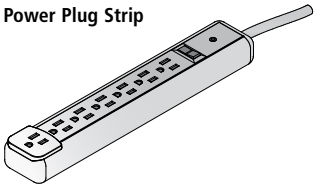
Pencil Tray Top View



POWER PLUG STRIP

- 15 amps - mounts into case
- Includes (7) outlets, surge protection and 12' electrical cord

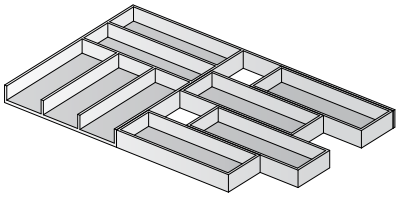
Power Plug Strip



DRAWER ORGANIZER

- Can be inserted in any box drawer
- Ideal for office or utensil drawer organization
- Includes removable divider
- Can be arranged as needed for a variety of applications
- Constructed of wood; available in birch, walnut, or ash
- Includes:
  - (1) 36" depth extender
  - (1) cutlery organizer with (5) compartments
  - (4) small 4-1/8" x 11-13/16" drawer organizer boxes
  - (3) connection clips
  - (2) diagonal metal dividers for small organizer boxes

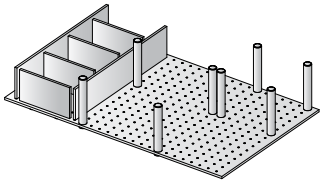
Drawer Organizer



PEG BOARD SYSTEM

- Can be inserted in any large box drawer
- Can be quickly rearranged to adjust to storage needs
- Ideal for plates, bowls, and glassware
- Constructed of wood; available in birch, walnut, or ash
- Includes:
  - (1) perforated panel
  - (8) pegs for peg system
  - (2) long dividers
  - (4) short dividers

Peg Board System



PULL-OUT EQUIPMENT TRAY RETRO FIT KIT

- Available on all credenzas; located behind any double door case option

Appendix

GENERAL INFORMATION

This price book supercedes all previous versions.

Before placing your order, confirm you have all required information necessary. Lead times for orders begin after all required information is included and correct.

Delivery Information
We know lead times are important and sticking to them even more so. We work to maintain a 6-8 week lead time on all standard products in this book from receipt of a clean order. All orders are acknowledged with an approximate shipping date and will be invoiced with the price in effect at the date the purchase order is received. For current lead times, please review www.nucraft.com/resources/lead-times.

Shipping charges are prepaid (within the continental U.S.). Therefore, pricing is a delivered price based on normal ground transportation. If you have special instructions, need to ship by air, or are shipping to Alaska or Hawaii, contact Nucraft Customer Service. Nucraft can also help arrange to have products blanket wrapped for an additional charge. Contact the Nucraft Customer Service team or specify it on your purchase order.

Minimum Freight Charge: Any order below $3,000 net will be assessed a $500 net minimum freight charge (one per order).

Orders are subject to acquiring the materials required for manufacturing. Fulfillment can be affected by strikes, fires, embargoes and acts of government. These elements are beyond our control.

Nucraft offers a variety of services to accommodate a wide range of delivery requirements. Availability of these services is dependent on a number of factors and may not be offered with all shipments. Examples of delivery services that have additional fees include:

- Specific date
- Specific time of day, morning or afternoon
- Delivery to a warehouse before delivery to its final destination (unless product is picked up at the warehouse)

Contact the Nucraft Customer Service team for availability and pricing on these services.

Freight Terms
Shipping charges for Nucraft products are prepaid for standard delivery in the continental United States. Standard delivery is defined as follows: Product is delivered on a 53' trailer being pulled by a long-haul tractor (total length of 85'). Facility will receive delivery Monday through Friday between the hours of 8:00 AM and 4:00 PM. Facility has docks with levelers and a fork truck for unloading. Product will be loaded on load bars two levels high. Receiving facility is responsible to have personnel on hand to unload the truck upon arrival, drivers do not unload. Delivery sites or times that do not meet these criteria may be accommodated, but will incur a charge to cover additional shipping costs. Please **notify Nucraft a minimum of two weeks prior to shipment** to arrange special services and determine additional charges.

Storage
Nucraft has no storage facilities for finished product. If a customer cannot accept an order when it is ready for shipment, the customer must designate an alternative shipping address. If no address is provided, Nucraft may, at its discretion, transfer the product to storage. If product is transferred to an off-site storage facility, the customer may be charged for transportation to the facility and for any associated storage fees. Nucraft considers transfer of the product to a storage facility the equivalent of shipment, including invoicing and payment. Customers assume the risk of damage or loss during storage.

Transportation Times and Delays
Third party carriers that Nucraft contracts with will make reasonable efforts to accommodate requested delivery times and dates. Scheduled delivery appointments may, however, be delayed for a variety of reasons, including inclement weather, traffic, transportation equipment problems, and delays encountered at other delivery locations along the delivery route. Nucraft does not recommend scheduling activities that depend on the delivery appointment (for example, scheduling furniture installers to install furniture the day of the delivery appointment). Nucraft shall not be liable for any costs incurred as a result of a missed delivery appointment.

Shipment Damage Claims
Legal title to merchandise passes to the buyer upon acceptance by the carrier. Inspect all cartons upon delivery. Details of visible damage should be noted on the delivery receipt. Do not destroy packaging, transport to site, or install product if damage is found upon inspection. Inspection of products should be completed upon delivery to the receiver. If visible damage is apparent, a claim should be filed immediately with Nucraft Customer Service. If visible damage is not apparent, sign the delivery receipt "No visible damage." This will allow recourse for a concealed damage claim. Concealed damage claims must be filed within 15 days of receipt, **prior to transporting or installing any product.**

Do not destroy packing materials until shipment has been inspected. If damage is found, proceed to file a claim with Nucraft Customer Service.

Failure to make any claims against Nucraft within 15 days shall constitute acceptance of the merchandise and a waiver of any defects, errors or shortages discovered upon inspection.

Cancellations
Cancellations must be reviewed by our Customer Service team. Because we build your products to order, orders cannot be cancelled once processing has begun. Processing includes but is not limited to development of shop drawings and other engineering drawings. If cancellation is approved, a processing fee of 20-100% will be assessed based on the status of the order.

Change Order Policy
Nucraft will make every attempt to honor any reasonable change request to product provided that the request is received prior to start of production. Change orders will be accepted only if the request is made in writing and received in time to make the change. Nucraft reserves the right to increase our acknowledged price and ship date if necessary to make the requested changes. Please submit any change order request to our Customer Service team. Nucraft will assess charges to the customer as stipulated in the following:

- Standard Orders: Change orders received prior to production will be charged $400 net to cover administrative costs.
- Special Orders: Change orders received prior to production will be charged $400 net to cover administrative costs. There may be additional costs associated with engineering labor required for the change order.
- Change orders received after production must be evaluated by Nucraft. If approved, the charge will be $400 net plus any restocking charges accumulated. There may be additional costs associated with engineering and/or manufacturing labor, as well as material costs, required for the change order.

Repair Authorization
Prior written approval is required for repairs of merchandise charged to Nucraft. Failure to do so will result in customer funded repairs.

Payment Terms
Deposits are required at the time of order due to the custom nature of our products. See information regarding Cancellations above.

Credit terms are available to qualified customers. Please contact AR@Nucraft.com to start the application process. Note that the credit application process requires a valid sales tax exemption or resale tax certificate, Form W-9, and three current trade references.

Credit Card Payments are accepted via web portal. Please contact AR@Nucraft.com for payment instructions. Note that a 2% convenience fee will be added for using this payment method and no early pay discounts are allowed on credit card payments.

Warranty
Nucraft Furniture is warranted to be free from defects in materials and workmanship for a period of ten years of single shift use. Limitations include:

- Mechanical Devices such as latches, casters, and other moving components are warranted for five years of the date of original delivery.
- Height adjustable components are warranted for two years of the date of original delivery.
- The following are warranted for one year of the date of original delivery:
  - Textiles
  - Electrical Components
  - Refrigeration Units
  - Custom Products not described in Nucraft's Catalogue

This warranty is applicable only if furniture is properly installed and maintained in an office environment. This warranty extends only to products manufactured and sold in North America and only to original purchasers acquiring new Nucraft product through authorized dealers or approved sellers.

During this warranty period, Nucraft's sole obligation is to repair or replace, at Nucraft's discretion, products which prove to be defective during the warranty period.

This warranty does not cover:

- Damage caused by a carrier.
- Damage from user modification, misuse, abuse, accident, or negligence.
- Customer's Own Material (COM) specified by the customer that is not a standard product offering.
- Color, grain, or texture of wood and other covering material.

Nucraft extends no other warranties, expressed or implied, including warranty of merchantability or fitness for a particular purpose. Nucraft shall not be liable for loss of time, inconvenience, commercial loss, incidental or consequential damages.

Environmental Statement
Nucraft is committed to supporting responsible environmental policies and practices in all that we do. We strive for sustainability, weighing our business decisions against the costs to the ecological, social and economic systems they affect.

Our products are manufactured to meet the credit requirements of the U.S. Green Building Council's LEED rating systems in one or more of the following categories:

- Recycled Content
- Certified Wood
- Low-Emitting Materials

Computer Aided Planning
Nucraft products and pricing are available via CET and 2020 Worksheet, an AutoCAD®-based space planning tool.

2020 Worksheet is an integrated software system developed specifically for interior designers and facility planners to enhance workplace performance. This modern suite of applications works together seamlessly, in concert. Navigate catalogs, select products, design in plan view and 3D, assign options, create worksheets and build a project where you want, when you want. Take your pick. It's dynamic and interactive. Design projects are a work in progress. And now you can perform any of the many discrete tasks that go into a project any time, any place.

Product symbols (Revit, 2D and 3D) are available on the Nucraft website at www.nucraft.com/resources/designer-tools/product-symbols.

iSpec®
Nucraft offers a free online product configuration and specification service that saves you time and allows you to be creative while leaving the nuts and bolts to someone else. No specific software is required, nor is there any learning curve. This service applies to all Nucraft products. For additional information, visit www.nucraft.com/resources/designer-tools/ispec.

FINISH INFORMATION

Surface Materials Palette
We crafted our materials palette using the same demanding standards that distinguish our furniture. Thoughtful design and attention to every detail elevate your possibilities.

Anchored by Nucraft veneers, unrivaled for clarity, quality, and depth of finish, our collection of surface materials comprises a sophisticated set of balanced elements that supports your design vision.

Some elements have their roots in Nucraft's rich heritage. Others are new materials and reflect current trends and taste. Together, they ensure that you're ready for today and positioned well for the future. Beautifully.

Custom Finishes
Nucraft specializes in expert custom finish matching. For a nominal upcharge we can provide custom finishes, and we are frequently asked to match the finishes of other furniture manufacturers. For finishes that appear unusual to match or for customers directly requesting a sample, a finish sample will be sent for approval prior to entering the order.

Custom finishes requiring colored varnishes to create a painted look can only be applied to Maple veneer and require one extra week in addition to the standard lead time. Nucraft's standard black finish (G82) can be applied to all Nucraft standard veneers. Walnut is the standard black veneer. Other species must be specified when ordering.

Clear coat on a special veneer requires an approved sample.

Custom finishes carry a 10% upcharge per item, per finish, capped at $2,200 List.

Custom finish upcharges are not applied to any item that is not wood. Example: casters, ganging connectors, power options..

Treatments
Note: Default veneer sheen will vary per finish and product. Default finish is bolded on pages vi-vii. If no direction is provided on incoming orders, default sheen will be selected. In addition, default veneer cut is noted in the price list. If no direction is provided on incoming orders, default cut will be selected.

Gloss: Gloss is a durable finish that tends to nicely mask normal wear and leaves wood grain visible to the eye. It achieves a medium gloss open pore appearance (40 – 50 sheen range). Finish numbers preceded by the letter "G" indicate a Gloss finish.

Matte: Like Gloss, Matte is durable, tends to nicely mask normal wear and leaves wood grain visible to the eye. It achieves a low luster, open pore appearance (10 – 20 sheen range). Finish numbers preceded by the letter "M" indicate a Matte finish.

Since each veneer type responds differently to both types of treatment, all will have a distinctive look and feel when finished. For example, a Walnut veneer with a Gloss treatment will remain much more textured than a Cherry veneer with the same treatment.

About the Wood
All Nucraft veneers are carefully selected for uniformity of color and grain. Still, wood is a natural substance and minor variations may occur due to its own uniqueness. Because of this, the furniture you receive may not be an exact match to our samples.

Nucraft takes great pride in our finish color consistency. However, wood is a natural product that will have color variation within a single piece of furniture, as well as from one piece to the next. Other factors also affect color over time, such as exposure to light (both intensity and duration). For example, lighter finishes cause more variation in colors over time.

In cases where a returning customer wants a precise match with existing furniture, we recommend sending a sample of the existing furniture finish. Please contact Nucraft Customer Service to determine an appropriate sample. This will ensure a finish match between old and new orders. This type of order is considered a control sample. There will be a 10% upcharge on an order of this type. Due to natural aging of veneers, natural finishes may vary.

Care and Maintenance of Wood Finishes
Our finish material is a crystal clear, urethane acrylic blend. This type of finish may be repaired in the field by a qualified refinisher.

Nucraft recommends using a damp cloth to clean your fine wood furniture. Always wipe with the grain of the wood. Should your wood furniture require a more thorough cleaning, we recommend using a mild cleaner such as Joy dish soap or Murphy's oil soap, thoroughly diluted in water (one part soap to thirty parts water). Water will not damage Nucraft's finish, but it may leave surface spots when it dries. To avoid this, dry the surface with a soft cloth after it is cleaned. Marks that cannot be removed with the cleaning methods above may be able to be removed using naphtha, a mild degreasing solvent.

Caution: while the use of polishes that contain wax, petroleum solvents or silicones may immediately enhance the "shine" of a product, it may also eventually remove the fine original finish applied in our factory. Silicone on the surface of wood may also make it very difficult to respray or refinish.

All Nucraft furniture is inspected and polished before it leaves our factory. In some instances, the packing materials may imprint on the factory polish. Cleaning and polishing the furniture once it is unpacked will normally restore the furniture to its original beauty.

In some cases, the rubber support feet used on the bottom of common office equipment (teleconferencing phones, laptops, microphones, copiers, etc.) can create unsightly marks in the surface of wood tops, due to oxidation of the lacquer finish. We suggest these machines be placed on a protective type of padding, such as felt.

Wood will fade as a result of exposure to UV light. This is particularly prevalent with light finishes. If color changes due to fading are a concern for your application, the impact can be minimized by selecting medium to dark stains for your wood surfaces. Our top coat includes a UV inhibitor which makes the finishes less prone to fading.

FINISH INFORMATION

Laminates
Selected Formica®, Nevamar®, and Wilsonart® laminates are available on Training Tables, Conference Tables, Conference Room Furniture and select Occasional Tables. For standard laminate and wood pricing, refer to individual item pricing columns. It is important to note that wood grain laminates are unable to be grain matched over multi-piece table top applications.

Non-Standard Laminates and Linoleums
To order a color other than those on our list (see pages vi-vii), refer to Nevamar or Formica standard grade, matte texture laminate offerings and Forbo Furniture Linoleums (excluding manufacturers' non-standard matte offering).

Nucraft can support other laminate and linoleum options beyond what can be found as standard options on pages vi-viii. For pricing, please send a request to quotes@nucraft.com.

Care and Maintenance of Laminate and Novawrap
Laminate and Novawrap surfaces may be cleaned with a damp cloth and ordinary soap or non-abrasive household liquid detergent. Dry the surface with a clean cloth or soft paper towel to prevent streaks from appearing.

Care and Maintenance of Metal
Metal surfaces can be wiped with a damp cloth and rubbed dry. A mild non-abrasive household liquid detergent can be used if necessary. Regular maintenance of metal components, including tightening of fasteners and light lubrication of moving parts, will extend the life of your furniture.

Satin Etched Glass
Glass color may vary slightly on multi-piece conference table tops over 180" x 60" when satin etched glass is specified due to the iron content and etching process of the glass.

Care and Maintenance of Glass
Clear or frosted glass may be cleaned with commercial glass cleaner. Be sure to use a lint-free cloth if cleaning the frosted side of the glass.

Stone and Solid Surface Material
Despite its reputation for durability, natural stone can easily be broken during handling and/or installation if proper techniques are not followed. In addition, Nucraft is not responsible for the installation of natural stone or solid surface materials on its products. Therefore, installers specifically trained in the installation of these materials must be utilized to ensure a quality installation. Nucraft shall not be liable for any damages incurred during the handling and/or installation of natural stone or solid surface materials on its products.

Care and Maintenance of Granite
Granite surfaces may be cleaned with a damp cloth and ordinary soap or non-abrasive household liquid detergent. Dry the surface with a clean cloth or soft paper towel to prevent streaks from appearing.

Care and Maintenance of Leather
Genuine leather requires very little care. Nucraft recommends that leather be dusted regularly. If a more thorough cleaning is needed, use lukewarm water and a mild, non-abrasive soap. Generate some lather and lightly rub the surface with cheesecloth. Rinse off any soap film with clean water and towel dry. The leather may dry dull. To restore the leather to a normal gloss, rub it with a clean towel. Never use furniture polish, oil, varnish or ammonia. Saddle soap may be used to prevent the leather from becoming brittle or cracked and to maintain the original supple finish.

Touch Up Finish Kits

Model #	Description	Price
KIT-M	Metal Kit	85
KIT-P	Paint Kit	85
KIT-S	Stain Kit	85

REQUIRED INFORMATION:
(ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)
- Kit model number
- Quantity of kits
- Specify finish (See pages vi-vii)

General Information:
- Touch-up kits must be ordered on a purchase order separate from Nucraft product due to Hazmat shipping

VENEER

STANDARD
Default veneer sheen will vary per finish and were determined by a team of experts who reviewed the colorways to determine if gloss or matte best highlighted the natural characteristics of the species of wood and the color of the stain. Default finish is bolded. If no direction is provided, default sheen will be selected.
