

FLOW™ ACTIVITY WALL

NUCRAFT

Flow™ Activity Wall - Designed by Joey Rüter

ACTIVITY WALL (FRAME)

The Activity Wall is an architectural steel frame structure that addresses the needs for space division and collaboration in open plan settings. There are two heights 33" or 48", with overall dimensions of 72"W x 20"D. The frame is available in powder coated finishes.

ACTIVITY CRENZENA (CASE)

The Activity Credenza provides storage below the Activity Wall. It can be single or dual-sided.

Credenza Top Materials:

- Veneer
- Laminate

Credenza Case Materials:

- Veneer
- Paint
- Laminate

Base Styles (powder coat):

- Cradle
- Blade
- Inset
