SPECIFICATION OVERVIEW

FLOW XT CONFERENCE TABLES (WITH POWER ISLAND)

1. Select the Top Surface and Power Island Door Material

Flow XT table tops are available in Standard Veneer. The Power Island doors are available in metal or glass.

2. Select the Top Size and Shape

Flow XT conference tables are available in four shapes: Rectangle, Radius Rectangle, Boat and Sight Line. Sizes range from 96" to 240"-long.

3. Select Base Style and Finish

Flow XT conference tables are available with the following base options: Panel, Four Post, Rectangle, Expandable Rectangle, Column, T-Base and Hoop Base. All Flow bases except the T-Base, and Hoop Base are available in veneer or paint finishes.

4. Select Storage Module (if desired)

FLOW CONFERENCE TABLES (WITHOUT POWER ISLAND)

1. Select the Top Surface Material

Choose between standard veneer, inset laminate with hardwood edge, laminate with ABS edge, glass or stone/quartz. Solid surface is available on round tables only.

2. Select the Top Size and Shape

Flow conference tables are available in five shapes: Round, Rectangle, Radius Rectangle, Boat and Sight Line. Sizes range from 36" round to 240"-long. All shapes except Round are available with either two or three bases depending on top size (some stone/quartz top tables have four bases).

3. Select Base Style and Finish

Flow conference tables are available with the following base options: Panel, Four Post, Rectangle, Expandable Rectangle, Column, T-Base, Hoop Base and Island. Round tables are available with a Metal X-Base, Cone Base or Cylinder Base. All Flow bases except the T-Base, Hoop Base, and Metal X-Base are available in veneer or paint finishes.

4. Select Power Option (if desired)

Table top power and data options include Power Matrix, Tech Node, Power Spec, USB Spec and Grommets. Under surface power options include Perimeter Power and Power Rails (not available on Round tables, Stone/Quartz Top tables, or tables with Four Post base), as well as Charging Trac.

DETAIL OVERVIEW

FLOW XT CONFERENCE TABLES (SHOWN WITH EXPANDABLE RECTANGLE BASE)

At the heart of the Flow XT conference tables is the Power Island, an innovative and scalable system that acknowledges the inherent dichotomy between the rate of change in technology and the typical lifespan of quality office furniture, reconciling that difference with ease. Modular componentry allows the table to respond to changes in technology requirements over the life of the table with ease. Flow XT conference tables are available with veneer tops only. Power Island is only available on Flow XT conference tables.

FLOW CONFERENCE TABLES

Available with veneer, laminate, glass or stone/quartz tops, Flow conference tables offer the ultimate in material and aesthetic choices. A broad range of power & data connectivity options provide scalability for technology accommodation.

TABLE TOP POWER OPTION: POWER ISLAND

COMPOUND CURVE WIRE CHASE

Compound curve veneering results in a soft, gentle flow into the technology docking zone beneath the floating Power Island.

ACCESS DOORS

Low-profile access doors are flush with the surrounding table top. Access doors are available in metal or glass.

STORAGE MODULE (NOT SHOWN)

Provides both a shelf for teleconference phones as well as a 4"-deep storage box to hide technology when it is not being used, hidden below the hinged shelf. A duplex receptacle in one of the inside walls provides convenient power connections and allows equipment to remain connected while in storage. Doors are available in metal or glass. Storage Modules can be specified in the center of the table, at both ends or all three locations, depending on the size of the table. The dimensions of the storage module opening are 12-1/4" wide x 12-3/4" long. The interior dimensions of the center storage module are 15" wide x 14-1/4" long x 4" deep and the end storage module are 15" wide x 13-3/4" long x 4" deep.

DATA BLOCK

Utilizing Extron® AAP Plates, these modular components offer maximum flexibility to adapt to future technology needs. Standard with two CAT6 data connectors and one blank faceplate for future use, Data Blocks are also available with a broad range of video, audio and data connection faceplate options and can easily be changed as the technology of the conference room changes. Held in place with two thumb screws, Data Blocks are easy to add, remove or relocate as needed.

POWER BLOCK

Standard with two simplex receptacles, Power Blocks provide convenient table top power connectivity. Their modular design allows them to be placed anywhere along the length of the Power Island in whatever quantities are needed (a specific quantity is included with each standard table length when the Power Island is specified). They are held in place with two thumb screws making them easy to add, remove or relocate as needed. Power Blocks are also available in hard-wired configurations. Power Blocks simply plug into a two-circuit electrical system that runs along the length of the table, just below the Power Island spine.

POWER PLANNING

Flow XT Two-Circuit Electrical System

- 4-wire, 20-amp, 2-circuit modular electrical system.
- All tables are pre-wired.
- Power Island defaults to hardwire infeed option. Plug-in infeed option may also be specified. A licensed electrician is required to complete hardwire connections to building's power source. Hardwire and plug-in infeed options are 42" long.
- Neutral (white) wires are 10 gauge, hot and ground wires are 12 gauge.
- All electrical components satisfy National Electrical Code (NEC) requirements and are UL listed.

Electrical Diagram — Hardwire Power Infeed Only

TABLE TOP POWER OPTION: POWER ISLAND

All Flow conference tables include an ample supply of wire management channels beneath the table top to accommodate even the most technology-intensive environments. In addition, Flow XT conference tables include a shroud to conceal the underside of the Power Island, eliminating the potential for sagging cables to be visible beneath the table top.

STANDARD POWER AND A/V SUPPLY

This chart notes the standard number of Power and Data Blocks supplied with each Flow XT table based on table length. If additional Power or Data Blocks are required, they can be purchased separately.

Please note, adding additional Power Blocks to the table may also require additional components for the electrical system to ensure proper connectivity. Please reach out to Nucraft Customer Service for assistance.

TABLE TOP POWER OPTION: POWER MATRIX

Available in a variety of sizes, styles and connectivity options, Power Matrix is Nucraft's most versatile power option. Power Matrix incorporates a broad array of scalable features and is available across multiple product lines, making it the "go to" solution for power and AV connectivity needs.

Offered in four sizes and two door configurations (single and double), Power Matrix can handle any power and AV connectivity need, from the simplest to the most demanding.

Small

Medium

Large

Extra Large

TABLE TOP POWER OPTION: POWER MATRIX

Power Matrix is filled with a broad array of high performance features and refined aesthetic elements.

POWER

Power Matrix features simplex receptacles for power connectivity, the quantity of which is pre-determined based on the size of the unit. An optional USB-A+C charger can also be specified in place of one of the simplex receptacles when desired. Corded or hardwired infeed options add flexibility.

DATA/AV FACEPLATES

Power Matrix accommodates Extron Architectural Adaptor Plates (AAPs) for unparalleled flexibility in data and AV connectivity.

DESIGN

Power Matrix units feature a clear anodized aluminum body and a bezel-free flush mount design on wood tables for an elegant appearance. Laminate, glass, solid surface and stone/quartz table tops include a bezel, available in powder coat, polished chrome or clear anodized finish options.

PERFORMANCE

Friction hinges ensure smooth travel through the door's range of motion and can hold the door in any position. Hidden door stops maintain the minimalist aesthetic. Cable storage is both concealed and ample.

DOORS

Power Matrix is offered in multiple door material options, including metal, glass and grain-matched wood cut from the same table top.

(Medium size shown)

TABLE TOP POWER OPTION: POWER MATRIX

STANDARD CONFIGURATIONS

Power Matrix is offered in four standard sizes, each with a pre-determined quantity of simplex outlets and AV faceplates. With each size, an optional 2 amp USB-A+C charger (1 amp per port) replaces one of the simplex outlets.

Small and Compact

- Single door design
- 5.375" x 6" cutout
- Two simplex outlets
- Three AV faceplates. Standard configuration includes two blank faceplates and one faceplate with two RJ-45 (data) connectors.
- (1) 12' plug-in infeed cord

Standard

Medium

- Single door design
- 5.375" x 8.25" cutout
- Four simplex outlets
- Four AV faceplates. Standard configuration includes three blank faceplates and one faceplate with two RJ-45 (data) connectors.
- (1) 12' plug-in infeed cord

Large

- Double door design
- 10.75" x 15.25" cutout
- Six simplex outlets (three per side)
- Six AV faceplates (three per side). Standard configuration includes two blank faceplates and one faceplate with two RJ-45 (data) connectors per side.
- (2) 12' plug-in infeed cords

Extra Large

- Double door design
- 10.75" x 30.25" cutout
- Eight simplex outlets (four per side)
- Twelve AV faceplates (six per side). Standard configuration includes four blank faceplates and two faceplates with two RJ-45 (data) connectors per side.
- (2) 12' plug-in infeed cords

Field-Wired

Some local electrical codes may require field-wiring during installation. In such instances, a Field-Wired option may be specified. In this configuration, each Power Matrix unit will be supplied with a 6' flexible metal conduit with hot, ground and neutral wires.

TABLE TOP POWER OPTION: POWER MATRIX

DIMENSIONS

Each Power Matrix unit includes a low-profile pan beneath the work surface to conceal the unit and provide ample storage capacity for excess cables. The size of the cut-out in the table top varies with each size of Power Matrix unit.

TABLE TOP POWER OPTION: POWER MATRIX

POWER PLANNING

Power Matrix is available with two options for connection with building power:

DIRECT PLUG-IN

The 15-amp power cord from each Power Matrix unit is plugged into a floor monument. The floor monument must have at least one power outlet per small or medium Power Matrix unit in the table and two power outlets per large or extra large Power Matrix (e.g., a table with four small or medium Power Matrix units would need four power outlets in the floor monument).

Direct Plug-In

Single In-Feed

SINGLE INFEEED

Each Power Matrix unit is plugged into a two-circuit modular electrical system in the table from which a single connection is made to a floor monument. This connection can be either hardwired (to utilize both of the circuits in the modular electrical system) or corded (which requires a 20-amp power outlet in the floor monument and reduces the modular electrical system in the table to a single circuit).

Two-Circuit Modular Electrical System

- 4-wire, 20-amp, 2-circuit modular electrical system
- Only present on tables specified with the Single In-Feed option
- Hardwire or corded (20-amp) in-feed options. A licensed electrician is required to complete hardwire connections to building's power source.
- Neutral (white) wires are 10 gauge, hot and ground wires are 12 gauge
- All electrical components satisfy National Electrical Code (NEC) requirements and are UL listed

RETRACTORS FOR POWER MATRIX

RETRACTORS

Cable retractors, for use with Power Matrix Small and Medium only, mount directly to the underside of conference room tables using the included mounting bracket. Loaded with 12' of cable that extends out 5' from the retractor. Retractors have a female input from the building infrastructure and a male connector on the output side. Not available on round tables.

UNDER SURFACE POWER OPTION: PERIMETER POWER

Perimeter Power provides enhanced power and communication connectivity for each individual seated at a conference table. Attached to the table's apron, Perimeter Power maintains a clean aesthetic on the table top.

Perimeter Power components:

- Hardwire power in-feed (6')
- Duplex receptacles
- NEMA size single-gang cutouts (voice/data)
- Single-gang wallplate cover (blank)
- 20 AMP system

The hardwire power in-feed has a modular connector on one end; the connector attaches to the back side of any power block mounted on the table's apron. This feature allows total flexibility in determining floor monument location under any table base. All tables ship pre-wired.

Note: Clearance from the floor to the bottom of the apron is 24-3/4". Apron is recessed 2-1/8" under the table.

POWER PLANNING

Perimeter Power Electrical System

- 8-wire, 4-circuit modular electrical system
- All tables are pre-wired
- Hardwire power in-feed only. A licensed electrician is required to complete hardwire connections to building's power source.
- Neutral (white) wires are 10 gauge, hot and ground wires are 12 gauge.
- All electrical components satisfy National Electrical Code (NEC) requirements and are UL listed

Electrical Diagram — Hardwire Power Infeed Only

Four circuits, one isolated. This electrical schematic can be used with three-phase or single-phase power.

Field-Wired Electrical Requirements

Some local electrical codes may require field-wiring during installation. In such instances, a Field-Wired option may be specified. In this configuration, Perimeter Power includes power junction boxes instead of the standard modular electrical system. Specific electrical components such as receptacles must be furnished separately.

VOICE/DATA PLANNING

The Perimeter Power assembly does not include any factory-installed voice/data components. It does include one (1) NEMA size cutout per bracket with a blank wall-plate cover.

Faceplates and data connectors must be purchased and installed in the field.

UNDER SURFACE POWER OPTION: POWER RAIL

This low-profile option addresses the need for power & data connectivity just below the table top. This is an ideal choice for those who desire a visually uninterrupted table top and appreciate the inherent flexibility of the Power Rail to be removed at a later date as they transition to a truly wireless environment.

Held in place with screws, Power Rail units can be placed anywhere along the perimeter of the table. This flexible mounting design allows for additional units to be added as necessary, or to be removed when no longer needed.

Power Rails are available in three configurations:

- Two simplex receptacles (UL Listed)
- One simplex receptacle and one powered USB-A+C connector (UL Listed)
- Two single space A/V faceplate designed for use with Extron Architectural Adaptor Plates (AAPs)

When Power Rails are specified on a Flow table, a direct plug-in infeed or hardwired option is available. The direct plug-in infeed option has a single circuit electrical system and the hardwire option requires a two-circuit electrical system. Maximum of 12 Power Rails per table

Reverse Flow Edge

GENERAL INFORMATION

- Storage Modules, if specified, will have metal doors
- Tops are 1-1/8"-thick with 3/16"-deep hardwood edge band
- Seating capacity based on 27" per person
- Four Post Base includes a 12"x24" center column for wire management. Center column may be removed from tables 96" and shorter with options -4COLP or -4COLV above. On tables over 96", the center column is required for support.
- T-Base combination finish includes a Polished Chrome foot and Powder Coat vertical column
- Beam finish will match Metal Finish selection. If no Metal Finish is selected, beams will be Foil.
- If Polished Chrome Finish is specified on the T-Base or Hoop Base, the beams will be Foil. If Polished Chrome Finish is specified on the Four Post Base, the beams will be Clear Anodized.
- Overall table height 29.5"
- Power Island defaults to hardwire infeed option. Specify -PI for plug-in infeed option. Plug-in power infeed will only utilize one circuit of the two-circuit modular power system. To utilize both circuits, the hardwire power in-feed must be specified.
- Tables with three Hoop or T-Bases will default to the same base style for all three bases. An alternate Center Column Base may also be specified above.
- One wire manager included with the Hoop Base table (regardless of table size). Can be adhered to the leg and will default to the finish of the leg. If additional wire management channels are required, they can be purchased separately at the end of the pricelist.
- Center Wire Chase available on two base tables for more robust wire management needs. See page 128.
- If Simplex/Charging USB Power Blocks are specified, they replace the standard Power Blocks on the table. Simplex/Charging USB Power Blocks include one simplex receptacle and one charging USB-A+C.
- Panel, Rectangle, Expandable Rectangle, Metal T-base, and Center Column bases have a removable access panel

Reverse Flow Edge

GENERAL INFORMATION

- Storage Modules, if specified, will have metal doors
- Tops are 1-1/8"-thick with 3/16"-deep hardwood edge band
- Seating capacity based on 27" per person
- Four Post Base includes a 12"x24" center column for wire management. Center column may be removed from tables 96" and shorter with options -4COLP or -4COLV above. On tables over 96", the center column is required for support.
- T-Base combination finish includes a Polished Chrome foot and Powder Coat vertical column
- Beam finish will match Metal Finish selection. If no Metal Finish is selected, beams will be Foil.
- If Polished Chrome Finish is specified on the T-Base or Hoop Base, the beams will be Foil. If Polished Chrome Finish is specified on the Four Post Base, the beams will be Clear Anodized.
- Overall table height 29.5"
- Power Island defaults to hardwire infeed option. Specify -PI for plug-in infeed option. Plug-in power infeed will only utilize one circuit of the two-circuit modular power system. To utilize both circuits, the hardwire power in-feed must be specified.
- Tables with three Hoop or T-Bases will default to the same base style for all three bases. An alternate Center Column Base may also be specified above.
- One wire manager included with the Hoop Base table (regardless of table size). Can be adhered to the leg and will default to the finish of the leg. If additional wire management channels are required, they can be purchased separately at the end of the pricelist.
- Center Wire Chase available on two base tables for more robust wire management needs. See page 128.
- If Simplex/Charging USB Power Blocks are specified, they replace the standard Power Blocks on the table. Simplex/Charging USB Power Blocks include one simplex receptacle and one charging USB-A+C.
- Panel, Rectangle, Expandable Rectangle, Metal T-base, and Center Column bases have a removable access panel

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

- Four Post Base includes a 12"x24" center column for wire management. Center column may be removed from tables 96" and shorter with options -4COLP or -4COLV above. On tables over 96", the center column is required for support.
- T-Base combination finish includes a Polished Chrome foot and Powder Coat vertical column
- Beam finish will match Metal Finish selection. If no Metal Finish is selected, beams will be Foil.
- If Polished Chrome Finish is specified on the T-Base or Hoop Base, the beams will be Foil. If Polished Chrome Finish is specified on the Four Post Base, the beams will be Clear Anodized.
- Overall table height 29.5"
- Power Island defaults to hardwire infeed option. Specify -PI for plug-in infeed option. Plug-in power infeed will only utilize one circuit of the two-circuit modular power system. To utilize both circuits, the hardwire power in-feed must be specified.
- Tables with three Hoop or T-Bases will default to the same base style for all three bases. An alternate Center Column Base may also be specified above.
- One wire manager included with the Hoop Base table (regardless of table size). Can be adhered to the leg and will default to the finish of the leg. If additional wire management channels are required, they can be purchased separately at the end of the pricelist.
- Center Wire Chase available on two base tables for more robust wire management needs. See page 128.
- If Simplex/Charging USB Power Blocks are specified, they replace the standard Power Blocks on the table. Simplex/Charging USB Power Blocks include one simplex receptacle and one charging USB-A+C.
- Panel, Rectangle, Expandable Rectangle, Metal T-base, and Center Column bases have a removable access panel

EDGE PROFILE

Reverse Flow Edge

GENERAL INFORMATION

- Tops are 1-1/8" thick with 3/16" deep hardwood edge band
- Seating capacity based on 27" per person
- Overall table height 29.5"
- Four Post Base includes a 12"x24" center column for wire management. Center column may be removed from tables 96" and shorter with options -4COLP or -4COLV above. On tables over 96", the center column is required for support.
- T-Base combination finish includes a Polished Chrome foot and Powder Coat vertical column
- Beam finish will match Metal Finish selection. If no Metal Finish is selected, beams will be Foil.
- If Polished Chrome Finish is specified on the T-Base or Hoop Base, the beams will be Foil. If Polished Chrome Finish is specified on the Four Post Base, the beams will be Clear Anodized.
- Tables with three Hoop or T-Bases will default to the same base style for all three bases. An alternate Center Column Base may also be specified above.
- One wire manager included with the Hoop Base table (regardless of table size). Can be adhered to the leg and will default to the finish of the leg. If additional wire management channels are required, they can be purchased separately at the end of the pricelist.
- Center Wire Chase available on two base tables for more robust wire management needs. See page 128.
- Panel, Rectangle, Expandable Rectangle, Island, Metal T-base, and Center Column bases have a removable access panel

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose Veneer Finish
- Choose Metal Finish. Clear Anodized (-CA) not available on T-Base or Hoop Base.
- Choose Paint Finish, if -PP, -P4, -PR, -PX, -PN or -CRP bases are selected

EDGE PROFILE

Reverse Flow Edge

GENERAL INFORMATION

- Tops are 1-1/8" thick with 3/16" deep hardwood edge band
- Seating capacity based on 27" per person
- Overall table height 29.5"
- T-Base combination finish includes a Polished Chrome foot and Powder Coat vertical column
- Beam finish will match Metal Finish selection. If no Metal Finish is selected, beams will be Foil.
- If Polished Chrome Finish is specified on the T-Base or Hoop Base, the beams will be Foil. If Polished Chrome Finish is specified on the Four Post Base, the beams will be Clear Anodized.
- Tables with three Hoop or T-Bases will default to the same base style for all three bases. An alternate Center Column Base may also be specified above.
- One wire manager included with the Hoop Base table (regardless of table size). Can be adhered to the leg and will default to the finish of the leg. If additional wire management channels are required, they can be purchased separately at the end of the pricelist.
- Center Wire Chase available on two base tables for more robust wire management needs. See page 128.
- Panel, Rectangle, Expandable Rectangle, Island, Metal T-base, and Center Column bases have a removable access panel

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose Veneer Finish
- Choose Metal Finish. Clear Anodized (-CA) not available on T-Base or Hoop Base.
- Choose Paint Finish, if -PP, -PR, -PX, -PN or -CRP bases are selected

GENERAL INFORMATION

- Tops are 1-1/8" thick with 3/16" deep hardwood edge band
- Seating capacity based on 27" per person
- Overall table height 29.5"
- Four Post Base includes a 12"x24" center column for wire management. Center column may be removed from tables 96" and shorter with options -4COLP or -4COLV above. On tables over 96", the center column is required for support.
- T-Base combination finish includes a Polished Chrome foot and Powder Coat vertical column
- Beam finish will match Metal Finish selection. If no Metal Finish is selected, beams will be Foil.
- If Polished Chrome Finish is specified on the T-Base or Hoop Base, the beams will be Foil. If Polished Chrome Finish is specified on the Four Post Base, the beams will be Clear Anodized.
- Tables with three Hoop or T-Bases will default to the same base style for all three bases. An alternate Center Column Base may also be specified above.
- One wire manager included with the Hoop Base table (regardless of table size). Can be adhered to the leg and will default to the finish of the leg. If additional wire management channels are required, they can be purchased separately at the end of the pricelist.
- Center Wire Chase available on two base tables for more robust wire management needs. See page 128.
- Veneer base will default to flat-cut (non-plank) clear coat walnut and remain in vertical slip-match lay-up. Clear coat finish captures color variation to complement the variation of the plank door style.
- Panel, Rectangle, Expandable Rectangle, Island, Metal T-base, and Center Column bases have a removable access panel

EDGE PROFILE

Reverse Flow Edge

GENERAL INFORMATION

- Tops are 1-1/8"-thick with 3/16"-deep hardwood edge band
- Seating capacity based on 27" per person
- Overall table height 29.5"
- T-Base combination finish includes a Polished Chrome foot and Powder Coat vertical column
- Beam finish will match Metal Finish selection. If no Metal Finish is selected, beams will be Foil.
- If Polished Chrome Finish is specified on the T-Base or Hoop Base, the beams will be Foil. If Polished Chrome Finish is specified on the Four Post Base, the beams will be Clear Anodized.
- Tables with three Hoop or T-Bases will default to the same base style for all three bases. An alternate Center Column Base may also be specified above.
- One wire manager included with the Hoop Base table (regardless of table size). Can be adhered to the leg and will default to the finish of the leg. If additional wire management channels are required, they can be purchased separately at the end of the pricelist.
- Center Wire Chase available on two base tables for more robust wire management needs. See page 128.
- Veneer base will default to flat-cut (non-plank) clear coat walnut and remain in vertical slip-match lay-up. Clear coat finish captures color variation to complement the variation of the plank door style.
- Panel, Rectangle, Expandable Rectangle, Island, Metal T-base, and Center Column bases have a removable access panel

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose Metal Finish. Clear Anodized (-CA) not available on T-Base or Hoop Base.
- Choose Paint Finish, if -PP, -PR, -PX, -PN or -CRP bases are selected

EDGE PROFILE

Reverse Flow Edge

GENERAL INFORMATION

- Tops are 1-1/8" thick with 3/16" deep hardwood edge band
- Seating capacity based on 27" per person
- Overall table height 29.5"
- Four Post Base includes a 12"x24" center column for wire management. Center column may be removed from tables 96" and shorter with options -4COLP or -4COLV above. On tables over 96", the center column is required for support.
- T-Base combination finish includes a Polished Chrome foot and Powder Coat vertical column
- Beam finish will match Metal Finish selection. If no Metal Finish is selected, beams will be Foil.
- If Polished Chrome Finish is specified on the T-Base or Hoop Base, the beams will be Foil. If Polished Chrome Finish is specified on the Four Post Base, the beams will be Clear Anodized.
- Tables with three Hoop or T-Bases will default to the same base style for all three bases. An alternate Center Column Base may also be specified above.
- One wire manager included with the Hoop Base table (regardless of table size). Can be adhered to the leg and will default to the finish of the leg. If additional wire management channels are required, they can be purchased separately at the end of the pricelist.
- Center Wire Chase available on two base tables for more robust wire management needs. See page 128.
- Veneer base will default to flat-cut (non-plank) clear coat walnut and remain in vertical slip-match lay-up. Clear coat finish captures color variation to complement the variation of the plank door style.
- Panel, Rectangle, Expandable Rectangle, Metal T-base, and Center Column bases have a removable access panel

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose Metal Finish. Clear Anodized (-CA) not available on T-Base or Hoop Base.
- Choose Paint Finish, if -PP, -P4, -PR, -PX or -CRP bases are selected

GENERAL INFORMATION

- Tops are 1-1/8"-thick with 3/16"-deep hardwood edge band
- Seating capacity based on 27" per person
- Overall table height 29.5"
- Four Post Base includes a 12"x24" center column for wire management. Center column may be removed from tables 96" and shorter with options -4COLP or -4COLV above. On tables over 96", the center column is required for support.
- T-Base combination finish includes a Polished Chrome foot and Powder Coat vertical column
- Beam finish will match Metal Finish selection. If no Metal Finish is selected, beams will be Foil.
- If Polished Chrome Finish is specified on the T-Base or Hoop Base, the beams will be Foil. If Polished Chrome Finish is specified on the Four Post Base, the beams will be Clear Anodized.
- Tables with three Hoop or T-Bases will default to the same base style for all three bases. An alternate Center Column Base may also be specified above.
- One wire manager included with the Hoop Base table (regardless of table size). Can be adhered to the leg and will default to the finish of the leg. If additional wire management channels are required, they can be purchased separately at the end of the pricelist.
- Center Wire Chase available on two base tables for more robust wire management needs. See page 128.
- Panel, Rectangle, Expandable Rectangle, Island, Metal T-base, and Center Column bases have a removable access panel

GENERAL INFORMATION

- Tops are 1-1/8" thick with 3/16" deep hardwood edge band
- Seating capacity based on 27" per person
- Overall table height 29.5"
- T-Base combination finish includes a Polished Chrome foot and Powder Coat vertical column
- Beam finish will match Metal Finish selection. If no Metal Finish is selected, beams will be Foil.
- If Polished Chrome Finish is specified on the T-Base or Hoop Base, the beams will be Foil. If Polished Chrome Finish is specified on the Four Post Base, the beams will be Clear Anodized.
- Tables with three Hoop or T-Bases will default to the same base style for all three bases. An alternate Center Column Base may also be specified above.
- One wire manager included with the Hoop Base table (regardless of table size). Can be adhered to the leg and will default to the finish of the leg. If additional wire management channels are required, they can be purchased separately at the end of the pricelist.
- Center Wire Chase available on two base tables for more robust wire management needs. See page 128.
- Panel, Rectangle, Expandable Rectangle, Island, Metal T-base, and Center Column bases have a removable access panel

EDGE PROFILE

ABS Reverse Flow Edge

GENERAL INFORMATION

- Tops are 1-1/8" thick with 2mm ABS edge
- Seating capacity based on 27" per person
- Overall table height 29.5"
- Four Post Base includes a 12"x24" center column for wire management. Center column may be removed from tables 96" and shorter with options -4COLP or -4COLV above. On tables over 96", the center column is required for support.
- T-Base combination finish includes a Polished Chrome foot and Powder Coat vertical column
- Beam finish will match Metal Finish selection. If no Metal Finish is selected, beams will be Foil.
- If Polished Chrome Finish is specified on the T-Base or Hoop Base, the beams will be Foil. If Polished Chrome Finish is specified on the Four Post Base, the beams will be Clear Anodized.
- Underside of table edge is painted to match ABS color
- Tables with three Hoop or T-Bases will default to the same base style for all three bases. An alternate Center Column Base may also be specified above.
- One wire manager included with the Hoop Base table (regardless of table size). Can be adhered to the leg and will default to the finish of the leg. If additional wire management channels are required, they can be purchased separately at the end of the pricelist.
- Center Wire Chase available on two base tables for more robust wire management needs. See page 128.
- Panel, Rectangle, Expandable Rectangle, Island, Metal T-base, and Center Column bases have a removable access panel

EDGE PROFILE

ABS Reverse Flow Edge

GENERAL INFORMATION

- Tops are 1-1/8" thick with 3/16" deep hardwood edge band
- Seating capacity based on 27" per person
- Overall table height 29.5"
- Four Post Base includes a 12"x24" center column for wire management. Center column may be removed from tables 96" and shorter with options -4COLP or -4COLV above. On tables over 96", the center column is required for support.
- T-Base combination finish includes a Polished Chrome foot and Powder Coat vertical column
- Beam finish will match Metal Finish selection. If no Metal Finish is selected, beams will be Foil.
- If Polished Chrome Finish is specified on the T-Base or Hoop Base, the beams will be Foil. If Polished Chrome Finish is specified on the Four Post Base, the beams will be Clear Anodized.
- Underside of table edge is painted to match ABS color
- Tables with three Hoop or T-Bases will default to the same base style for all three bases. An alternate Center Column Base may also be specified above.
- One wire manager included with the Hoop Base table (regardless of table size). Can be adhered to the leg and will default to the finish of the leg. If additional wire management channels are required, they can be purchased separately at the end of the pricelist.
- Center Wire Chase available on two base tables for more robust wire management needs. See page 128.
- Panel, Rectangle, Expandable Rectangle, Metal T-base, and Center Column bases have a removable access panel

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose Laminate
- Choose ABS Color
- Choose Metal Finish. Clear Anodized (-CA) not available on T-Base or Hoop Base.
- Choose Paint Finish, if -PP, -P4, -PR, -PX or -CRP bases are selected

GENERAL INFORMATION

- Tops are 1-1/8" thick sub-top with 1/4" thick back-painted low iron glass
- Glass sections noted are for tables without power units. When power units are specified in the table, the glass sections are determined by the size of the power unit, quantity and location.
- Unless otherwise specified, the sub-top finish will match the base finish (specification required when base is polished chrome)
- Seating capacity based on 27" per person
- Overall table height 29.5"
- Four Post Base includes a 12"x24" center column for wire management. Center column may be removed from tables 96" and shorter with options -4COLP or -4COLV above. On tables over 96", the center column is required for support.
- T-Base combination finish includes a Polished Chrome foot and Powder Coat vertical column
- Due to the color variation inherent with the natural etching process, larger size tables longer than 180" or wider than 60" may have glass color variation
- Beam finish will match Metal Finish selection. If no Metal Finish is selected, beams will be Foil.
- If Polished Chrome Finish is specified on the T-Base or Hoop Base, the beams will be Foil. If Polished Chrome Finish is specified on the Four Post Base, the beams will be Clear Anodized.
- Tables with three Hoop or T-Bases will default to the same base style for all three bases. An alternate Center Column Base may also be specified above.
- One wire manager included with the Hoop Base table (regardless of table size). Can be adhered to the leg and will default to the finish of the leg. If additional wire management channels are required, they can be purchased separately at the end of the pricelist.
- Center Wire Chase available on two base tables for more robust wire management needs. See page 128.
- Panel, Rectangle, Expandable Rectangle, Island, Metal T-base, and Center Column bases have a removable access panel

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

EDGE PROFILE

Glass Edge

GENERAL INFORMATION

- Tops are 1-1/8" thick sub-top with 1/4" thick back-painted low iron glass
- Glass sections noted are for tables without power units. When power units are specified in the table, the glass sections are determined by the size of the power unit, quantity and location.
- Unless otherwise specified, the sub-top finish will match the base finish (specification required when base is polished chrome)
- Seating capacity based on 27" per person
- Overall table height 29.5"
- Four Post Base includes a 12"x24" center column for wire management. Center column may be removed from tables 96" and shorter with options -4COLP or -4COLV above. On tables over 96", the center column is required for support.
- T-Base combination finish includes a Polished Chrome foot and Powder Coat vertical column
- Due to the color variation inherent with the natural etching process, larger size tables longer than 180" or wider than 60" may have glass color variation
- Beam finish will match Metal Finish selection. If no Metal Finish is selected, beams will be Foil.
- If Polished Chrome Finish is specified on the T-Base or Hoop Base, the beams will be Foil. If Polished Chrome Finish is specified on the Four Post Base, the beams will be Clear Anodized.
- Tables with three Hoop or T-Bases will default to the same base style for all three bases. An alternate Center Column Base may also be specified above.
- One wire manager included with the Hoop Base table (regardless of table size). Can be adhered to the leg and will default to the finish of the leg. If additional wire management channels are required, they can be purchased separately at the end of the pricelist.
- Center Wire Chase available on two base tables for more robust wire management needs. See page 128.
- Panel, Rectangle, Expandable Rectangle, Metal T-base, and Center Column bases have a removable access panel

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose Glass Finish (Satin Glass upcharges apply, see options above)
- Choose Sub-Top Finish:
 - Paint Finish, or
 - Veneer Finish
- Choose Metal Finish. Clear Anodized (-CA) not available on T-Base or Hoop Base.
- Choose Veneer Finish, if -VP, -V4, -VR, -VX, -VN or -CRV base is selected
- Choose Paint Finish, if -PP, -P4, -PR, -PX, -PN or -CRP bases are selected

STONE / QUARTZ TOP

EDGE PROFILE

GENERAL INFORMATION

- Tops are 2cm thick, cantilevered 3" over a 2" built-up edge subtop
- When Absolute Black Granite stone is specified, the subtop will be painted in Galaxy (S8007)
- When Carrara Marble, Quartz Carrara Codena, or Quartz Serene stone is specified, the subtop will be painted in Cloud (S8004)
- Steel lattice frame replaces the beam structure
- Seating capacity based on 27" per person
- Overall table height 30"
- Stone and Solid Surface Material: Despite its reputation for durability, natural stone can easily be broken during handling and/or installation if proper techniques are not followed. In addition, NuCraft is not responsible for the installation of natural stone or solid surface materials on its products. Therefore, installers specifically trained in the installation of these materials must be utilized to ensure a quality installation. NuCraft shall not be liable for any damages incurred during the handling and/or installation of natural stone or solid surface materials on its products.
- Center Wire Chase available on two base tables for more robust wire management needs. See page 128.

STONE / QUARTZ TOP

EDGE PROFILE

GENERAL INFORMATION

- Tops are 2cm thick, cantilevered 3" over a 2" built-up edge subtop
- When Absolute Black Granite stone is specified, the subtop will be painted in Galaxy (S8007)
- When Carrara Marble, Quartz Carrara Codena, or Quartz Serene stone is specified, the subtop will be painted in Cloud (S8004)
- Steel lattice frame replaces the beam structure
- Seating capacity based on 27" per person
- Overall table height 30"
- Stone and Solid Surface Material: Despite its reputation for durability, natural stone can easily be broken during handling and/or installation if proper techniques are not followed. In addition, NuCraft is not responsible for the installation of natural stone or solid surface materials on its products. Therefore, installers specifically trained in the installation of these materials must be utilized to ensure a quality installation. NuCraft shall not be liable for any damages incurred during the handling and/or installation of natural stone or solid surface materials on its products.
- Center Wire Chase available on two base tables for more robust wire management needs. See page 128.
- If Polished Chrome finish is specified on the Hoop Base, the beams will be foil.
- Tables with three Hoop Bases will default to the same base style for all three bases. An alternate Center Rectangle Base may also be specified above.
- One wire manager included with the Hoop Base table (regardless of table size). Can be adhered to the leg and will default to the finish of the leg. If additional wire management channels are required, they can be purchased separately at the end of the pricelist.
- Rectangle and Column bases have a removable access panel

Appendix

This price book supercedes all previous versions.

Before placing your order, confirm you have all required information necessary. Lead times for orders begin after all required information is included and correct.

Delivery Information

We know lead times are important and sticking to them even more so. We work to maintain a 6-8 week lead time on all standard products in this book from receipt of a clean order. All orders are acknowledged with an approximate shipping date and will be invoiced with the price in effect at the date the purchase order is received. For current lead times, please review www.nucraft.com/resources/lead-times.

Shipping charges are prepaid (within the continental U.S.). Therefore, pricing is a delivered price based on normal ground transportation. If you have special instructions, need to ship by air, or are shipping to Alaska or Hawaii, contact NuCraft Customer Service. NuCraft can also help arrange to have products blanket wrapped for an additional charge. Contact the NuCraft Customer Service team or specify it on your purchase order.

Minimum Freight Charge: Any order below \$2,900 net will be assessed a \$475 net minimum freight charge (one per order).

Orders are subject to acquiring the materials required for manufacturing. Fulfillment can be affected by strikes, fires, embargoes and acts of government. These elements are beyond our control.

NuCraft offers a variety of services to accommodate a wide range of delivery requirements. Availability of these services is dependent on a number of factors and may not be offered with all shipments. Examples of delivery services that have additional fees include:

- Specific date
- Specific time of day, morning or afternoon
- Delivery to a warehouse before delivery to its final destination (unless product is picked up at the warehouse)

Contact the NuCraft Customer Service team for availability and pricing on these services.

Freight Terms

Shipping charges for NuCraft products are prepaid for standard delivery in the continental United States. Standard delivery is defined as follows: Product is delivered on a 53' trailer being pulled by a long-haul tractor (total length of 85'). Facility will receive delivery Monday through Friday between the hours of 8:00 AM and 4:00 PM. Facility has docks with levelers and a fork truck for unloading. Product will be loaded on load bars two levels high. Receiving facility is responsible to have personnel on hand to unload the truck upon arrival, drivers do not unload. Delivery sites or times that do not meet these criteria may be accommodated, but will incur a charge to cover additional shipping costs. Please **notify NuCraft a minimum of two weeks prior to shipment** to arrange special services and determine additional charges.

Storage

NuCraft has no storage facilities for finished product. If a customer cannot accept an order when it is ready for shipment, the customer must designate an alternative shipping address. If no address is provided, NuCraft may, at its discretion, transfer the product to storage. If product is transferred to an off-site storage facility, the customer may be charged for transportation to the facility and for any associated storage fees. NuCraft considers transfer of the product to a storage facility the equivalent of shipment, including invoicing and payment. Customers assume the risk of damage or loss during storage.

Transportation Times and Delays

Third party carriers that NuCraft contracts with will make reasonable efforts to accommodate requested delivery times and dates. Scheduled delivery appointments may, however, be delayed for a variety of reasons, including inclement weather, traffic, transportation equipment problems, and delays encountered at other delivery locations along the delivery route. NuCraft does not recommend scheduling activities that depend on the delivery appointment (for example, scheduling furniture installers to install furniture the day of the delivery appointment). NuCraft shall not be liable for any costs incurred as a result of a missed delivery appointment.

Shipment Damage Claims

Legal title to merchandise passes to the buyer upon acceptance by the carrier. Inspect all cartons upon delivery. Details of visible damage should be noted on the delivery receipt. Do not destroy packaging, transport to site, or install product if damage is found upon inspection. Inspection of products should be completed upon delivery to the receiver. If visible damage is apparent, a claim should be filed immediately with NuCraft Customer Service. If visible damage is not apparent, sign the delivery receipt "No visible damage." This will allow recourse for a concealed damage claim. Concealed damage claims must be filed within 15 days of receipt, **prior to transporting or installing any product.**

Do not destroy packing materials until shipment has been inspected. If damage is found, proceed to file a claim with NuCraft Customer Service.

Failure to make any claims against NuCraft within 15 days shall constitute acceptance of the merchandise and a waiver of any defects, errors or shortages discovered upon inspection.

Cancellations

Cancellations must be reviewed by our Customer Service team. Because we build your products to order, orders cannot be cancelled once processing has begun. Processing includes but is not limited to development of shop drawings and other engineering drawings. If cancellation is approved, a processing fee of 20-100% will be assessed based on the status of the order.

Change Order Policy

NuCraft will make every attempt to honor any reasonable change request to product provided that the request is received prior to start of production. Change orders will be accepted only if the request is made in writing and received in time to make the change. NuCraft reserves the right to increase our acknowledged price and ship date if necessary to make the requested changes. Please submit any change order request to our Customer Service team. NuCraft will assess charges to the customer as stipulated in the following:

- Standard Orders: Change orders received prior to production will be charged \$400 net to cover administrative costs.
- Special Orders: Change orders received prior to production will be charged \$400 net to cover administrative costs. There may be additional costs associated with engineering labor required for the change order.
- Change orders received after production must be evaluated by NuCraft. If approved, the charge will be \$400 net plus any restocking charges accumulated. There may be additional costs associated with engineering and/or manufacturing labor, as well as material costs, required for the change order.

Repair Authorization

Prior written approval is required for repairs of merchandise charged to Nucraft. Failure to do so will result in customer funded repairs.

Payment Terms

Deposits are required at the time of order due to the custom nature of our products. See information regarding Cancellations above.

Credit terms are available to qualified customers. Please contact AR@Nucraft.com to start the application process. Note that the credit application process requires a valid sales tax exemption or resale tax certificate, Form W-9, and three current trade references.

Credit Card Payments are accepted via web portal. Please contact AR@Nucraft.com for payment instructions. Note that a 2% convenience fee will be added for using this payment method and no early pay discounts are allowed on credit card payments.

Warranty

Nucraft Furniture is warranted to be free from defects in materials and workmanship for a period of ten years of single shift use. Limitations include:

- Mechanical Devices such as latches, casters, and other moving components are warranted for five years of the date of original delivery.
- Height adjustable components are warranted for two years of the date of original delivery.
- The following are warranted for one year of the date of original delivery:
 - Textiles
 - Electrical Components
 - Refrigeration Units
 - Custom Products not described in Nucraft's Catalogue

This warranty is applicable only if furniture is properly installed and maintained in an office environment. This warranty extends only to products manufactured and sold in North America and only to original purchasers acquiring new Nucraft product through authorized dealers or approved sellers.

During this warranty period, Nucraft's sole obligation is to repair or replace, at Nucraft's discretion, products which prove to be defective during the warranty period.

This warranty does not cover:

- Damage caused by a carrier.
- Damage from user modification, misuse, abuse, accident, or negligence.
- Customer's Own Material (COM) specified by the customer that is not a standard product offering.
- Color, grain, or texture of wood and other covering material.

Nucraft extends no other warranties, expressed or implied, including warranty of merchantability or fitness for a particular purpose. Nucraft shall not be liable for loss of time, inconvenience, commercial loss, incidental or consequential damages.

Environmental Statement

Nucraft is committed to supporting responsible environmental policies and practices in all that we do. We strive for sustainability, weighing our business decisions against the costs to the ecological, social and economic systems they affect.

Our products are manufactured to meet the credit requirements of the U.S. Green Building Council's LEED rating systems in one or more of the following categories:

- Recycled Content
- Certified Wood
- Low-Emitting Materials

Computer Aided Planning

Nucraft products and pricing are available via CET and 2020 Cap, an AutoCAD®-based space planning tool.

2020 Cap is an integrated software system developed specifically for interior designers and facility planners to enhance workplace performance. This modern suite of applications works together seamlessly, in concert. Navigate catalogs, select products, design in plan view and 3D, assign options, create worksheets and build a project where you want, when you want. Take your pick. It's dynamic and interactive. Design projects are a work in progress. And now you can perform any of the many discrete tasks that go into a project any time, any place.

For additional information, you may contact 2020 Cap direct at 800-227-0038.

Product symbols (Revit, 2D and 3D) are available on the Nucraft website at www.nucraft.com/resources/product-symbols.

iSpec®

Nucraft offers a free online product configuration and specification service that saves you time and allows you to be creative while leaving the nuts and bolts to someone else. No specific software is required, nor is there any learning curve. This service applies to all Nucraft products. For additional information, call 1-877-NUCRAFT and ask for the iSpec Team or log on to www.nucraft.com/resources/ispec.

Surface Materials Palette

We crafted our materials palette using the same demanding standards that distinguish our furniture. Thoughtful design and attention to every detail elevate your possibilities.

Anchored by Nucraft veneers, unrivaled for clarity, quality, and depth of finish, our collection of surface materials comprises a sophisticated set of balanced elements that supports your design vision.

Some elements have their roots in Nucraft's rich heritage. Others are new materials and reflect current trends and taste. Together, they ensure that you're ready for today and positioned well for the future. Beautifully.

Custom Finishes

Nucraft specializes in expert custom finish matching. For a nominal upcharge we can provide custom finishes, and we are frequently asked to match the finishes of other furniture manufacturers. For finishes that appear unusual to match or for customers directly requesting a sample, a finish sample will be sent for approval prior to entering the order.

Custom finishes requiring colored varnishes to create a painted look can only be applied to Maple veneer and require one extra week in addition to the standard lead time. Nucraft's standard black finish (G82) can be applied to all Nucraft standard veneers. Walnut is the standard black veneer. Other species must be specified when ordering.

Clear coat on a special veneer requires an approved sample.

Custom finishes carry a 10% upcharge per item, per finish, capped at \$2,100 List.

Custom finish upcharges are not applied to any item that is not wood. Example: casters, ganging connectors, power options..

Treatments

Note: Default veneer sheen will vary per finish and product. Default finish is bolded on pages vi-vii. If no direction is provided on incoming orders, default sheen will be selected. In addition, default veneer cut is noted in the price list. If no direction is provided on incoming orders, default cut will be selected.

Gloss: Gloss is a durable finish that tends to nicely mask normal wear and leaves wood grain visible to the eye. It achieves a medium gloss open pore appearance (40 – 50 sheen range). Finish numbers preceded by the letter "G" indicate a Gloss finish.

Matte: Like Gloss, Matte is durable, tends to nicely mask normal wear and leaves wood grain visible to the eye. It achieves a low luster, open pore appearance (10 – 20 sheen range). Finish numbers preceded by the letter "M" indicate a Matte finish.

Since each veneer type responds differently to both types of treatment, all will have a distinctive look and feel when finished. For example, a Walnut veneer with a Gloss treatment will remain much more textured than a Cherry veneer with the same treatment.

About the Wood

All Nucraft veneers are carefully selected for uniformity of color and grain. Still, wood is a natural substance and minor variations may occur due to its own uniqueness. Because of this, the furniture you receive may not be an exact match to our samples.

Nucraft takes great pride in our finish color consistency. However, wood is a natural product that will have color variation within a single piece of furniture, as well as from one piece to the next. Other factors also affect color over time, such as exposure to light (both intensity and duration). For example, lighter finishes cause more variation in colors over time.

In cases where a returning customer wants a precise match with existing furniture, we recommend sending a sample of the existing furniture finish. Please contact Nucraft Customer Service to determine an appropriate sample. This will ensure a finish match between old and new orders. This type of order is considered a control sample. There will be a 10% upcharge on an order of this type. Due to natural aging of veneers, natural finishes may vary.

Care and Maintenance of Wood Finishes

Our finish material is a crystal clear, urethane acrylic blend. This type of finish may be repaired in the field by a qualified refinisher.

Nucraft recommends using a damp cloth to clean your fine wood furniture. Always wipe with the grain of the wood. Should your wood furniture require a more thorough cleaning, we recommend using a mild cleaner such as Joy dish soap or Murphy's oil soap, thoroughly diluted in water (one part soap to thirty parts water). Water will not damage Nucraft's finish, but it may leave surface spots when it dries. To avoid this, dry the surface with a soft cloth after it is cleaned. Marks that cannot be removed with the cleaning methods above may be able to be removed using naphtha, a mild degreasing solvent.

Caution: while the use of polishes that contain wax, petroleum solvents or silicones may immediately enhance the "shine" of a product, it may also eventually remove the fine original finish applied in our factory. Silicone on the surface of wood may also make it very difficult to respray or refinish.

All Nucraft furniture is inspected and polished before it leaves our factory. In some instances, the packing materials may imprint on the factory polish. Cleaning and polishing the furniture once it is unpacked will normally restore the furniture to its original beauty.

In some cases, the rubber support feet used on the bottom of common office equipment (teleconferencing phones, laptops, microphones, copiers, etc.) can create unsightly marks in the surface of wood tops, due to oxidation of the lacquer finish. We suggest these machines be placed on a protective type of padding, such as felt.

Wood will fade as a result of exposure to UV light. This is particularly prevalent with light finishes. If color changes due to fading are a concern for your application, the impact can be minimized by selecting medium to dark stains for your wood surfaces. Our top coat includes a UV inhibitor which makes the finishes less prone to fading.

Laminates

Selected Formica®, Nevamar®, and Wilsonart® laminates are available on Training Tables, Conference Tables, Conference Room Furniture and select Occasional Tables. For standard laminate and wood pricing, refer to individual item pricing columns. It is important to note that wood grain laminates are unable to be grain matched over multi-piece table top applications.

Non-Standard Laminates and Linoleums

To order a color other than those on our list (see pages vi-vii), refer to Nevamar or Formica standard grade, matte texture laminate offerings and Forbo Furniture Linoleums (excluding manufacturers' non-standard matte offering).

Nucraft can support other laminate and linoleum options beyond what can be found as standard options on pages vi-viii. For pricing, please send a request to quotes@nucraft.com.

Care and Maintenance of Laminate and Novawrap

Laminate and Novawrap surfaces may be cleaned with a damp cloth and ordinary soap or non-abrasive household liquid detergent. Dry the surface with a clean cloth or soft paper towel to prevent streaks from appearing.

Care and Maintenance of Metal

Metal surfaces can be wiped with a damp cloth and rubbed dry. A mild non-abrasive household liquid detergent can be used if necessary. Regular maintenance of metal components, including tightening of fasteners and light lubrication of moving parts, will extend the life of your furniture.

Satin Etched Glass

Glass color may vary slightly on multi-piece conference table tops over 180" x 60" when satin etched glass is specified due to the iron content and etching process of the glass.

Care and Maintenance of Glass

Clear or frosted glass may be cleaned with commercial glass cleaner. Be sure to use a lint-free cloth if cleaning the frosted side of the glass.

Stone and Solid Surface Material

Despite its reputation for durability, natural stone can easily be broken during handling and/or installation if proper techniques are not followed. In addition, Nucraft is not responsible for the installation of natural stone or solid surface materials on its products. Therefore, installers specifically trained in the installation of these materials must be utilized to ensure a quality installation. Nucraft shall not be liable for any damages incurred during the handling and/or installation of natural stone or solid surface materials on its products.

Care and Maintenance of Granite

Granite surfaces may be cleaned with a damp cloth and ordinary soap or non-abrasive household liquid detergent. Dry the surface with a clean cloth or soft paper towel to prevent streaks from appearing.

Care and Maintenance of Leather

Genuine leather requires very little care. Nucraft recommends that leather be dusted regularly. If a more thorough cleaning is needed, use lukewarm water and a mild, non-abrasive soap. Generate some lather and lightly rub the surface with cheesecloth. Rinse off any soap film with clean water and towel dry. The leather may dry dull. To restore the leather to a normal gloss, rub it with a clean towel. Never use furniture polish, oil, varnish or ammonia. Saddle soap may be used to prevent the leather from becoming brittle or cracked and to maintain the original supple finish.
