[PLANNING GUIDE](#)[MERINO TYPICALS](#)[MERINO PRICING](#)[SMALL MEETING TABLES](#)[POWER AND DATA OPTIONS](#)[GENERAL INFORMATION](#)[FINISH INFORMATION](#)[SURFACE MATERIALS](#)

CREATE A LAYOUT: L-SHAPE CONFIGURATION

There are four primary types of Merino Collection workstation configurations: L-Shape, U-Shape, Freestanding, and T-Shape. The specification process for U-Shape configurations is outlined below with additional detail devoted to components.

L-SHAPE CONFIGURATION

STEP 1. SELECT A CONFIGURATION

It's important to first choose the type of L-shape configuration. The L-shape configuration can consist of a Single Pedestal Desk with a Return (shown to the right) or a Side Credenza with a Run-Off Desk.

STEP 2. SELECT THE DESK

Once you've determined which type of L-Shape configuration will serve as the basis of your Merino Collection workstation, you're ready to specify your first individual component: The Desk.

For the L-Shape configuration with a Single Pedestal Desk (shown to the right) select the worksurface size, support options (a Corner Support **MUST** be specified as one of the options) and the modesty panel option.

For the L-Shape configuration with a Side Credenza and Run-Off Desk, specify the Run-Off Desk size, Support, and Modesty panel.

CREATE A LAYOUT: L-SHAPE CONFIGURATION

STEP 3. SELECT A CREDENZA OR RETURN

You'll next choose a Credenza or Return.

For Single Pedestal Desk applications (shown to the right) you'll next choose a return. The return connects to the Single Pedestal Desk. You'll need to specify the support(s) for the other side of the return and the appropriate size Access Panel. The support(s) and Access Panel should fill the space below the Return.

For Run-Off Desk applications you'll select a side credenza. Specify the desired size worksurface, the supports for each end of the Credenza and an Access Panel. The support(s) and Access Panel should fill the space below the Credenza worksurface. A corner support must be selected to support the end of the Credenza where the Run-Off Desk will be located.

STEP 4. SELECT THE OVERHEAD UNIT (OPTIONAL)

Merino Collection offers wall-mounted Overhead units only.

The Overhead mounts above the Side Credenza or Single Pedestal Desk and Return Combination (shown to the right). The length must be equal-length to the surface combination below.

Tackboard length must be equal to overhead length.

STEP 5. SELECT TOWERS (OPTIONAL)

Available in two heights and multiple widths Merino Towers offer additional storage options.

STEP 6. SELECT TABLES, ADDITIONAL STORAGE, AND ACCESSORIES

Complete the office layout with X-base meeting tables, Mobile Pedestals, Bookcases, Freestanding Lateral Files, and other accessories.

CREATE A LAYOUT: U-SHAPE CONFIGURATION

There are four primary types of Merino Collection workstation configurations: L-Shape, U-Shape, Freestanding, and T-Shape. The specification process for U-Shape configurations is outlined below with additional detail devoted to components.

U-SHAPE CONFIGURATION

STEP 1. SELECT A CONFIGURATION

It's important to first choose the type of U-shape configuration that will best suit the end user's requirements: Side U-shape or Back U-shape.

The Side U-shape configuration consists of a Side Credenza, Run-Off Desk, and Run-Off Back Credenza.

The Back U-shape configuration consists of a Single Pedestal Desk, Bridge, and Back Credenza (shown to the right).

STEP 2. SELECT THE DESK

Once you've determined which type of L-Shape configuration will serve as the basis of your Merino Collection workstation, you're ready to specify your first individual component: The Desk.

For the L-Shape configuration with a Single Pedestal Desk (shown to the right) select the worksurface size, support options (a Corner Support **MUST** be specified as one of the options) and the modesty panel option.

For the L-Shape configuration with a Side Credenza and Run-Off Desk, specify the Run-Off Desk size, Support, and Modesty panel.

STEP 3. SELECT THE BRIDGE OR RUN-OFF CREDENZA

Next you can specify a Bridge or Side Credenza, depending on which type of U-Shape configuration you've selected.

For the side U-shape configuration you'll specify the Run-Off Back credenza next, which is supported on one end by the side Credenza. Select the worksurface size, the support(s) for the unsupported end and an Access Panel. The support(s) and Access Panel should fill the space below the credenza worksurface.

For the back U-shape configuration (shown to the right) you'll next specify a Bridge. The Bridge is positioned between the Single Pedestal Desk and Back Credenza. Specify Bridge size and Access Panel for under the Bridge. The size of the Access Panel **Must** match the size of the Bridge.

CREATE A LAYOUT: U-SHAPE CONFIGURATION

STEP 4. SELECT THE FINAL CREDENZA

Next you can specify a Side Credenza or Back Credenza, depending on which type of U-Shape configuration you've selected.

The side U-shape configuration features a Side Credenza, which supports one end of the Run-Off Desk and Run-Off Back Credenza.

The back U-shape configuration features a Back Credenza, which supports one end of the Bridge (shown above).

For both, choose the desired size worksurface, the supports for each end of the Credenza and an Access Panel. The support(s) and Access Panel should fill the space below the Credenza worksurface. A corner support must be selected to support the end(s) of the Credenza that will support the Run-Off Desk, Run-Off Back Credenza, or Bridge.

STEP 5. SELECT THE OVERHEAD UNIT

Merino Collection offers wall-mounted Overhead units only.

The Overhead mounts above the Side Credenza or Back Credenza. The length must be equal-length to the surface combination below.

Tackboard length must be equal to overhead length.

STEP 6. SELECT TOWERS (OPTIONAL)

Available in two heights and multiple widths Merino Towers offer additional storage options.

STEP 7. SELECT TABLES, ADDITIONAL STORAGE, AND ACCESSORIES

Complete the office layout with X-base meeting tables, Mobile Pedestals, Bookcases, Freestanding Lateral Files, and other accessories.

CREATE A LAYOUT: FREESTANDING CONFIGURATION

There are four primary types of Merino Collection workstation configurations: L-Shape, U-Shape, Freestanding, and T-Shape. The specification process for Freestanding configurations is outlined below with additional detail devoted to components.

FREESTANDING CONFIGURATION

STEP 1. SELECT A CONFIGURATION

It's important to first choose the type of Freestanding configuration that will best suit the end user's requirements.

A Freestanding configuration consists of a Freestanding Desk, Freestanding Credenza, and an optional Overhead Unit and Tower.

Merino offers both a Freestanding and an Ellipse Table Desk option.

STEP 2. SELECT THE DESK

Once you've determined which type of Freestanding configuration will serve as the basis of your Merino Collection workstation, you're ready to specify your first individual component: The Desk.

Freestanding Desks provide a range of sizes and options and allow features to be optioned on to the base model, including a Leather Power Blotter, Mitered Signature Organizer Drawer and Polished Chrome legs.

The Ellipse x-base table desk (specified in the Table Section) provides an elegant alternative to the rectangular freestanding desk.

STEP 3. SELECT THE CREDENZA

Next you can specify a Freestanding Credenza.

The Freestanding Credenza includes the top, individual storage components and an Access Panel.

Choose the desired size worksurface, the supports for each end of the Credenza and an Access Panel. The support(s) and Access Panel should fill the space below the Credenza worksurface.

CREATE A LAYOUT: FREESTANDING CONFIGURATION

STEP 4. SELECT THE OVERHEAD UNIT (OPTIONAL)

Merino Collection offers wall-mounted Overhead units only.

The Overhead mounts above the Freestanding Credenza. The length must be equal-length to the Credenza surface below.

Tackboard length must be equal to overhead length. Desk, Run-Off Back Credenza, or Bridge.

STEP 5. SELECT THE TOWERS (OPTIONAL)

Available in two heights and multiple widths Merino Towers offer additional storage options.

STEP 6. SELECT TABLES, ADDITIONAL STORAGE, AND ACCESSORIES

Complete the office layout with X-base meeting tables, Mobile Pedestals, Bookcases, Freestanding Lateral Files, and other accessories.

CREATE A LAYOUT: T-SHAPE CONFIGURATION

There are four primary types of Merino Collection workstation configurations: L-Shape, U-Shape, Freestanding, and T-Shape. The specification process for T-Shape configurations is outlined below with additional detail devoted to components.

T-SHAPE CONFIGURATION

STEP 1. SELECT A CONFIGURATION

It's important to first choose the type of T-Shape configuration that will best suit the end user's requirements. Consider where the run-off worksurface should be placed and orientation of the user, this will be required to determine credenza support components in step 3.

A T-Shape configuration consists of a Side Credenza with a Run-Off Desk.

STEP 2. SELECT THE DESK

Once you've determined the general orientation of your T-Shape Configuration you're ready to select the desk.

The T-Shape application utilizes a Run-Off Desk, specify the Run-Off Desk size, Support, and Modesty panel.

CREATE A LAYOUT: T-SHAPE CONFIGURATION

STEP 3. SELECT THE CREDENZA SHELF

Next you can specify a Side Credenza.

The Side Credenza includes the top, individual storage components and an Access Panel.

Choose the desired size worksurface, the supports for each end of the Credenza and an Access Panel. The support(s) and Access Panel should fill the space below the Credenza worksurface. A minimum of 36" knee space is required for attaching the Run-Off Desk in a T-Shape orientation.

STEP 4. SELECT THE OVERHEAD UNIT (OPTIONAL)

Merino Collection offers wall-mounted Overhead units only.

The Overhead mounts above the Side Credenza. The length must be equal-length to the surface below.

Tackboard length must be equal to overhead length.

STEP 5. SELECT TOWERS (OPTIONAL)

Available in two heights and multiple widths Merino Towers offer additional storage options.

STEP 6. SELECT TABLES, ADDITIONAL STORAGE, AND ACCESSORIES

Complete the office layout with X-base meeting tables, Mobile Pedestals, Bookcases, Freestanding Lateral Files, and other accessories.

TECHNOLOGY ACCOMMODATION

Merino provides well-planned wire-management for each component. Its standard technology accommodation offering meets most needs, and additional, scalable options are available to support even the most technology-intensive environments.

1 WORK SURFACE GROMMETS.

Grommets can be specified on the worksurfaces of desks, credenzas, bridges, and returns. Grommets can be specified in right, left, or center positions of desks, credenzas and returns, and in center position on bridges.

2 J-CHANNEL.

J-Channel provides wire management beneath Merino worksurfaces.

OPTIONAL TECHNOLOGY ACCOMMODATIONS

Technology Pedestal with Power Drawer and Door.

Wire management openings are located in the bottom of all pedestals. Opening on back of pedestal on credenzas and returns provides proper ventilation. Tech Pedestals on desks have oversized opening on user's side that allows wire management in addition to ventilation.

Wire Management Shroud.

Metal Bevel Legs with half-high modesty include a wire management shroud that attaches to the inside of the leg to manage cables down the leg to the floor. Finish of the shroud will match the finish of the leg.

TECHNOLOGY ACCOMMODATION

- 3 WIRE MANAGEMENT CAVITY.**
The cavity behind Merino Overheads and corresponding credenzas, returns and bridges allows simple wire management.
- 4 ACCESS PANELS.**
Optional flip-down wire management Access Panel is available on back credenzas, returns, and bridges.
- 5 LEATHER POWER BLOTTER.**
Optional on Veneer Tops, the Leather Power Blotter slides back to reveal a Power Access trough that includes 3 simplex receptacles and 1 USB-A+C.

TECHNOLOGY ACCOMMODATION

TECH PEDESTAL WITH POWER DRAWER AND DOOR

The Tech Pedestal provides CPU storage on one side of a moveable dividing panel, and an open section on the other side for cord/cable storage. The top drawer includes three simplex receptacles and one USB-A+C port. Grommet at the top allows easy wire management. Thermostatically controlled fan provides temperature regulation. Tech Pedestals on desks have oversized opening on user's side that allows wire management in addition to ventilation.

Note: Image to the right is for reference only, overall Pedestal dimensions are for Credenza Pedestal.

PRINTER PEDESTAL

The Printer Pedestal accommodates most inkjet printers. The pedestal's side opening provides access to printed documents without the need to open the pedestal drawer. Grommet in top and side of pedestal provides easy wire management.

Consult Printer Pedestal dimension information to ensure that the pedestal will accommodate your printer.

Printer Tray Dimensions: 15" wide x 19" deep x 16.1875" high

Note: Image to the right is for reference only, overall Pedestal dimensions are for Credenza Pedestal.

Front Elevation

LAPTOP/PRINTER PEDESTAL

The Laptop/Printer Pedestal provides laptop storage in the top drawer and accommodates most inkjet printers in the lower drawer. The laptop drawer provides convenient storage and concealment of your laptop, freeing up valuable worksurface space. The pedestal's side opening provides access to printed documents without the need to open the pedestal drawer. Grommet in top and side of pedestal provides easy wire management. Thermostatically controlled fan provides temperature regulation.

Consult Printer Pedestal dimension information to ensure that the pedestal will accommodate your printer.

Printer Tray Dimensions: 15" wide x 19" deep x 12.125" high

Note: Image to the right is for reference only, overall Pedestal dimensions are for Credenza Pedestal.

PERSONALIZED FEATURES

The Merino Collection offers elements of personalization and refined details that elevate the warmth and performance of an executive casegood.

LEATHER POWER BLOTTER

The Merino Leather Power Blotter is integrated directly into the worksurface and slides back to reveal power and data access and cable management. The Leather Power Blotter is only available on wood worksurfaces. Power Access trough includes 3 simplex receptacles and 1 USB-A+C. The blotter is 28" w x 21" d on a 30" deep worksurface and 28" w x 23" d on a 36" deep worksurface. Note: Image to the right is for reference only, overall Pedestal dimensions are for Credenza Pedestal.

SIGNATURE ORGANIZER DRAWER

The Merino Signature Organizer Drawer features a mitered edge construction and is leather-lined with polished chrome dividers. The organizer drawer provides an elegant place for neatly organizing personal items and technology devices.

Overall dimensions are 36" w x 15" d x 1 7/8" h

ORGANIZER DRAWER

The Merino Organizer Drawer is leather-lined. The Organizer Drawer provides an elegant place for neatly organizing personal items and technology devices. The Organizer drawer is suitable for installation below desk work surfaces 30" deep or greater and can be added to Merino worksurfaces in the field.

Overall dimensions are 18" w x 15" d x 1 7/8" h

LEATHER-LINED BOX DRAWERS

Merino Box Drawers are leather lined and provide a neat way to organize and protect personal items and technology devices. All Merino Series Box Drawers include the leather liner (leather can be optioned off). The Top Box Drawer will also include a polished chrome divider and painted pencil tray.

LATERAL FILE WITH ORGANIZER BOXES

A Lateral File with Organizer Boxes provides a space to organize and store personal accessories.

SLIDE-OUT SHOE TRAY

Merino 18" and 36" Wardrobe towers include a slide out shoe tray and amenities like bag hooks, personal mirror, and hanger bar to provide a home for personal bags or a change of wardrobe.

ADJUSTABLE HEIGHT DESKS

The electronic Adjustable Height Merino desk is available in two standard base styles; a desk shell and a metal leg version. Both versions are Freestanding desks and can be integrated into other product configurations through the Nucraft iSpec service. The Metal Leg version is also available as a Run-Off desk for T-Shaped applications.

FREESTANDING ADJUSTABLE HEIGHT DESK SHELL

This rectangular desk shell features two panel legs and an inset full-height front modesty panel. The lift columns attach to the desk shell and are shrouded on the interior with veneer panels. When in the raised position, the modesty panel maintains the clean, integrated aesthetic.

- Adjustment range is from 29-1/2" to 45"
- Controller features digital height readout and four programmable stops
- See page 36 for available sizes and specification requirements
- Lift mechanisms are designed to support all desk components, plus a maximum of 100lbs of additional weight

FREESTANDING ADJUSTABLE HEIGHT DESK

This rectangular worksurface features a T-leg metal base and an optional half-height modesty.

- Adjustment range is from 27-1/2" to 46"
- Controller features digital height readout and four programmable stops
- See page 38 for available sizes and specification requirements
- Lift mechanisms are designed to support all desk components, plus a maximum of 100lbs of additional weight

PROGRAMMABLE CONTROLLER

The programmable controller features up/down buttons, four programmable preset stops, and a digital readout that displays the worksurface height.

FREESTANDING PEDESTAL

Optional box/ file storage pedestal that fits perfectly within the panel support, pedestal includes pencil tray.

WORK SURFACE POWER OPTIONS

GROMMET

- Grommet is 2" diameter
- Available in Powder coat, Clear Anodized and Polished Chrome (upcharge applies)
- Height adjustable Bridges, Returns, and Credenzas are available with center grommet location only
- Grommets are included as an option within each work surface
- Grommets may not be placed directly over the end panel of a support pedestal below
- Only one Grommet or Spec may be specified per work surface
- End Grommets are not available on Run-Off Work Surfaces adjacent to a Side Credenza

Freestanding, Single Pedestal and Run-Off Desk

Height Adjustable Desk

POWER SPEC AND USB SPEC

This compact unit allows for the addition of power or data to a work surface in a discreet way. Available in round or square shapes, and multiple finish options.

- Power or USB Spec is a work surface accessory, specified in addition to the work surface.
- Only one Grommet or Spec may be specified per work surface
- Power or USB Spec may not be placed directly over the end panel of a support pedestal below
- Grommet, Power or USB Spec may not be specified in conjunction with Power Blotter

Run-Off Return / Credenza

(Work surfaces 42"-wide to 54"-wide have only one center grommet)

Bridge

Power Spec

- Spill-proof power simplex
- Compact design
- 1-3/4" cutout for installation
- UL Listed

Power Spec

USB Spec

- Used to charge devices or transfer data
- Compact design
- Offered with USB-A+C
- 1-3/4" cutout

GENERAL INFORMATION

- Grain direction runs horizontal
- Specify left to right support and outfit every inch of space with either pedestals or a combination of pedestals, end support, back panels, or no back panels
- 60"-wide work surface not available with center grommet when there is a 30"-wide support
- 72"-wide work surface not available with center grommet when the widths of the support pedestals equal 36"
- Pedestals and lateral files are standard with a lock
- Pedestal includes Integrated Pull
- Merino Series Box/Box/File pedestals include a pencil tray in upper box drawers
- Merino Series Pedestals have painted drawer boxes, undermount slides, low-profile hanger rails, and soft-close feature.
- Merino Series Box Drawers are leather lined and include polished dividers. Leather finish MUST be specified. Leather can be optioned off by specifying -NLBD option.
- Power Drawer includes 3 Simplex and 1 USB-A+C port (Data transfer) with a 15 Amp plug and a 72" cord
- Printer Pedestal and Laptop/Printer Pedestal must be located adjacent to knee space
- Power in Box Drawer option is only available on Merino Series upper box drawers on 18" wide pedestals only; Power option has 3 simplex receptacles and 1 USB-A+C port
- Wire Management is included
- Doors are standard with a Touch Latch Mechanism and cannot be specified with other pull options.
- Work surface power available on page 69
- Power Spec or USB Spec not available in individual work surfaces if Grommet option is selected
- Grommets and Power Specs are not available on work surfaces below an overhead due to wire management channel

-PD

GENERAL INFORMATION

- Grain direction runs horizontal
- Specify left to right support and outfit every inch of space with either pedestals or a combination of pedestals, end support, back panels, or no back panels
- Pedestals and lateral files are standard with a lock
- 60"-wide work surface not available with center grommet when there is a 30"-wide support
- 72"-wide work surface not available with center grommet when the widths of the support pedestals equal 36"
- Pedestal includes Integrated Pull
- Merino Series Box/Box/File pedestals include a pencil tray in upper box drawers
- Merino Series Pedestals have painted drawer boxes, undermount slides, low-profile hanger rails, and soft-close feature.
- Merino Series Box Drawers are leather lined and include polished dividers. Leather finish MUST be specified. Leather can be optioned off by specifying -NLBD option.
- Power Drawer includes 3 Simplex and 1 USB-A+C port (Data transfer) with a 15 Amp plug and a 72" cord
- Printer Pedestal and Laptop/Printer Pedestal must be located adjacent to knee space
- Power in Box Drawer option is only available on Merino Series upper box drawers on 18" wide pedestals only; Power option has 3 simplex receptacles and 1 USB-A+C port
- Wire Management is included
- Doors are standard with a Touch Latch Mechanism and cannot be specified with other pull options.
- Work surface power available on page 69
- Power Spec or USB Spec not available in individual work surfaces if Grommet option is selected
- Grommets and Power Specs are not available on work surfaces below an overhead due to wire management channel

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose Veneer Finish
- Choose Metal Finish, if applicable
- Choose Paint Color, if applicable
- Choose Leather Finish, if applicable. Choose Spinneybeck Vincenza or Spinneybeck Volo colors from pages viii-ix. If no selection is made, the default choice will be Spinneybeck Vincenza Cinque Terre 2122.
- Choose Polyurethane Finish, if applicable. Choose UltraFabrics Brisa colors from pages vii-ix.

Integrated Pull

OPTIONS

OPTIONS	CODE	PRICE	NOTES
No Task Light	NT	DEDUCT \$664	Only allowed with Full Door Overheads
Satin Glass Options:			
Satin Glass on Single Height Overheads	-SGS	\$528	
Satin Glass on Double Height Overheads	-SGD	\$704	

GENERAL INFORMATION

- Grain Direction is Horizontal
- Overheads with Full Doors include recessed LED task light; can be removed as an option
- Task lights can dim
- Aluminum Shelf depth is 12-11/16"; Aluminum Shelf is Clear Anodized (CA)
- Overhead depth is 17-1/4" or 19-1/4"; interior depth is 13-1/2" or 15-1/2"
- Overhead full height doors - single high = 16 - 3/4"; double high = 26 1/4"
- Glass overhead doors are frameless back-painted glass; glass is tempered
- Back-painted glass is low-iron glass
- Wall-Mounted Overheads are shipped with the necessary cleats for wall mounting. The hardware that attaches the cleats to the wall is not included.
- Customers are responsible for ensuring that the structural wall has adequate strength to support the overhead and its components.
- The recommended installation height for wall-mounted Single Height-70" Height Overheads is 23 - 3/4" from the top of the worksurface to the bottom of the overhead unit
- The recommended installation height for wall-mounted Double Height - 80" Height Overheads is 21-1/2' from the top of the worksurface to the bottom of the overhead unit
- Single height wall-mounted overheads can also be mounted at the 80" height to create a large tack area for monitors; for this application recommended installation height is 33-3/4" from the top of the worksurface to the bottom of the overhead unit
- Doors are standard with a Touch Latch Mechanism and cannot be specified with other pull options
- Door handling on full door overheads is optimized for ease of access to contents.
 - On 72" the two left doors open to the left and the two right doors open to the right.
 - On 96" overheads the three doors on the left open to the left and the two doors on the right open to the right.
 - On 108" overheads the first two doors on the left open left, the middle left door opens right, the middle right door opens left, and the two right doors open right.

WALL-MOUNTED TACKBOARDS

GENERAL INFORMATION

- For Use with Wall-Mounted overheads only
- Fabric Tackboard or Glass Magnetic Board must equal the length of the corresponding overhead
- Fabric Tackboards 102" and greater will have an even split two piece construction
- Glass Magnetic boards 102" and greater will have an even split two piece construction
- Glass Magnetic boards are only available in gloss finish options
- Back-painted glass is low-iron glass
- Magnets are included with Glass Magnetic Boards
- 21" High Tackboard, or Glass Magnetic Board should be specified for a Double Height Overhead mounted at 80" height
- 23" High Tackboard, or Glass Magnetic Board should be specified for a Single Height Overhead mounted at 70" height
- 33" High Tackboard, or Glass Magnetic Board should be specified for a Single Height Overhead mounted at 80" height
- See page ix for Fabric restrictions

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

Pedestal Options:

No Lateral File Lock	-NL	No Charge
No Leather in Box Drawer	-NLBD	DEDUCT \$334 Per Pedestal

GENERAL INFORMATION

- Grain direction runs horizontal
- Lateral files and mobile pedestal are standard with a lock
- Pedestal includes Integrated Pull
- Face locking standard, locks are always located on the right
- Merino Series Lateral Files have painted drawer boxes, sidemount slides, low profile hanger rails, and a soft close feature
- Recessed casters are standard on Mobile Pedestal
- Merino Series Pedestals have painted drawer boxes, undermount slides, low-profile hanger rails, and soft-close feature
- Merino Series Box Drawers are leather lined and include polished dividers. Leather finish **MUST** be specified. Leather can be optioned off by specifying -NLBD option.

REQUIRED INFORMATION (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

See appendix pages vi-vii for surface material options.

- Choose Veneer Finish, if applicable
- Choose Metal Finish, if applicable
- Choose Paint Finish, if applicable
- Choose Pull option for Pedestals: Integrated Pull (-MIP or -WIP) or Metal Pull (-MP)
- Choose Leather Finish, if applicable. Choose Spinneybeck Vincenza or Spinneybeck Volo colors from pages viii-ix. If no selection is made, the default choice will be Spinneybeck Vincenza Cinque Terre 2122.
- Choose Polyurethane Finish, if applicable. Choose UltraFabrics Brisa colors from pages vii-ix.

GENERAL INFORMATION

- Base is Polished Stainless Steel
- When a painted shroud is selected for the table base and the top material is glass or stone, the subtop will default to match the painted shroud
- When a veneer shroud is selected with a glass top, the subtop will be painted to match the glass
- If a veneer shroud is selected for the table base and the top material is a Nucraft standard stone, the subtop will depend on the stone selection: For Absolute Black, Quartz Raven, or Quartz Concrete, the subtop will be painted Galaxy (S8006). For Bianco Carrara, Quartz Blizzard, or Quartz Pure White Stone, the subtop will be painted Cloud (S8004). For Quartz Linen, the subtop will be painted Burnished (S88).
- When Grommet is selected on Round or Square tables, the Grommet is located in the middle of the table
- Power Dot option includes 72" power cord
- Power Dot finish is Satin Nickel
- PDOT2 includes one open data port. Voice/data modules must be ordered separately, contact your local AV integrator.
- Power Dot is centered on Round and Square tables.
- When specifying Power Dot on Ellipse Meeting tables, a location code must be specified
- Round, Square and Soft Triangle Meeting tables can only accommodate one Power Dot or one Grommet
- Power Spec and USB Spec not available as standard on Merino meeting tables

- Choose Veneer Finish, if -VP, -VV, -GV or -SV base is selected
 - Choose Glass Finish, if -GP or -GV base is selected (Satin Glass upcharges apply, see options above)
 - Choose Metal Finish, if grommet (-MCGC) is selected
 - Choose Paint Color, if -VP, -GP or -SP base is selected

Appendix

GENERAL INFORMATION

This price book supercedes all previous versions.

Before placing your order, confirm you have all required information necessary. Lead times for orders begin after all required information is included and correct.

Delivery Information

We know lead times are important and sticking to them even more so. We work to maintain a 6-8 week lead time on all standard products in this book from receipt of a clean order. All orders are acknowledged with an approximate shipping date and will be invoiced with the price in effect at the date the purchase order is received.

Shipping charges are prepaid (within the continental U.S.). Therefore, pricing is a delivered price based on normal ground transportation. If you have special instructions, need to ship by air, or are shipping to Alaska or Hawaii, contact Nucraft Customer Service. Nucraft can also help arrange to have products blanket wrapped for an additional charge. Contact the Nucraft Customer Service team or specify it on your purchase order.

Minimum Freight Charge: Any order below \$2,800 net will be assessed a \$450 net minimum freight charge (one per order).

Orders are subject to acquiring the materials required for manufacturing. Fulfillment can be affected by strikes, fires, embargoes and acts of government. These elements are beyond our control.

Nucraft offers a variety of services to accommodate a wide range of delivery requirements. Availability of these services is dependent on a number of factors and may not be offered with all shipments. Examples of delivery services that have additional fees include:

- Specific date within our standard 3-5 day delivery window (for orders under \$50,000 net)
- Specific time of day, morning or afternoon (for orders under \$50,000 net)
- Delivery to a warehouse before delivery to its final destination (unless product is picked up at the warehouse)

Contact the Nucraft Customer Service team for availability and pricing on these services.

Freight Terms

Shipping charges for Nucraft products are prepaid for standard delivery in the continental United States. Standard delivery is defined as follows: Product is delivered on a 53' trailer being pulled by a long-haul tractor (total length of 85'). Facility will receive delivery Monday through Friday between the hours of 8:00 AM and 4:00 PM. Facility has docks with levelers and a fork truck for unloading. Product will be loaded on load bars two levels high. Receiving facility is responsible to have personnel on hand to unload the truck upon arrival, drivers do not unload. Delivery sites or times that do not meet this criteria will be accommodated, but will typically incur a charge to cover additional shipping costs. Please notify Nucraft in advance of the shipment if this is the case and the additional charge (if any) will be determined by Nucraft.

Product ships FOB dock. The customer obtains title to their product and materials, and assumes the risk of loss for them, upon shipment from Nucraft's facilities.

Storage

Nucraft has no storage facilities for finished product. If a customer cannot accept an order when it is ready for shipment, the customer must designate an alternative shipping address. If no address is provided, Nucraft may, at its discretion, transfer the product to storage. If product is transferred to an off-site storage facility, the customer may be charged for transportation to the facility and for any associated storage fees. Nucraft considers transfer of the product to a storage facility the equivalent of shipment, including invoicing and payment. Customers assume the risk of damage or loss during storage.

Transportation Times and Delays

Third party carriers that Nucraft contracts with will make reasonable efforts to accommodate requested delivery times and dates. Scheduled delivery appointments may, however, be delayed for a variety of reasons, including inclement weather, traffic, transportation equipment problems, and delays encountered at other delivery locations along the delivery route. Nucraft does not recommend scheduling activities that depend on the delivery appointment (for example, scheduling furniture installers to install furniture the day of the delivery appointment). Nucraft shall not be liable for any costs incurred as a result of a missed delivery appointment.

Shipment Damage Claims

Legal title to merchandise passes to the buyer upon acceptance by the carrier. **Inspect all cartons upon delivery.** Details of visible damage should be noted on the delivery receipt. Do not install product if damage is found upon inspection. The carrier should be notified by the buyer to inspect the merchandise, and file a claim immediately. If visible damage is not apparent, sign the delivery receipt "No visible damage." This will allow recourse for a concealed damage claim. Although most claims for transportation damages must be filed against the carrier within nine months of the date of delivery, concealed damage claims must be filed within 15 days of receipt.

Do not destroy packing materials until shipment has been inspected. Then proceed to file a claim with the carrier.

Failure to make any claims against Nucraft within 10 days shall constitute acceptance of the merchandise and a waiver of any defects, errors or shortages discovered upon inspection.

Cancellations

Cancellations must be reviewed by our Customer Service team. Because we build your products to order, orders cannot be cancelled once processing has begun. Processing includes but is not limited to development of shop drawings and other engineering drawings. If cancellation is approved, a processing fee of 20-100% will be assessed based on the status of the order.

Change Order Policy

Nucraft will make every attempt to honor any reasonable change request to product provided that the request is received prior to start of production. Change orders will be accepted only if the request is made in writing and received in time to make the change. Nucraft reserves the right to increase our acknowledged price and ship date if necessary to make the requested changes. Please submit any change order request to our Customer Service team. Nucraft will assess charges to the customer as stipulated in the following:

- Standard Orders: Change orders received prior to production will be charged \$400 net to cover administrative costs.
- Special Orders: Change orders received prior to production will be charged \$400 net to cover administrative costs. There may be additional costs associated with engineering labor required for the change order.
- Change orders received after production must be evaluated by Nucraft. If approved, the charge will be \$400 net plus any restocking charges accumulated. There may be additional costs associated with engineering and/or manufacturing labor, as well as material costs, required for the change order.

GENERAL INFORMATION

Repair Authorization

Prior written approval is required for repairs of merchandise charged to Nucraft. Failure to do so will result in customer funded repairs.

Payment Terms

Deposits are required at the time of order due to the custom nature of our products. See information regarding Cancellations above.

Credit terms are available to qualified customers. Please contact AR@Nucraft.com to start the application process. Note that the credit application process requires a valid sales tax exemption or resale tax certificate, Form W-9, and three current trade references.

Credit Card Payments are accepted via web portal. Please contact AR@Nucraft.com for payment instructions. Note that a 2% convenience fee will be added for using this payment method and no early pay discounts are allowed on credit card payments.

Warranty

Nucraft Furniture is warranted to be free from defects in materials and workmanship for a period of ten years of single shift use. Limitations include:

- Mechanical Devices such as latches, casters, and other moving components are warranted for five years of the date of original delivery.
- Height adjustable components are warranted for two years of the date of original delivery.
- The following are warranted for one year of the date of original delivery:
 - Textiles
 - Electrical Components
 - Refrigeration Units
 - Custom Products not described in Nucraft's Catalogue

This warranty is applicable only if furniture is properly installed and maintained in an office environment. This warranty extends only to products manufactured and sold in North America and only to original purchasers acquiring new Nucraft product through authorized dealers or approved sellers.

During this warranty period, Nucraft's sole obligation is to repair or replace, at Nucraft's discretion, products which prove to be defective during the warranty period.

This warranty does not cover:

- Damage caused by a carrier.
- Damage from user modification, misuse, abuse, accident, or negligence.
- Customer's Own Material (COM) specified by the customer that is not a standard product offering.
- Color, grain, or texture of wood and other covering material.

Nucraft extends no other warranties, expressed or implied, including warranty of merchantability or fitness for a particular purpose. Nucraft shall not be liable for loss of time, inconvenience, commercial loss, incidental or consequential damages.

Environmental Statement

Nucraft is committed to supporting responsible environmental policies and practices in all that we do. We strive for sustainability, weighing our business decisions against the costs to the ecological, social and economic systems they affect.

Our products are manufactured to meet the credit requirements of the U.S. Green Building Council's LEED rating systems in one or more of the following categories:

- Recycled Content
- Certified Wood
- Low-Emitting Materials

Computer Aided Planning

Nucraft products and pricing are available on CD via 2020 Cap, an AutoCAD®-based space planning tool.

2020 Cap is an integrated software system developed specifically for interior designers and facility planners to enhance workplace performance. This modern suite of applications works together seamlessly, in concert. Navigate catalogs, select products, design in plan view and 3D, assign options, create worksheets and build a project where you want, when you want. Take your pick. It's dynamic and interactive. Design projects are a work in progress. And now you can perform any of the many discrete tasks that go into a project any time, any place.

For additional information, you may contact 2020 Cap direct at 800-227-0038.

iSpec®

Nucraft offers a free online product configuration and specification service that saves you time and allows you to be creative while leaving the nuts and bolts to someone else. No specific software is required, nor is there any learning curve. This service applies to all Nucraft products. For additional information, call 1-877-NUCRAFT and ask for the iSpec Team or log on to www.nucraft.com/ispec.

FINISH INFORMATION

Surface Materials Palette

We crafted our materials palette using the same demanding standards that distinguish our furniture. Thoughtful design and attention to every detail elevate your possibilities.

Anchored by Nucraft veneers, unrivaled for clarity, quality, and depth of finish, our collection of surface materials comprises a sophisticated set of balanced elements that supports your design vision.

Some elements have their roots in Nucraft's rich heritage. Others are new materials and reflect current trends and taste. Together, they ensure that you're ready for today and positioned well for the future. Beautifully.

Custom Finishes

Nucraft specializes in expert custom finish matching. For a nominal upcharge we can provide custom finishes, and we are frequently asked to match the finishes of other furniture manufacturers. For finishes that appear unusual to match or for customers directly requesting a sample, a finish sample will be sent for approval prior to entering the order.

Custom finishes requiring colored varnishes to create a painted look can only be applied to Maple veneer and require one extra week in addition to the standard lead time. Nucraft's standard black finish (G82) can be applied to all Nucraft standard veneers. Walnut is the standard black veneer. Other species must be specified when ordering.

Clear coat on a special veneer requires an approved sample.

Custom finishes carry a 10% upcharge per item, per finish, capped at \$1,975 List.

Custom finish upcharges are not applied to any item that is not wood. Example: casters, ganging connectors, power options..

Treatments

Note: Default veneer sheen will vary per finish and product. Default finish is bolded on pages vi-vii. If no direction is provided on incoming orders, default sheen will be selected. In addition, default veneer cut is noted in the price list. If no direction is provided on incoming orders, default cut will be selected.

Gloss: Gloss is a durable finish that tends to nicely mask normal wear and leaves wood grain visible to the eye. It achieves a medium gloss open pore appearance (40 – 50 sheen range). Finish numbers preceded by the letter "G" indicate a Gloss finish.

Matte: Like Gloss, Matte is durable, tends to nicely mask normal wear and leaves wood grain visible to the eye. It achieves a low luster, open pore appearance (10 – 20 sheen range). Finish numbers preceded by the letter "M" indicate a Matte finish.

Since each veneer type responds differently to both types of treatment, all will have a distinctive look and feel when finished. For example, a Walnut veneer with a Gloss treatment will remain much more textured than a Cherry veneer with the same treatment.

About the Wood

All Nucraft veneers are carefully selected for uniformity of color and grain. Still, wood is a natural substance and minor variations may occur due to its own uniqueness. Because of this, the furniture you receive may not be an exact match to our samples.

Nucraft takes great pride in our finish color consistency. However, wood is a natural product that will have color variation within a single piece of furniture, as well as from one piece to the next. Other factors also affect color over time, such as exposure to light (both intensity and duration). For example, lighter finishes cause more variation in colors over time.

In cases where a returning customer wants a precise match with existing furniture, we recommend sending a sample of the existing furniture finish. Please contact Nucraft Customer Service to determine an appropriate sample. This will ensure a finish match between old and new orders. This type of order is considered a control sample. There will be a 10% upcharge on an order of this type. Due to natural aging of veneers, natural finishes may vary.

Care and Maintenance of Wood Finishes

Our finish material is a crystal clear, urethane acrylic blend. This type of finish may be repaired in the field by a qualified refinisher.

Nucraft recommends using a damp cloth to clean your fine wood furniture. Always wipe with the grain of the wood. Should your wood furniture require a more thorough cleaning, we recommend using a mild cleaner such as Joy dish soap or Murphy's oil soap, thoroughly diluted in water (one part soap to thirty parts water). Water will not damage Nucraft's finish, but it may leave surface spots when it dries. To avoid this, dry the surface with a soft cloth after it is cleaned. Marks that cannot be removed with the cleaning methods above may be able to be removed using naphtha, a mild degreasing solvent.

Caution: while the use of polishes that contain wax, petroleum solvents or silicones may immediately enhance the "shine" of a product, it may also eventually remove the fine original finish applied in our factory. Silicone on the surface of wood may also make it very difficult to respray or refinish.

All Nucraft furniture is inspected and polished before it leaves our factory. In some instances, the packing materials may imprint on the factory polish. Cleaning and polishing the furniture once it is unpacked will normally restore the furniture to its original beauty.

In some cases, the rubber support feet used on the bottom of common office equipment (teleconferencing phones, laptops, microphones, copiers, etc.) can create unsightly marks in the surface of wood tops, due to oxidation of the lacquer finish. We suggest these machines be placed on a protective type of padding, such as felt.

Wood will fade as a result of exposure to UV light. This is particularly prevalent with light finishes. If color changes due to fading are a concern for your application, the impact can be minimized by selecting medium to dark stains for your wood surfaces. Our top coat includes a UV inhibitor which makes the finishes less prone to fading.

FINISH INFORMATION

Laminates

Selected Formica® and Nevamar® laminates are available on Training Tables, Conference Tables, Conference Room Furniture and select Occasional Tables. For standard laminate and wood pricing, refer to individual item pricing columns.

Non-Standard Laminates and Linoleums

To order a color other than those on our list (see pages vi-vii), refer to Nevamar or Formica standard grade, matte texture laminate offerings and Forbo Furniture Linoleums (excluding manufacturers' non-standard matte offering).

- For approved non-standard laminates with a hardwood edge, the upcharge is 10% of the base price per laminate color with a minimum of \$525 and capped at \$1975.
- For approved non-standard laminate with a standard ABS edge, the upcharge is \$175 per laminate color.
- For approved non-standard laminates with a non standard ABS edge, please contact customer service.

To ensure your non standard laminate is on our approved list, please contact customer service. Add one week to the lead-time for all non-standard laminate and linoleum orders. Call the NuCraft Customer Service team for quotes on premium grades and laminates. Mirror and metal laminates are not available.

Care and Maintenance of Laminate and Novawrap

Laminate and Novawrap surfaces may be cleaned with a damp cloth and ordinary soap or non-abrasive household liquid detergent. Dry the surface with a clean cloth or soft paper towel to prevent streaks from appearing.

Care and Maintenance of Metal

Metal surfaces can be wiped with a damp cloth and rubbed dry. A mild non-abrasive household liquid detergent can be used if necessary. Regular maintenance of metal components, including tightening of fasteners and light lubrication of moving parts, will extend the life of your furniture.

Satin Etched Glass

Glass color may vary slightly on multi-piece conference table tops over 180" x 60" when satin etched glass is specified due to the iron content and etching process of the glass.

Care and Maintenance of Glass

Clear or frosted glass may be cleaned with commercial glass cleaner. Be sure to use a lint-free cloth if cleaning the frosted side of the glass.

Stone and Solid Surface Material

Despite its reputation for durability, natural stone can easily be broken during handling and/or installation if proper techniques are not followed. In addition, NuCraft is not responsible for the installation of natural stone or solid surface materials on its products. Therefore, installers specifically trained in the installation of these materials must be utilized to ensure a quality installation. NuCraft shall not be liable for any damages incurred during the handling and/or installation of natural stone or solid surface materials on its products.

Care and Maintenance of Granite

Granite surfaces may be cleaned with a damp cloth and ordinary soap or non-abrasive household liquid detergent. Dry the surface with a clean cloth or soft paper towel to prevent streaks from appearing.

Care and Maintenance of Leather

Genuine leather requires very little care. NuCraft recommends that leather be dusted regularly. If a more thorough cleaning is needed, use lukewarm water and a mild, non-abrasive soap. Generate some lather and lightly rub the surface with cheesecloth. Rinse off any soap film with clean water and towel dry. The leather may dry dull. To restore the leather to a normal gloss, rub it with a clean towel. Never use furniture polish, oil, varnish or ammonia. Saddle soap may be used to prevent the leather from becoming brittle or cracked and to maintain the original supple finish.

Touch Up Finish Kits

Model #	Description	Price
KIT-M	Metal Kit	80
KIT-P	Paint Kit	80

WOOD FINISHES

STANDARD

Default veneer sheen will vary per finish and were determined by a team of experts who reviewed the colorways to determine if gloss or matte best highlighted the natural characteristics of the species of wood and the color of the stain. Default finish is bolded. If no direction is provided, default sheen will be selected.

UPHOLSTERY FABRIC

Applies to Pedestal Cushions

Nucraft is pleased to have partnered with KnollTextiles, Spinneybeck, and UltraFabrics to offer a concise selection of standard upholstery fabrics pre-approved for use on our products, with prices that are figured into our graded-in system. We've carefully curated a selection of each of the textile's color lines to coordinate with our materials offering. However, all colorways are approved and available as standard. Please contact fabric manufacturer for sampling support.

GRADED-IN FABRIC PROGRAM

Top quality upholstery and fabrics have been graded into the price list. We work with various distributors and now offer a larger selection of fabrics. For a current list of graded-in manufacturers, check our website at www.nucraft.com

NET PRICE PER YARD	N U C R A F T G R A D E
\$0 - \$25.00	A
\$25.01 - \$40.00	B
\$40.01 - \$55.00	C
\$55.01 - \$70.00	D
\$70.01 - \$85.00	E
\$85.01 - \$100.00	F
\$100.01 - \$115.00	G
\$115.01 - \$130.00	H

For additional information on our graded-in fabrics program, please go to www.nucraft.com.

COM SPECIFICATION

For COM orders please include the following:

- Name of customer
- Customer's purchase order number
- Model number and quantity of piece(s) to be covered
- Specify right-way or railroad application (railroad is the default if no selection is made)
- If fabric is a stripe or pattern, specify vertical or horizontal application
- Supplier's name, material number and description

YARDAGE ESTIMATING

All yardages in the price list are based on 54" wide plain (no match) fabric. The following is a guide for fabrics that are less than 54" wide or have a pattern match.

Fabric Less Than 54" Wide

For 50" wide fabrics allow 10% additional fabric
For 48" wide fabrics allow 15% additional fabric
For 45" wide fabrics allow 20% additional fabric
For 36" wide fabrics allow 50% additional fabric

For Pattern Match Fabrics

3" to 14" repeat allow 15% additional fabric
15" to 19" repeat allow 20% additional fabric
20" to 27" repeat allow 25% additional fabric
28" to 36" repeat allow 30% additional fabric

Nucraft may add a charge for sewing, cutting and matching unusual COM or COL materials to cover additional costs. Call customer service for pricing.

It is the sole responsibility of the customer to determine that the fabric is appropriate for the application in which it will be used.

Once COM/COL is accepted, Nucraft assumes no responsibility for its overall appearance, flammability, normal durability, color fastness or any other quality after upholstered on a Nucraft product beyond our normal quality standards.

FIRE RESISTANCE

Nucraft will only work with textiles that meet the ACT Voluntary Performance Guidelines:

- Nucraft fabric tack panels incorporate fabrics that meet the ASTM E 84 standard US flammability test for wrapped panels.
- Nucraft upholstery fabrics for benches and cushions must meet one or more of the following flammability tests; NFPA 260, NFPA 701, or CAL 117.
- All COM fabrics must meet the required flammability standards per fabric application.
- Nucraft reserves the right to decline any fabrics that do not meet ACT standard flammability requirements.

COM LEATHER SPECIFICS

The following is a guide for specifying leather requirements. The guide is based on the following general information.

A full "domestic" hide is approximately 50-60 square feet. A specialty or calf hide is approximately 35 square feet. Of this footage there are various non-usable areas included in the hide's size. Conversion of fabric yardage to leather is approximately 1 yard = 18 square feet.

Bench Requirements

48" benches will require 1/2 domestic hide or 1 full calf hide.

60" benches will require 1 domestic hide or 2 calf hides.

72" benches will require approximately 1 full domestic hide or 3 calf hides.

The boxing around the seat, if required, will have 4-6 seams that will be placed aesthetically based on the yield and usable remains of the hides.
