

Nucraft specializes in expert custom finishes. Custom samples are complimentary and highly encouraged during the quote process and prior to order being placed.

**Fee at time of order:** 10% capped at \$2,200 list per finish per order (discount to be applied)

## Lead times for custom samples:

- Stocked Veneer: 5-10 business days
- Non-Stocked Veneer: 10-20 business days (upon receiving special veneer from vendor)
- Special Paint: 15-20 business days
- Special Glass: 15-20 business days

## Custom Finish Notes:

### Veneer Sheen:

- Matte sheen (18 sheen) is a durable finish that tends to nicely mask normal wear and leaves wood grain visible to the eye. It achieves a low luster, open pore appearance. Finish numbers preceded by the letter “M” indicate a Matte finish.
- Gloss (42 sheen) is a durable finish that tends to nicely mask normal wear and leaves wood grain visible to the eye. It achieves a medium, gloss open pore appearance. Finish numbers preceded by the letter “G” indicate a Gloss finish.
- Default veneer sheen will vary per finish and was determined by a team of experts who reviewed the colorways to determine if gloss or matte best highlighted the natural characteristics of the species of wood and the color of the stain. Default finish is noted in price lists. If no direction is provided on incoming orders, default sheen will be selected.
- Since each veneer type responds differently to both types of treatment, all will have a distinctive look and feel when finished. For example, a Walnut veneer with a Gloss treatment will remain much more textured than a Oak veneer with the same treatment.
- Additional special sheen levels such as low matte (10 sheen) and high gloss are available upon request for an additional upcharge.

### Veneer Cut:

- Default veneer cut will vary per veneer and per product. If no direction is provided on incoming orders, default cut will be selected.

### Veneer Grain:

- Nucraft utilizes an open pore finish by default. Open pore in veneer finishing means the pores of the wood grain are not filled during the finishing process, which highlights the natural texture and authenticity of the real wood. Full fill or closed pore is also available upon request for an additional upcharge.

# CUSTOM FINISH SAMPLE REQUEST

NUCRAFT

Please fill out the information below and include with your sample shipment. If you are ordering a sample direct from a manufacturer to be sent to Nucraft, please fill out this form and email to literature@nucraft.com

Sample(s) should be mailed to:

## Nucraft Headquarters

Attn: Customer Service c/o Reception  
5151 West River Drive  
Comstock Park, MI 49321  
616.784.6016

Please provide tracking information once the sample is sent to literature@nucraft.com
