TABLES

ASCARI™ CONFERENCE

Ascari Conference brings elegance and outstanding performance to meeting rooms. Luxurious materials combined with pristine craftsmanship and advanced technology create a table collection that is as beautiful as it is powerful.

Product Design Consultant | Gensler

FLOW™

Our award-winning conference table, Flow is available in five top shapes and a variety of base styles making for endless configurations and something for every space. Rich in technology, Flow has the largest variety of tabletop and subtop power and data options.

Designed by Joey Ruiter

ASPECT

Aspect is a combination of a sightline table, media table, and round table. Available in sizes suitable for 4 to 9 people, Aspect's design solves for technology constraints and supports both virtual and in-person conversations with digital meeting equity.

Designed by Joey Ruiter

PORTAL

Portal supports small spaces designed for privacy, acoustic control, and access to virtual meeting technology. Portal supports 1 to 3 users and offers one-to-one posture while meeting virtually.

Designed by Joey Ruiter

TWO4SIX®

Two4Six supports many work styles and spaces. The collection is light in scale with a nod to industrial and Scandinavian design elements. Two4Six is built to work in every corner of the floor plate, from huddle spaces to conference rooms.

Designed by Joey Ruiter

ALEV™

Alev is a meeting table with a mid-century modern design. The table was crafted with a four-piece veneer top, creating an elegant layout that celebrates its individual parts. Its curved edges evoke a richly organic appeal.

Designed by Birsal + Seck

ATIVA®

Ativa is a formal conference table with a classic design made to seat 12 to 52 people. The table is available in four shapes including square, rectangle, wide U-shape, and narrow U-shape.

Designed by Joey Ruiter

BAJA™

Conceptually inspired by the graceful curves of a surf board, Baja brings a casual sophistication to the office. The collection is offered in two unique base styles, a light scale wire base with a soft, sloping surf edge and a more traditional hoop base with a square crest edge top.

Designed by Joey Ruiter

CROSSBEAM™

Crossbeam brings together a premium residential design aesthetic, unique material applications, and elegantly integrated technology for a table that turns any space into a showroom.

Designed by Lauren Rottet

KAI®

The Kai table finds its inspiration in the structural elements of a suspension bridge, utilizing a Camber Rail design acting as both an engineering innovation as well as a design element.

Designed by Joey Ruiter

TOVA™

Inspired by a classic Parsons table, Tova's solid inner core allows for long expanses without using additional support. Tova artfully conceals power and data, while maintaining easy access to both, embracing minimalism without sacrificing productivity.

Designed by Mark Goetz

PRESTON™

Evoking inviting residential appeal, Preston is a community table highlighted by a center channel that divides the stunning horizontal grain pattern. The linear design makes the table feel longer, drawing users to its monolithic presence.

Designed by Joseph Jeup

TAVOLA™

Tavola was inspired by the visual relationship of faceted surfaces inherent in modern architecture. Shrouded in a clear anodized aluminum frame, Tavola's geometric shapes deliver an edgy design with exceptional quality.

Designed by Mark Goetz

TESANO™

Simple in form and angular in shape, Tesano is a community table with modern appeal that creates an inviting space for impromptu gatherings and collaboration.

Designed by Joey Ruiter

CREENZAS

ASCARI™ CREDENZA

Complementing the Ascari conference tables, Ascari credenzas showcase the luxurious design elements established by the tables and casegoods. The collection offers meeting room essentials that combine both work and hospitality for a credenza that is equally hardworking and design-forward.

Product Design Consultant | Gensler

FLOW™ CREDENZA

Flow Credenza is our most versatile storage solution, combining modern design, functionality, and organization. With a wide range of material applications and base styles, it transitions seamlessly from formal conference rooms to relaxed lounge settings. Interior options include a refrigerator drawer, pull-out drawers, shelving, equipment racks, and integrated waste and recycling units, offering tailored solutions for any environment.

Designed by Joey Ruitter

PERFORMANCE CREDENZA™

Performance Credenza features a variety of amenity-rich options perfect for meeting rooms. Interior options include refrigeration, technology equipment storage, waste and recycling units, and more.

FORENA™

The Forena collection of credenzas was crafted with the idea that storage can be beautiful too. Inspired by the luxurious design details of residential furniture, Forena gracefully conceals meeting room must haves behind an elegant case.

Designed by Joseph Jeup

COMPATTA®

Compatta is a credenza designed for small spaces and loaded with features. The compact design addresses the renewed use of small meeting spaces, without sacrificing interior components.

MEDIA TABLES

TWO4SIX®

Two4Six Media tables keep your meetings efficient and connected to your projects and peers. Two4Six Media is offered with options like standing and seated heights, slab and credenza bases, and a variety of power options.

Designed by Joey Ruiter

RECONFIGURABLE TABLES

AGILITY®

Agility reconfigurable and collapsible tables feature an elegant blending of form and function. The individual tables can be formed into a U-shape, oval-shape, or rows for a classroom setting. Their crisp, clean lines create a signature statement wherever reconfigurable tables are needed.

Designed by Jess Sorel

APPROACH™

Approach tables are multifunctional, modular, and adaptive for environments designed as multi-purpose meeting spaces. They offer various configurations and accommodate transformation from training space, to event place, to formal meeting room.

Designed by Joey Ruiter

TRAINING TABLES

MYNE™

Work styles are evolving and dedicated training areas have been replaced with versatile environments that can instantly adapt to a variety of activities. MYNE mobile tables address this evolution with the MYNE In and MYNE Out table collection.

Designed by Robin Rizzini, Metrica

FLEET™

Fleet training tables are designed to facilitate instruction. They come with optional ganging connectors for a semi-permanent table setup, and the nesting tables are collapsible for ease of storage.

Designed by Joey Ruiter

LOUNGE & OCCASIONAL

EMBER LOUNGE™

Crafted for today's work-lounge environments, Ember transitions effortlessly from casual conversation to creative exchange. It creates a comfortable pause in busy spaces—one that invites people to settle in and stay connected. Thoughtfully designed, it supports the way people work, gather, and unwind.

Designed by LAYER

TALIS™

With thoughtful regard to scale and aesthetic, the Talis collection provides storage and design to your space. Intended to fit seamlessly within any environment, Talis is available in bench, console, and occasional table.

Designed by Joseph Jeup

EMME

Connection is essential for collaboration and innovation. Sometimes the best connections happen during a causal conversation. Emme supports the practice of causal meetings with side tables, coffee tables, consoles, and benches. With a variety of finishes, Emme not only provides an opportunity for versatility in space, but also in visual design.

Designed by Jess Sorel

LECTERNS

SUMMIT LECTERN™

Designed with the modern-day meeting in mind, Summit Lectern elegantly instills confidence in the presenter. The lectern is offered in two styles: fixed height and height adjustable.

Designed by Joey Ruiter

HIGH TECH LECTERN™

Modern and efficient in design, the High Tech Lectern is the presentation command center. The lectern's distinctive thin profile metal feet give the product a lighter feel than conventional lectern designs. Its slimmer column style and more technology intensive case version offer scalable technology accommodation.

Designed by Joey Ruiter

PRIVATE OFFICE

ASCARI™

Ascari combines a wealth of elegantly conceived elements for outstanding presence and performance. The convergence of thick and thin surfaces, the use of mixed materials, and the combination of modern form and obsessive craftsmanship create a well-balanced private office concept that embodies demanding style and earned luxury.

Product Design Consultant | Gensler

CAMBIUM™

Focused on function and sophistication for the private office, Cambium offers a mix of materials and finishes with an attention to detail that reflects today's design trends. The simple yet elegant casegood design can be customized to enhance personal design and function.

MERINO COLLECTION™

To meet the needs of today's executives, Merino Collection for the private office neatly blends refined elegance with personal, practical function. On the outside, Merino is clean and precise. Inside, it's rich and warm. Everywhere, attention to detail is uncompromised.

METRICA

Ayse Birsal and Bibi Seck have designed and developed products for a wide variety of industries such as home, retail, automotive, and office. **Birsal + Seck** is an award-winning human-centered design and innovation studio. They count among their accolades multiple Best of NeoCon Overall and Gold Awards as well as Industrial Design Excellence Awards. Ayse was also named “One of the World’s Most Creative People” by Fast Company. Their emphasis on thinking as global citizens allows them to bring empathy, simplicity, and sustainability to everything they create.

Product Design Consultant, **Gensler**, is widely recognized as the world’s leading collaborative design firm, offering the expertise and experience gained by supporting clients across the globe. As product designers, the firm draws on its vast knowledge of new materials, the latest technologies, and evolving workplace trends to enhance visual appeal, performance, and end user experience.

Blending elegant design with avant garde functionality, **Jess Sorel** brings a fresh new vision to industrial design. Past breakthroughs include everything from reconfigurable table collections like Agility to occasional tables, consoles, and benches.

Award-winning and globally-acclaimed designer, **Joey Ruiter** pushes through the boundaries of the norm to transform everyday objects into products that are just as useful as they are jaw-dropping.

His unique perspective, style, and approach challenge design principles and lead us to reimagine how we see things and what might be possible after all.

Driven by instinctual talent and innate passion, **Joseph Jeup** embodies exceptional craftsmanship. He believes every detail is a design opportunity and that uncompromising standards yield incomparable results. This philosophy has helped establish Jeup as a world-class designer with a devout following who regard his work as functional art. As an engineer and a designer, he uses both disciplines to tackle design from a broad perspective, which is what defines him as a craftsman and artist.

Lauren Rottet of Rottet Studio is one of the most celebrated interior architects in the world, garnering countless awards throughout her career, including four Best of NeoCon gold medals. As the only woman ever to achieve Fellow status by both the American Institute of Architects and International Interior Design Association, and as an Inaugural Member of the Women in Design Hall of Fame, she has become a living legend in the A&D community. Mrs. Rottet has created spaces for many Fortune100 Companies, including Goldman Sachs, Disney, and GE.

Benjamin Hubert is an acclaimed British designer and the founder of **LAYER**, a renowned London-based design agency celebrated for its innovative, experience-

driven approach across furniture, technology, and lifestyle products. Leading a multidisciplinary team, Hubert collaborates with global brands, consistently pushing the boundaries of how people live, work, and interact with their environments in both physical and digital realms.

Throughout his 25-year career, **Mark Goetz** has been responsible for creating innovative furniture collections with a classically modern design appeal. He designs high-end conferencing and private office solutions for Nucraft from his studio in Brooklyn, New York. Regardless of the application, Mark remains passionate about innovation, respectful of the environment, and ever mindful of human needs.

Metrica is an internationally renowned design studio, based in Milan, with a reputation for taking a unique approach to contemporary furniture design. Looking at design through a new context, Metrica streamlines its global vision for turnkey management of a project from design through production.
