

ROBIN RIZZINI  
Chief Designer & Partner, Metrica

Metrica is an internationally renowned design studio based in Milan with a reputation for taking a unique approach to contemporary furniture design. Looking at design through a new context, Metrica streamlines its global vision for turnkey management of a project from design through production.

## MYNE

## MYNE

Work styles are evolving, and dedicated training areas have been replaced with versatile environments that can instantly adapt to a variety of activities and workers. Myne tables bring higher design to these spaces, along with the highest level of adaptability. An innovative nesting leg design routes power and enables flexibility, while a quick-release mechanism pivots the top to a secure upright position for convenient storage. Accessories such as mobile markerboards and paper trays increase organization and facilitate presentations. In short, Myne simply brings more to the table.
